Re: License No. 13-7089

Dear Mr. Foster:

Pursuant to your letter dated February 2, 1985, and our telephone conversation of this date, I am sending this letter to respond to your concern about the limitation of the period of use of stockwater for the period May 1 through August 15 annually, as described on the above-referenced license.

Please be advised that, in Idaho, water rights must generally be fully recorded with one primary exception. This exception pertains to single household domestic or stockwater use for up to one thousand head. The exception, as described in Section 42-230d, Idaho Code, is described in the attached brochure entitled "Keep Your Water!" Essentially, the exception provides that for purposes of single household domestic use for stockwater of fewer than one thousand head where the source is groundwater, water rights do not need to be recorded by the water user. Instead, such water rights are considered to be unrecorded beneficial use rights and can be recorded at any time should a future need arise.

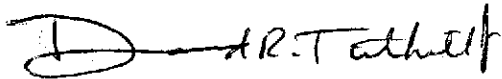

In your situation, the application for permit filed by Keven Stone and yourself identified two households, so the originally anticipated system was not eligible for the exception. However, because only one household was found to be using water beneficially, a portion of your use can be considered to be included under the exception. Normally, if both domestic use and stockwater use of more than a few household head are included under one system, some type of filing is needed. However, since you already have developed a license on this use, we can consider the stockwater portion of the use to be included under the exemption, and no limitation of period of use is needed.

In summary, in my opinion, the watering of up to one thousand head of stock during the period of August 15 through April 31 annually does not require another recorded water right, but rather is allowed by the exemption provided in Section 42-230d, Idaho Code. If, however, you or the purchaser of the

property desire to record this use, you may do so by filing an Application for Permit which can be conducted through our Eastern Regional Office in Idaho Falls.

Sincerely,

Mr. Kenneth Dunn:

Regarding Water Right License No. 13-7089 issued in the name of Cecil Foster and Kevin Stone.

I am selling the property this right services. In checking the license we find the Stockwater period of use from May 1 to August 15. The permit issued on this well gave the use dates from Jan. 1 to Dec. 31 both dates inclusive.

The dates from May 1 to August 1 do not correspond to to the requirements of livestock watering.

I contacted the Idaho Falls office regarding this matter. They suggested I write to you explaining the situation. I would appreciate your informing me as to how these dates can be changed to correspond with the requirements of stock watering.

Yours very truly,

Cecil Foster
