THIS IS TO CERTIFY, that Darrell D. Rank
of Dayton, Idaho, has complied with the terms and conditions of Permit
No. 13-7085 issued pursuant to Application for Permit dated October 11, 1974,
and has submitted proof to the Department of Water Resources on October 22, 1980,
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the ~~diversion~~ ^{storage} of 3.4 acre feet of water from Five Mile Creek,
tributary to Bear River, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume

In talking with field examiner we felt that the permit defines storage diversion and stockwater diversion as being during the spring runoff (items 6a, 8c and 10). Therefore only a storage amount could be justified during the spring runoff.

Re: Permit No. 13-7085

Enclosed is the statement of beneficial use received in our office on September 5, 1980.

I have compared your statement of beneficial use along with Permit No. 13-7085 and find there is a discrepancy in the source of water. Permit No. 13-7085 is for 2.06 cubic feet per second of water from Five Mile Creek for storage, irrigation, stock and domestic purposes. The recently submitted postcard shows water is diverted from a groundwater source (well) for irrigation purposes only.

Our records show you do have a water right permit (29-7406) for use of water from a groundwater source. However, you have met the requirement of beneficial use for that permit.

If you are diverting water from Five Mile Creek for the purposes described above, complete the blank postcard and return it to this office before November 1 to keep your permit in good standing. If you haven't completed the project and need an extension of time, complete the enclosed request and return it along with the \$15.00 filing fee.

If you need further assistance with this matter, please feel free to contact this office.

Sincerely,

RITA FLECK
Sr. Secretary

DEAR PERMIT HOLDER:

ONE OF THE CONDITIONS OF APPROVAL OF YOUR WATER PERMIT NO. 13-7085 WAS THAT EVIDENCE OF THE EXTENT OF DEVELOPMENT MUST BE SUBMITTED TO THIS OFFICE ON OR BEFORE NOVEMBER 01, 1980. (SEE LAST PAGE OF YOUR APPROVED PERMIT). ENCLOSED IS A POST CARD WHICH MAY BE USED TO SUBMIT THE REQUIRED PROOF OF BENEFICIAL USE.

IF YOU HAVE NOT FULLY COMPLETED YOUR PROJECT, AND YOU HAVE NOT PREVIOUSLY RECEIVED AN EXTENSION OF TIME, YOU MAY REQUEST AN EXTENSION OF TIME PROVIDED THE DELAY IS FOR REASONABLE CAUSE AS INDICATED IN SECTION 42-204, IDAHO CODE, AMENDED. IF YOU HAVE BEEN PREVENTED FROM PROCEEDING BY A GOVERNMENTAL AGENCY OR BY LITIGATION, MORE THAN ONE EXTENSION OF TIME CAN BE GRANTED. A REQUEST FOR EXTENSION OF TIME FORM IS ENCLOSED FOR YOUR CONVENIENCE. PLEASE NOTE THAT A FEE OF \$15.00 MUST BE SUBMITTED WITH THIS FORM.

EITHER THE BENEFICIAL USE POST CARD OR A REQUEST FOR AN EXTENSION OF TIME MUST BE RECEIVED BY THIS DEPARTMENT ON OR BEFORE THE ABOVE MENTIONED DATE, OTHERWISE, THE PERMIT WILL LAPSE AND BE OF NO FURTHER FORCE OR EFFECT WITHIN 60 DAYS.

SINCERELY,

Re: Withdrawl of Protest for Application for Permit No. 13-7085
Filed by Darrell D. Rank - Franklin County, Idaho

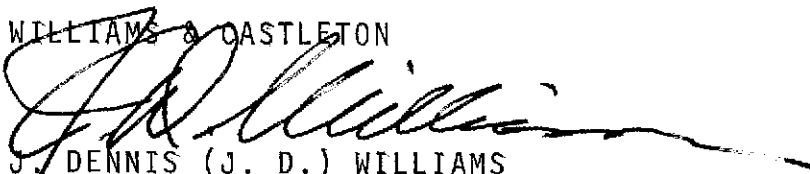

Dear Mr. Carlson:

At the request of Preston Five Mile Irrigation Co., I have reviewed the revised application for permit submitted by Mr. Darrell Rank of Dayton, Idaho. Additional restrictions added to the application provide that the storage rights will be for irrigation, the proposed storage reservoir will be off stream and that all other diversions applied for will be from the storage reservoir and not from the channel of Five Mile Creek.

In view of these restrictions on Mr. Rank's application, I have been authorized to inform you that the Preston Five Mile Irrigation Company will withdraw its protest previously filed with the department.

Yours very truly,

As you recall, it was agreed at the conference held in Preston, July 8, 1975, that you would prepare a document withdrawing the protests submitted against the above referenced application for permit. Since it has been nearly four months since the conference, I have become concerned that possibly some additional problems have developed that are delaying the withdrawal of these protests.

Please keep me advised what progress is being made in this matter.

_____)	

A conference in the matter of protest filed against the granting of this permit by Five Mile Irrigation Company was held on July 8, 1975, in Preston, Idaho. The applicant was present and represented himself. All of the protestants present were represented by J. D. Williams, Attorney at Law.

The testimony given at the conference indicated that early in the season unappropriated water is available in Five Mile Creek. When it was determined that the proposed reservoir indicated on this application was off stream storage and that water would only be diverted for storage early in the year, the protestants agreed to withdraw their protest, provided it was clearly stated on the application that all diversions listed will be made from storage and that no irrigation or stock water would be pumped from the live stream. J. D. Williams, attorney for the protestants, agreed to prepare a document withdrawing the protest.

NOTICE OF CONFERENCE

AND/OR HEARING

On October 11, 1974, Darrell D. Rank filed with the Department of Water Resources an application to appropriate the public waters of the State of Idaho. On October 29, 1974, the Department received a protest against approval of said application from J. Dennis Williams, Attorney at Law, on behalf of Five-Mile Irrigation Company.

The Department has set the matter of protest for conference and/or hearing for Tuesday, July 8, 1975, at 3:00 p.m., in the Courtroom of the Franklin County Courthouse, Preston, Idaho. Any hearing will be held in accordance with the Rules and Regulations of the Idaho Code and adopted Rules of Practice and Procedure of the Department of Water Resources. Opportunity shall be afforded all parties to respond and present evidence and argument on all issues involved.

Any party may request in writing five (5) days before any hearing that the oral proceedings thereof be taken in the form of stenographic notes. Any party may have such stenographic notes of the oral proceedings, or part thereof, transcribed at his own expense. A taped record of the proceedings will be maintained for the appeal period.

Failure to appear at the time and place set for hearing by the applicant or protestant may allow the Department without prejudice to dismiss the protest or the application. Any and all cost incurred by reason of such non-appearance may be assessed against such non-appearing parties.

Dated this 19th day of June, 1975.

Dear Mr. Williams:

Darrell Rank contacted me this morning and requested that I send you a copy of his application No. 13-7085.

If this application is approved it will have a priority of October, 1974. Any water users with rights prior to October, 1974 will be entitled to fill their rights before any water can be appropriated under this permit.

Mr. Rank believes that there is water available early in the spring that he could use to fill his reservoir and divert for irrigation later in the year.

If the protestants are satisfied that their prior water rights will not be effected by the issuance of this permit and wish to withdraw their protest, or can work out a stipulated agreement with Mr. Rank, the Department will resume processing this application as soon as we receive a copy of the agreement.

If you have any questions concerning this matter, please feel free to contact this office.

RE: Application for Permit No. 13-7085

Dear Mr. Rank:

We have enclosed a copy of the protest filed against the issuance of a permit pursuant to your Application No. 13-7085. You should be aware that the following are the principle items we can consider at a conference and/or hearing in either approving or denying an application for permit (Section 42-203, Idaho Code):

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purposes intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?

The Department cannot allow a permit for irrigation purposes which would entail the use of more than a continuous flow of 0.02 cubic feet per second of water for each acre of land, or an annual amount of 5 acre feet for each acre of land, unless the applicant can show that more is required. (Section 42-202, Idaho Code)

A permit issued by this office is subject to all prior water rights and does not in any way convey or establish a right-of-way over private or governmental lands. Any right-of-way or easement must be obtained by the applicant through action outside of the water right proceedings.

You will be notified at a later date as to the time and place set for a conference and/or hearing to discuss the matters of protest. Legal counsel is not mandatory at any proceeding before the Department, although you may desire to employ an attorney in your behalf.

If we may be of any assistance, please contact us.

Dear Mr. Williams:

This is to acknowledge receipt of your protest to issuance of a permit pursuant to the above referenced application. The following are the principle items we can consider at a conference and/or hearing in either approving or denying an application for permit (Section 42-203, Idaho Code):

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purposes intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?

The Department may reject an application and refuse issuance of a permit, partially approve the permit, approve the permit for a quantity of water less than applied for, or approve the permit subject to special conditions.

A permit issued by this office is subject to all prior water rights and does not in any way convey or establish a right-of-way over private or governmental lands. Any right-of-way or easement must be obtained by the individuals concerned through action outside of the water right proceedings.

You will be notified at a later date as to the time and place set for conference and/or hearing to discuss the matters of protest. If we may be of further assistance, please contact us.

Dear Mr. Rank:

We are in receipt of your application for permit, but feel that it needs some further clarification. We have taken the liberty to retype your application with the following changes:

Item 2 shows the water source as an unnamed stream. If the stream has a name or if the water is surface runoff, please show this.

Item 4 has been changed to show 100 acre feet of storage, 0.94 cfs for irrigation and 0.06 cfs for stockwater and domestic purposes. The 0.06 cfs listed for stockwater and domestic is the maximum amount allowed for these purposes. The maximum amount that could be appropriated for the 100 acres is 2.0 cfs, but this would bring the total amount to 2.06 cfs, which would require a filing fee of \$45.00. If you wish to file on the additional water and pay the higher fee, please change Item 4 and Item 5 showing the amount you wish to appropriate.

If we may be of further assistance, please feel free to contact this office.

Very truly yours,

Mr. Darrell D. Rank
P.O. Box 52
Dayton, Idaho 83232

Dear Mr. Rank:

We are returning herewith your application and Check No. 92-273 in the amount of \$10.00. The statutory filing fee for an application to appropriate 100 A.F. of water is \$25.00.

Please clarify or complete the following specific items on the application before resubmitting it:

Item 3 indicates the point of diversion is located in the NW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 22, T. 15S, R. 38E. The map and aerial photo locate the point of diversion in the NW $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 22, T. 15S, R. 38E. This location should be consistent throughout the application.

Item 4 indicates a quantity of 8.5 for irrigation and 1.5 for domestic. Should these quantities be 85 acre feet for irrigation and 15 acre feet for domestic use?

Item 8a (1) should be completed to reflect the places of use for stockwater and domestic uses.

Item 8a (3) indicates 30 head of cows and calves are to be watered. This should be reflected as a separate use with its own quantity and time during the year that water will be used for this purpose in Item 4. If this significantly changes the total quantity to be appropriated in Item 5 the statutory filing fee must be adjusted as indicated by the enclosed instructions.

Item 8a (4) should be completed.

Item 8b indicates land irrigated in the NW $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 21, T. 15S, R. 38E, and the E $\frac{1}{2}$ SE $\frac{1}{4}$, Sec. 22, T. 15S, R. 38E. This land is not shown in Item 11; map of proposed project.

Mr. Darrell D. Rank
September 27, 1974
Page 2

It appears from the map in Item 11 that land will be irrigated in the NE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 21, T. 15S, R. 38E, and the SE $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 22, T. 15S, R. 38E. This land is not shown in the acreage grid Item 8b. The acreage grid and map of land to be irrigated should be consistent.

Item 8c should be completed. If no other water rights are used for the same purpose as described in the application insert the word "none".

For your convenience, please find enclosed a blank application, instructions, and Water Users Handbook to aid you in completing this filing. If we can be of further assistance, please do not hesitate to contact this office.

Very truly yours,

JOHN R. FEREBAUER
Water Resource Technician
