RE: Water Right Licenses 13-7069 and 13-7048

Craig P. Orrock
433 South 400 East, Suite 1
Salt Lake City, UT 84111

Dear Mr. Orrock:

Thank you for your letter dated 10/8/1981. In reviewing both files, I have found that both water rights have been licensed and are no longer in permit stage. In Idaho, a water right license is considered real property and can be acquired when the property to which it is appurtenant to is purchased. Proof of owning the water right license would be established by proof of owning the land. Therefore, Mrs. Bastian would own the water right licenses along with owning the land and no assignment or transfer of name is necessary.

The water right licenses will be active until 5 years of non-use, and then the rights are forfeited. If at any time the place of use or point of diversion is changed, I suggest that the present owner submit a transfer to our office.

If you have any other questions concerning this matter, please contact me at 334-4123.

Sincerely,

ROBYN CARLSON

to make him aware that an examination
needs to be completed. He is discussing
the possibility of transferring his Bear River
water into the cache canal therefore changing
the point of diversion. If this is feasible
he will have effectively reduced the lift by
60 ft. This will reduce pumping costs.

We may encounter a dismantled system
early in the spring as he changes the location
of his pump.
