Dear Mr. Inglet:

Re: Claim to a Water Right

Enclosed you will find a claim that, for your convenience, has been partially completed in this office from information obtained from your letter of February 16, 1979 and the title of abstract you submitted to this office. It will be necessary for you to complete the following:

Item 1. Show the month, day, and year as to your best information when the water was first put to beneficial use. If it is impossible to determine the exact day, use the first day of the month.

Item 5. Complete the legal description for the point of diversion in forty-acre tracts.

Item 5.b. If the water was diverted from the Bear River by means other than an electric pump when the water was first put to use, indicate that means of diversion.

Item 6. The abstract of title that you have sent me describes approximately 180 acres that you own, yet you state in your letter to be irrigating only 60 acres. It is, therefore, impossible for me to determine which lands you irrigate. You must indicate the irrigated acreage by completing Item 6. An aerial photo from the ASCE office with the lands irrigated outlined and the proper location shown would be of great assistance in completing this item.

When you have completed the above items, sign the claim in the presence of a notary public and submit it to this office, along with the statutory claim fee of \$20.00. It would also be to your benefit to file the abstract of title with your claim. Should you have any questions regarding this matter, please feel free to contact this office.
