NOTICE OF EXISTING WATER PERMIT

Notice is hereby given that Eldon B. Bingham and the Estate of H. R. Bingham, RR No. 3, Box 382, Preston, Idaho, have received an approved Permit No. 33429/13-2279 issued by the Idaho Department of Water Administration authorizing the diversion of 1.0 cubic feet per second of water from surplus water from Tanner & Ball Drain. The priority to be established under this permit is January 18, 1967, and the permit was approved January 24, 1967.

Water is to be diverted by dam, headgate, pipe and ditch from a point within the NE¹/₄NE¹/₄, Sec. 20, Twp. 15S, Rge. 39E, B.M., Franklin County, to be used for irrigation purposes in the NE¹/₄NE¹/₄, S¹/₂NE¹/₄, Sec. 20, Twp. 15S, Rge. 39E, B.M.

Proof of the application of the water to beneficial use was submitted to the Department on January 18, 1973. Any protest against the issuance of the license for the above referenced permit should be filed with the Idaho Dept. of Water Administration, Statehouse, Boise, Idaho, 83707, within ten (10) days of the first date of publication of this notice.

WATER RIGHT LICENSE

License of Water Right No. 13-2279 Priority January 18, 1967 Amount 0.91 cfs

THIS IS TO CERTIFY, that H. R. Bingham & Eldon B. Bingham
of Preston, Idaho, has complied with the terms and conditions of Permit
No. 13-2279 issued pursuant to Application for Permit dated January 18, 1967,
and has submitted proof to the Department of Water Resources on January 18, 1973,
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 0.91 cfs of water from Tanner & Bell Drain,
tributary to Bear River, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume

Use of water under this license is subject to control by the watermaster of
State Water District No. 11, Bear River.
This right when combined with all other rights shall provide no more than 0.02
cfs per acre nor more than 3.5 afa per acre for the lands above.

NOTE: Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho
Code, or the applicable Idaho Law. This right may be forfeited by five years of non-use.

The right to the use of the water hereby confirmed is restricted and appurtenant to the lands or place of use
herein described, as provided by the laws of Idaho.

Remarks: The purpose of this filing is to secure an additional source of water for the land covered in license #24153. Because of the unstable flow and great fluctuation in this stream, there is not even water in the unnamed stream at some times to furnish the 10 cfs in license #24153 without additional water from this new source.

Remarks: There is a drain used by Preston City and Mr. Eldon Tanner and Theo Ball which joins its water into the land of H.R. Bingham, one of the applicants which feeds over his land. This system is designed to catch this water in a small catch reservoir and run it through an old railroad grade where it is pumped and run by gravity into sprinkler pipes to irrigate this land.

Because of the unsure quantity of water in this stream, this additional water source is needed to insure adequate water for this land.

Total from this and license 24153 not to exceed 1" per Acre

SYSTEM DESCRIPTION:

A buried perforated pipe drains excess water from lands owned by Theo Bell and Eldon Tanner. Excess water not used by Bell & Tanner drains 1/4 mi south to city county drain on North side of highway 91. The water flows west downhill to a small pond or slough approximately 3 AF in size. The water then enters 2 irrigation systems having their points of diversion in the same local tract. Pressure system - water is pumped from the pond by a 120 H.P. International diesel tractor motor and by a Berkeley centrifugal pump #7377778. Pressurized water is piped through a long flexible hose to a Rainbird Ram Gun #1000 - nozzle diam. 1-20 1/2". This large single jet gun irrigates a full circle and is affixed to a portable tractor allowing it to be moved from one end of the field to the other. Gravity flow sprinkler - water from the pond passes thru a head box and into a 10" diam reduced to 5" diam buried gravity flow line which serves 1-26 jet wheel line and 1-14 jet wheel line.

Gentlemen:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a permit holder to make proof of beneficial use.

The enclosed order modifies your permit to comply with these rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a newspaper as prescribed by the Department. If you will complete and return the enclosed advertising authorization, we will cause the notice to be published.

You will also find enclosed a notice that proof of beneficial use of water is due on or before January 24, 1973. Attached to the notice is the Department's proof of beneficial use affidavit.

If you have any questions regarding the above matters, please do not hesitate to contact us.

Gentlemen:

One of the conditions of approval of your water Permit No. 33429/13-2279 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before January 24, 1973. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Fourth: That under the terms and conditions of said permit, construction thereunder was required to be completed by Jan. 24, 1968.

Fifth: That the use for which said water is intended is Irrigation

Sixth: That on the date above mentioned, the works constructed under said permit were (or were not) fully completed and consisted of the following:

I. Kind of Works: Small dam to create a small catch reservoir, Headgate-sprinkler pipe and ditching
(RESERVOIR, DAM, DITCH, FLUME, PIPE OR OTHERWISE)

II. Dimensions of work:

(a) Height of dam 4 feet, length of dam at top 60 feet, length of dam at bottom 60 feet. Material used in construction Earth

(STATE WHETHER WOOD, EARTH STONE OR CONCRETE)

(b) Capacity of reservoir 2 acre feet.

(c) Size of headgate: Width 30 in. / pipe feet, height feet.

(d) Conduit 30" / pipe width at bottom feet, width at water line

Dear Mr. Bingham:

Under the terms of your Permit No. 33429 you are required to complete your diversion works on or before Jan. 24, 1968 . I enclose blank affidavit to be filled out, sworn to by you before a Notary Public, or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the said permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Very truly yours,

State Reclamation Engineer
