RE: Claim to a Water Right No. 13-4032

Mr. Ernest Gregersen
Banida, Idaho 83264

Dear Mr. Gregersen:

The Department of Water Resources has completed the processing of your claim to a water right and no further action is authorized under Sections 42-225a and 42-225b, Idaho Code. Your claim will be retained in our files and will be available at any time for use by you or the court.

As you are aware, the filing of your claim does not, in itself, guarantee you a water right; it only records and preserves the information and the evidence which you included in your claim.

If, at a later date, you find that you have additional information or supporting evidence that you would like to have included in your claim file, you may have that information or evidence added at any time. Please refer to your claim number when corresponding with this office.

We are enclosing, for your records, a copy of your claim. If you have any questions or if we can be of further assistance, please feel free to call upon us.

Very truly yours,

RONALD D. CARLSON

Dear Mr. Gregersen:

We are unable to accept your claim to a water right because it was not submitted in correct form for processing. From the information given we have prepared a claim to a water right form which is enclosed, along with your check No. 92-171 in the amount of \$10.00.

Please inspect the claim carefully and if it meets with your approval, sign it before a notary public and return it to this office with the statutory \$10.00 filing fee.

If you have any questions about your claim, please do not hesitate to contact us.

Very truly yours,

Dear Mr. Wykle:

Pursuant to our telephone conversation this day, please find enclosed an application for permit and a claim to a water right form with instructions.

The statutory filing fee for a claim is \$10.00. The filing fee for an application, assuming that you are filing on one inch per acre for 80 acres is \$35.00. The Idaho Code limits the rate of diversion to one-inch per acre unless otherwise justified such as sandy soils determined by Soil Conservation experts. It is allowable to have one-inch per acre from a ground-water source and one-inch per acre from a surface source.

If we can be of further assistance, please feel free to contact this office.

Very truly yours,

Bill Rhoads
