

APPLICATION FOR PERMIT

To Construct a Reservoir and Appropriate and Store
The Public Waters of the State of Idaho

Application No. R 36766
Permit No. R 1074

Idaho
State

1. Name of Applicant: W. Maurice Tingey

Post office address: Weston

County Franklin

I. If applicant is a corporation, give:

(a) Date and place of incorporation:

(b) Amount of Capital Stock: \$

(c) Amount paid in: \$

(d) Names and addresses of directors:

II. The financial resources of the corporation are:

(a) Cash on hand: \$

(b) Treasury Stock: \$

(c) Bonds to be issued: \$

(d) Other resources:

2. Quantity of water to be stored: 172 AF

3. Source of water supply is an un-named stream (Creek) (River) (Spring), a tributary of Nash Hollow River.

4. The outlet of the proposed reservoir is located N. 34° 30' E. 1700 feet, distant from the SE corner of Section 12, Township 16 S, Range 38 E., B.M. and is in the NE 1/4 of SE 1/4 of Section 12, Township 16 S, Range 38 E., B.M. County of Franklin

5. Fill out either (a) or (b).

(a) The reservoir is located in the channel of Un-named stream (Creek) (River).

(b) The reservoir is to be filled through a feeder canal, the point of diversion for which is located feet distant from

the corner of Section, Township, Range, B.M., and is in the 1/4 of 1/4 of

Section, Township, Range, B.M.; width at bottom feet, width at top

feet, depth of water feet; average grade per mile feet; Capacity cubic feet per second

6. (a) The area of the high water line of the reservoir is 20.6 acres.

(b) The reservoir capacity is 172 acre feet.

7. Height of reservoir dam 26 feet, length at top 675 feet, length at bottom 137 feet, size of outlet 14 in. D- feet

by feet. The dam is to be constructed of materials as follows: clay loam clay sandy clay & sands

(If height will exceed 10 feet, plans must be approved by Department of Reclamation, before beginning construction.)

8. (a) Will water stored in reservoir be diverted to canal or aqueduct, thence to land to be irrigated without commingling with natural flow of

Nash Hollow & Tributary (Creek) (River)? Yes

(b) Water stored in reservoir will be carried in the channel of (Creek) (River) a distance

of miles to point of diversion located feet, distant from the corner of Section

Township, Range, B.M., and in the 1/4 of 1/4 of Section Township, Range

, B.M.

9. (a) Area of watershed above dam site square miles.

(b) Estimated maximum flow of stream .63 cubic feet per second.

10. Water is to be used for Irrigation purposes,

11. If for mining, milling, power or manufacturing purposes give:

(a) Point of use of water feet, distant from Corner of Section, Township, Range

(bearing), B.M., and is in the 1/4 of 1/4 of Section, Township, Range, B.M.

(b) Amount of power generated: H.P., under feet head.

(c) Water is to be returned to (Creek) (River) (Spring) at a point feet

distant from the corner of Section, Township, Range, B.M. in

the 1/4 of 1/4 of Section, Township, Range, B.M.

12. Water stored in accordance with this Permit will be carried to place of use through a canal heretofore constructed under the terms of Permit No.

which is hereby referred to and made a part hereof.

13. Kind of diversion works: canal and pipeline (Dam, canal, flume, pipe, etc.)

14. Height of diversion dam: feet, length at top feet, length at bottom feet. The dam is to be constructed

of materials as follows:

(If height will exceed 10 feet, plans must be approved by Department of Reclamation, before beginning construction.)

, making a total of 258 acres.

That an additional amount of water is not asked for, and that the rights of others
will not be adversely affected by such change.

Signed at Norton this 30 day of July, 1962
H. Maurice Ingey

Date of receipt at office of Department of Reclamation July 2, 1962

APPROVAL OF STATE RECLAMATION ENGINEER

RALPH W. THOMAS, Deputy

I, ~~STATE RECLAMATION ENGINEER~~, State Reclamation Engineer of the State of Idaho, hereby approve

the above and foregoing application for amendment to Permit to appropriate the Public
Waters of the State of Idaho, No. R-1074. This approval constitutes a new permit
and is issued as an amendment to the original permit, to which it refers, and of which
it becomes a part, and said application is approved only insofar as the rights of others
will not be adversely affected thereby.

APPLICATION FOR PERMIT

To Construct a Reservoir and Appropriate and Store
The Public Waters of the State of Idaho

Application No. R 36766
Permit No. R 1074

1. Name of Applicant: W. Maurice Tingey

Post office address: Weston

County Franklin

I. If applicant is a corporation, give:

(a) Date and place of incorporation:

(b) Amount of Capital Stock: \$

(c) Amount paid in: \$

(d) Names and addresses of directors:

II. The financial resources of the corporation are:

(a) Cash on hand: \$

(b) Treasury Stock: \$

(c) Bonds to be issued: \$

(d) Other resources:

2. Quantity of water to be stored: 172 ac

3. Source of water supply is an un-named stream (Creek) (River) (Spring), a tributary of Nash Hollow River.

4. The outlet of the proposed reservoir is located N. 34° 30' E. 1700 feet, distant from the SE corner of Section 12, Township 16 S, Range 38 E, B.M. and is in the NE 1/4 of SE 1/4 of Section 12, Township 16 S, Range 38 E, B.M. County of Franklin

5. Fill out either (a) or (b).

(a) The reservoir is located in the channel of Un-named stream (Creek) (River).

(b) The reservoir is to be filled through a feeder canal, the point of diversion for which is located feet distant from the corner of Section, Township, Range, B.M., and is in the 1/4 of 1/4 of Section, Township, Range, B.M.; width at bottom feet, width at top feet, depth of water feet; average grade per mile feet; Capacity cubic feet per second

6. (a) The area of the high water line of the reservoir is 20.6 acres.

(b) The reservoir capacity is 172 acre feet.

7. Height of reservoir dam 26 feet, length at top 675 feet, length at bottom 137 feet, size of outlet 14 in. D- feet by feet. The dam is to be constructed of materials as follows: clay loam clay sandy clay & sands

(If height will exceed 10 feet, plans must be approved by Department of Reclamation, before beginning construction.)

8. (a) Will water stored in reservoir be diverted to canal or aqueduct, thence to land to be irrigated without commingling with natural flow of Nash Hollow & Tributary (Creek) (River)? Yes

(b) Water stored in reservoir will be carried in the channel of (Creek) (River) a distance of miles to point of diversion located (bearing) feet, distant from the corner of Section Township, Range, B.M., and in the 1/4 of 1/4 of Section Township, Range, B.M.

9. (a) Area of watershed above dam site square miles.

(b) Estimated maximum flow of stream .63 cubic feet per second.

10. Water is to be used for Irrigation purposes.

11. If for mining, milling, power or manufacturing purposes give:

(a) Point of use of water feet, distant from Corner of Section, Township, Range (bearing) B.M., and is in the 1/4 of 1/4 of Section, Township, Range, B.M.

(b) Amount of power generated: H.P., under feet head.

(c) Water is to be returned to (Creek) (River) (Spring) at a point feet distant from the corner of Section, Township, Range, B.M. in the 1/4 of 1/4 of Section, Township, Range, B.M.

12. Water stored in accordance with this Permit will be carried to place of use through a canal heretofore constructed under the terms of Permit No. , which is hereby referred to and made a part hereof.

13. Kind of diversion works: canal and pipeline (Dam, canal, flume, pipe, etc.)

14. Height of diversion dam: feet, length at top feet, length at bottom feet. The dam is to be constructed of materials as follows:

(If height will exceed 10 feet, plans must be approved by Department of Reclamation, before beginning construction.)

Idaho
State

acre feet per annum.

(Give Irrigable acreage in each 40-acre subdivision.)

Total Number of Acres to Be Irrigated 260

TO ALL WHOM IT MAY CONCERN:

This is to certify that W. MAURICE TINGEY of Weston, County of Franklin, and State of Idaho, the holder of Permit No. R-1074, issued upon Application No. 36766, bearing date of priority of June 9, 1960 authorizing the construction of a reservoir, with the right to appropriate and store 172 acre feet per annum of the waters of an unnamed stream, a tributary of Nash Hollow River, in the County of Franklin, State of Idaho, for irrigation purposes, has fully complied with the provisions of the laws of the State of Idaho relating to the proof of completion of the works set out and described in said Permit; that said works include a dam and reservoir adequate for the storage of 172 acre feet of water per annum, with adequate diversion works and conduit to the reservoir, and a conduit capable of conducting said water to the place of intended use; that the point of outlet of said reservoir is located in the $NE\frac{1}{4}$ of the $SE\frac{1}{4}$ of Section 12, Township 16 S., Range 38 E. B. M., and that the place of use, or the lands proposed to be irrigated by the use of said water, are described as follows, to-wit:

$S\frac{1}{2}NE\frac{1}{4}$, $SE\frac{1}{4}$, Sec. 12; $N\frac{1}{2}NE\frac{1}{4}$, $NE\frac{1}{4}NW\frac{1}{4}$, Sec. 13, T. 16 S., R. 38 E., B. M.

Witness my hand this 2nd day of July, 1962.

s/ RALPH W. THOMAS
Deputy State Reclamation Engineer

State Reclamation Engineer
State Capitol Building
Boise, Idaho

Dear Sir:

You may deliver Certificate RL074 to The Prudential Insurance Company of America at its office at Boise, Idaho, as soon as you issue the certificate. The Prudential is making me a mortgage loan and I desire to turn the certificate over to The Prudential in connection with that loan.

Sincerely yours,

W. Maurice Tingey

Ruth B. Tingey

RE: Permit No. R-1074

W. Maurice Tingey
Weston, Idaho

Dear Mr. Tingey:

Enclosed is the Order of Dismissal of Protest to the allowance
of the License and Certificate of Water Right No. R-1074.

The license has been handed to Mr. George Nodell, Attorney at
Law, from The Prudential Insurance Co. of America as you re-
quested in your letter.

Very truly yours,

GEO. N. CARTER
State Reclamation Engineer

RE: Permit Nos. R-945, R-1074

W. Maurice Tingey
Weston, Idaho

Dear Mr. Tingey:

We enclose License No. R-1074.

The plans of your dam and the engineer's report on Permit No. R-945, which has been licensed, show that your reservoir will store 126.0 acre feet of water to irrigate 258 acres of land in the SE $\frac{1}{4}$ NE $\frac{1}{4}$, SE $\frac{1}{4}$, Sec. 12; N $\frac{1}{2}$ NE $\frac{1}{4}$, NE $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 13, T. 16 S., R. 38 E., B.M. License No. R-945 shows 77.67 acre feet of water, leaving 48.33 acre feet which can be stored under this permit.

State Statutes provide that you may store excess water, and that during the irrigation season, you must allow all appropriated water entering the reservoir to flow out the lower end. A ditch around the reservoir would be the simplest method of taking care of the lower water rights.

There is no fee for this license as the fee was paid under License No. R-945.

Very truly yours,

GEO. N. CARTER
State Reclamation Engineer

R-1074

IN RE PERMIT NO. R-1074

W. Maurice Tingey, Holder

ORDER, Dismissing Protest and
Allowing License and Certificate
of Water Right

W. MAURICE TINGEY of Weston, Idaho made proof of beneficial use of water under Permit No. R-1074 on August 10, 1962.

Elsie L. Rasmussen, through her attorney, Blaine F. Evans, protested issuance of the License and Certificate of Water Right under said Permit, claiming prior right to a decreed right to 2.0 cubic feet per second from Weston Slough, which was received August 10, 1962.

Examination on the ground discloses that the dam was constructed according to plans which had been approved by the State Reclamation Engineer.

The State Reclamation Engineer, by granting subsequent water license, cannot interfere in any manner with vested rights of prior appropriators.

The protest by Elsie L. Rasmussen, through her attorney Blaine F. Evans, is hereby dismissed and the License and Certificate of Water Right will be issued to W. Maurice Tingey in the amount found to be warranted.

IN WITNESS WHEREOF, I have hereunto set my hand and affixed the official seal of the State Department of Reclamation, at Boise, Idaho, this 6th day of November, 1962.

Deputy State Reclamation Engineer

DEPARTMENT OF DAMS
DEPARTMENT OF RECLAMATION
RECORD OF DAMS

Permit No. R-1074
File No. _____

Name of Dam: Tingey Dam Stream: Unnamed Streams
Name of Owner: W. Maunke Tingey Location: NE 1/4 Sec 12, T16S, R. 38E.
Type: Earth Fill Purpose: Irrigation Constructed: 1955
Engineer: H. J. Woodward, Eng. SCS. Franklin Co. Contractor: Evan Koller

DIMENSIONS OF DAM

Length on Bottom: <u>140'</u> Ft.	Length on Crest: <u>680'</u> Ft.
Height above Stream Bed: <u>29'</u> "	Depth to Bedrock: _____ "
Top Width: <u>18'</u> "	Upstream Slope: <u>3:1</u>
Freeboard: <u>4 1/2'</u> "	Slope Protection: <u>Rock - 2" to 12" size</u>
Downstream Slope: <u>2:1</u>	Watershed Area: <u>Approx. 3 sq. miles</u>
Area of Reservoir at Spillway Level <u>16</u> Acres.	Capacity of Reservoir <u>126</u> Acre Feet.

Description of Foundation, including Cut-off Walls and other Precautions as to Safety: Excavated trench and back filled compacted core. Concrete head wall around Inlet and Outlet of Conduit. 5 cutoff walls spaced on 15' centers around upper 2/3 of Conduit.

Dimensions and Description of Spillway: Top width 26' bottom width 13', 4 1/2' deep. with a 3' concrete control in contour of bottom.

Dimensions and Description of Outlet Works, Gate Hoisting Mechanism, etc.: 14" x 160' smooth steel, 14 ga. pipe. There is 6" concrete with 5-5' concrete collars around steel Conduit pipe. 14" screw type control gate. There is a 16" x 19" trickle tube just behind head gate to handle small amounts of overflow above full capacity of Reservoir. Conduit is 3.5' above and 20' south of main channel of unnamed stream so dam site cannot be drained approximately a surface area of 2 acre feet remain in bottom State Fish & Game Comm. stock Reservoir.

Historical: Dam constructed with dirt removed from North and South banks of Reservoir and is of red clay. Scraped from sides with a Carryall and compacted with a Sheepsfoot Roller.

Original height was 22', but was raised to 29' in 1960 (see Permit R-1074)

Present points of diversion is any place around perimeter of Reservoir by use of portable pump and sprinkler systems.

Remarks: The original dam was 22' high and covered approximately 9 acres with a content of 60 Acre feet.

Future plans call for a pump in a sump at the outlet of dam into a permanent sprinkler irrigation system.

Water from local Irrigation System is dumped into reservoir when not being used.

Information compiled by:

Date: September 27th, 19 61 Larry Johnson

This was examined on the above date under Permit # 945. The existing and present dam was in use at that time. Since the dam was not licensed as built under Permit # R-945 it was licensed for the amount additional = 77.67 AF. The extension on the old dam raised the capacity to 126 Acre Feet, making a total allowable storage for Permit # R-1074 of 48.33 AF. R-1074

Mr. Maurice Tingey,
Weston, Idaho.

Dear Mr. Tingey:

We received your letter of October 30th. Sorry to hear of your illness. Hope you recover soon.

We will try to have the examination of your reservoir completed in the near future, possibly the first part of next week. The field examiner is not in the office today and we are not sure of any appointments he may have made for next week.

Very truly yours,

GEO. N. CARTER

W. Maurice Tingey
Weston, Idaho

Dear Mr. Tingey:

We acknowledge receipt of the depositions of holder and two witnesses, also affidavit of publication in the Preston Citizen, all submitted in proof of ~~completion of work~~ ~~and~~ beneficial use on Permit No. R-1074.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Very truly yours ,

Permit No. R 1074

Proof of Application of Water to Beneficial Use

Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. H. Maurice Linsay - Farmer Hedon Idaho
Franklin County, Hedon Idaho

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. _____

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. R 1074 - Aug 9, 1960 - June 9, 1960
Aug 10, 1962

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Unnamed Stream - tributary of Wash Hollow

340 30' E 1700 ft distant from the S.E. Cor of Sec 12,
Twp 16S R. 38 E. B.M. County of Franklin and in the NE 1/4 Sec. 12.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. 4 in. pump is used water pumped into 8 inch
burred steel pipe - Two Volume guns used - 100 lb pressure
600 gal of water per Minute - Water also pumped into
open ditch - when used for flooding - 3 ac. feet of water
pumped -

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Irrigation - Cultivated -

of natural meadow and that the market is an improve-				
of paid use.

Ques. 6-a. If this is a ground water permit, give name and address of person that drilled the well.

Ans. ✓

R-1074

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. _____

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. 1 acre ft per acre

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. _____

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. all water in Reservoir has been used
each year - on grain - 3 times per year - potatoes and
beet 8 to 10 times per year

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. We have 146 shares of turn d. a. canal water
this has also been used on farm

NOTICE OF PROOF OF APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that at 10 A.M. on the 10th day of August, 1962, at Weston, County of Franklin, State of Idaho, before Rachel Lott, proof will be submitted of the application to beneficial use of 172 acre feet per second of the waters of Unnamed stream, tributary of Nash Hollow, in accordance with the terms and conditions of Permit No. R-1074 heretofore issued by the Department of Reclamation of the State of Idaho.

The name and post office address of the person or corpora-

tion holding said permit R-1074 is W. Maurice Tingey, Weston Idaho.

The use to which said water has been applied is irrigation.

The amount applied to beneficial use is 172 acre feet per annum.

The point of diversion of said water is NE $\frac{1}{4}$, SE $\frac{1}{4}$, Sec. 12, Twp. 16 S., R. 38 E., B. M.

The place where said water is used is S $\frac{1}{2}$ NE $\frac{1}{4}$, SE $\frac{1}{4}$, Sec. 12; N $\frac{1}{2}$ NE $\frac{1}{4}$, NE $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 13 T. 16 S., R. 38 E., B.M.

The date of priority which said user is prepared to establish is June 9, 1960.

Department of Reclamation

Dear Mr. Carter;

I received your letter today with the protest of Mrs. Prosser. My water permit does not interfere with her water right. Mine comes from winter storage.

I have been letting off or more $\frac{1}{2}$ second foot of water run out of the Reservoir all the time. Sometimes there is none coming in - but then for several days there will be none. On an average more goes out than comes in. Mrs. Prosser gets more this way than if she got the flesh.

I'm talking it over with her renter and two other farmers who have a right there - we decided maybe if possible - I would put

D-1074

a ditch around the reservoir to
carry these waters.

I hope the field examiner
will contact me when he comes
down.

These papers are completed
I am sending them. You can
keep them on file until a
decision is made.

Sincerely
H. M. Fringer
Weston, Idaho

Re: Permit No. R-1074

W. Maurice Tingey
Weston, Idaho

Dear Mr. Tingey:

Enclosed is a copy of a protest received in regard to your permit.

No action will be taken by this department until after the field examiner's report on your project has been received.

Very truly yours,

GEO. N. CARTER
State Reclamation Engineer

Enc. copy of protest

R-1074

BEFORE THE DEPARTMENT OF RECLAMATION OF THE
STATE OF IDAHO

AFFIDAVIT AND PROTEST OF THE ISSUANCE
OF PERMIT NO. R-1074 to W. MAURICE TINGY
AT WESTON, IDAHO.

STATE OF IDAHO }
County of Ada } ss.

BLAINE F. EVANS, being first duly sworn deposes and says:
That he is an attorney licensed to practice law in the State of
Idaho; that he files this Affidavit for and on behalf of ELSIE L.
RASMUSSEN;

That W. Maurice Tingy at Weston, Franklin County, Idaho,
has filed an Application No. R-36766 and has tentatively been issued
Permit No. R-1074 by the Department of Reclamation of the State of
Idaho for the beneficial application of certain water in an unnamed
stream of Nash Hollow River, the outlet to which is in the North 34°
30' East 1700 feet from the Southeast corner of Section 12, Town-
ship 16 South Range 38 East, B.M. in Franklin County, Idaho;

That the said Elsie L. Rasmussen, acting by and through
her attorney Blaine F. Evans, protests the statements made by the
said W. Maurice Tingy and the issuance of said permit and the grant-
ing of said application for the following reasons:

1. That on April 12, 1921, the District Court of the Fifth
Judicial District of the State of Idaho, in and for the County of
Franklin, issued a Decree which in pertinent part provided:

"NOW, THEREFORE, IT IS HEREBY ORDERED, ADJUDGED AND DECREED
that the plaintiff Lars M. Rasmussen and Lars M. Rasmussen,
Jr. are the owners in possession and entitled to the
possession of two cubic second feet of the waters of
Weston Slough in Franklin County, Idaho, as of the priority
of June, 1877, appurtenant to the West Half of the
Southwest Quarter, the Southeast Quarter of Southwest
Quarter, Southwest Quarter of Southeast Quarter of
Section 17, Township 16 South, Range 39 E.B.M."

2. That said court in said case further found that the
plaintiff, Lars M. Rasmussen, Jr., owned the land, that it was
desert and arid and required said water for purposes of artificial
irrigation; that the said Elsie L. Rasmussen has succeeded to all
the right, title, and interest of the said Lars M. Rasmussen, Jr.

R-1074

1 in and to said land; that the said Elsie L. Rasmussen is the widow
2 of Lars M. Rasmussen, Jr.; that said court further found that since
3 the month of June, 1877, the said Lars M. Rasmussen, Jr. and his
4 predecessors in interest had diverted by means of dams and ditches
5 and commenced to use for agricultural purposes all the water of
6 that natural drain of Weston Slough running through Sections 17, 18
7 and 7 to a point on the Nash Reservoir in Section 36; that since
8 the date of said Decree the said Elsie L. Rasmussen has continuously
9 diverted said water to a beneficial use and is using all of said
10 water and intends to continue to use the same; that the said Elsie
11 L. Rasmussen has rights to said water prior to the rights that
12 W. Maurice Tingy is attempting to obtain in his application.

**NOTICE OF PROOF OF
APPLICATION OF WATER
TO BENEFICIAL USE**

Notice is hereby given that at 10 A.M. on the 10th day of August, 1962, at Weston, County of Franklin, State of Idaho, before Rachel Lott, proof will be submitted of the application to beneficial use of 172 acre feet per second of the waters of Unnamed stream, tributary of Nash Hollow, in accordance with the terms and conditions of Permit No. R-1074 heretofore issued by the Department of Reclamation of the State of Idaho.

The name and post office address of the person or corpora-

tion holding said permit R-1074 is W. Maurice Tingey, Weston, Idaho.

The use to which said water has been applied is irrigation.

The amount applied to beneficial use is 172 acre feet per annum.

The point of diversion of said water is NE $\frac{1}{4}$, SE $\frac{1}{4}$, Sec. 12, Twp. 16 S., R. 38 E., B. M.

The place where said water is used is S $\frac{1}{2}$ NE $\frac{1}{4}$, SE $\frac{1}{4}$, Sec. 12; N $\frac{1}{2}$ NE $\frac{1}{4}$, NE $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 13 T. 16 S., R. 38 E., B.M.

The date of priority which said user is prepared to establish is June 9, 1960.

Re: Permit No. R-1074

Mr. W. Maurice Tingey,
Weston, Idaho,

Dear Mr. Tingey:

This acknowledges the Notice of Proof of ~~Completion of Work~~ Application of Water to Beneficial Use under Permit No. R-1074. The proofs are to be made at 10:00 'clock A.M., on the 10th day of August, 19 62, before Nechel Lett, Weston, Idaho, Notary Public.

As of this date we have mailed the Notice to the Freston Citizen Freston, Idaho, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof then mail the affidavit of publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the place, on the date, and at the time and before the Notary, as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, the Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

Very truly yours,

GEO. N. CARTER

Re: Permit No. R-1074

W. Maurice Tingey
Weston, Idaho

Dear Mr. Tingey:

Returned herewith are the two Forms 10 and one Form 11 you submitted to this office and a form to amend the land list.

The date given, July 10, does not allow sufficient time for four weekly publications of the notice. That date should be about 40 days later than the date you send the forms to this office.

You show the place of use of the water in Section 12, which checks our record of the permit, however, you show land in Section 13, which is not shown in the permit. The permit shows W¹/₄ NW¹/₄, Section 18, T. 16 S., R. 39 E. If you wish to change the land, you should complete the amendment form, describing the land you wish to irrigate. There is a fee of \$1.00 for recording an amendment which should accompany the amendment. Or the notice can be changed to agree with the permit.

Kindly change the date on the first line to allow time for four publications, change the land list or return the amendment at your earliest convenience.

The proof of completion of works can be accepted and the certificate will be mailed to you within a few days.

Very truly yours,

GEO. N. CARTER

Mr Geo Carter
State Reclamation Engineer
Boise, Idaho

Dear Mr. Carter;

Last year I received
my Certificate of watright
for Water license No R. 945.

I would like to get some
application papers to prove
up on permit No R 1074 -
application No. R. 36766

This last permit is for
additional water for the
same land as that covered
in R. 945.

The dam is complete now
and surely looks good.

Sincerely
H. Maurice Singh - Weston Idaho R-1074

Hester Idaho

10-30-62

RECEIVED

NOV. 1 1962

Department of Reclamation

George H. Carter,
State Reclamation Engineer,
Boise, Idaho.

Dear Mr. Carter:

In reply to your letter of
Aug. 21, 1962. wherein you stated
you had received the application for
my waterright. Permit No. R. 1074.

You stated a field examination
would be necessary by an engineer.

I have been wondering if an
engineer has come down and I
didn't get to see him.

This past year, I have had
quite a bit of sickness. Had to have
a tumor removed from my head.
I am unable to do heavy work
any more, because of weakness left
in my left side. Because of this
I have had to sell the farm - 2-10-74

Cannot complete the papers until
I get this permit O.K.

Last summer I met with
representatives of the three farms
who have water rights below me.

Their water rights call for
water during summer of irrigation
months. I have been letting an ^{even}
stream of water thru all the
time. This helps the Bauman
farm but not the others. They
benefit only when a extra large
stream comes.

We decided maybe it would be
best to put a ditch around the
reservoir so that all water would
get down to them when it comes.

Sometimes there will be a
large stream come for maybe 1 or 2
days and then for several days
there will be none.

We know and realize that any
water right would consist only of water
that could be stored during the p. 1974

winter months.

Last year and this year also the reservoir has been filled by the 1st of December. Twin Lake Canal Co and Weston irrigation Co send down streams for stock and I can divert them into my reservoir.

Every since the reservoir has been built, I have got along with the people below me. They seem to be concerned because, I have sold to others. However, I am selling the farm on a contract and the new people realize the water situation.

I sincerely hope we can get this settled as soon as possible. Land taxes & water taxes are now due and I am unable to do anything until it is.

Yours Truly,
H. Marcus Frazier
Weston Idaho
