INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
6. Give general characteristics of soils, topography, and crops raised.

Application For Permit To Appropriate the Public Waters of the State of Idaho

13-2251

APPLICATION No. 38599
PERMIT No. 30526
DISTRICT No.

1. Name of Applicant: Vereen Bingham

Postoffice address: Weston

County: Franklin

State: Idaho

I. If applicant is a corporation, give:

(a) Date and place of incorporation:

(b) Amount of capital stock:

(c) Amount paid in:

(d) Names and addresses of directors:

II. The financial resources of the applicant are:

(a) Cash on hand:

(c) Bond to be issued:

(b) Treasury stock:

(d) Other resources:

2. Quantity of water claimed: 1.5

cubic feet per second.

3. Source of water supply: Unnamed wash

which is a tributary of Bear River

4. Location of point of diversion:

feet distant from the

corner of Section , T. , R. , B.M., and is in the NE $\frac{1}{4}$ NW $\frac{1}{4}$, NW $\frac{1}{4}$ NW $\frac{1}{4}$

of section 11 , T. 16 S , R. 38 E. , B. M., County of Franklin

5. Water is to be used for Irrigation

6. If for mining, milling, power or manufacturing purposes, give:

(a) Point of use of water: feet distant from corner of Section

T. , R. , B.M., in the of Section of , T. , R. , B.M.

(b) Amount of power generated: H.P., under feet head.

(c) Water is to be returned to at a point feet

distant from the corner of Section , T. , R. , B.M., in the
of Section , T. , R. , B.M.

7. Estimated cost of works: \$ 700.00

8. Kind of works: Dam & pumping system

9. Height of dam 8 feet; length of dam at top 20 feet; length of dam at bottom 10

feet; material used in dam: dirt

10. Size of headgate: Width feet; height feet.

11. Ditch: Width at bottom fee; width at water line feet; depth of water feet;
dimensions of flume:

Diameter of pipe inches; length of conduit miles.

Average grade per mile feet.

12. The time required for the completion of such work is one years.

13. The time required for the complete application of the water to the proposed use is 0 additional years.

14. The land to be irrigated is described in the following tabulation: See remarks.

15. Existing water rights and/or valid permits appurtenant to the lands to be irrigated are: 5 shares in the
Twin Lakes Canal Co. 33 shares Weston Creek Irrigation Co.

16. (a) Is reservoir to be used? If so, fill in (b) and (c) below:
(b) Name of Reservoir and number of Storage Permit:
(c) Date of filing of Application for Storage Permit and Name of Applicant:

BE IT KNOWN THAT The undersigned hereby makes application for permit to appropriate the public water of the State of Idaho as herein set forth.

s/ Vereen Bingham Applicant.

By Dell W. Smith, Attorney Agent.

Date of first receipt at Department of Reclamation: 8:00 A.M. June 11, 1962

Returned to applicant for correction:

Corrected application received:

Approval of State Reclamation Engineer

The number of this permit is 30526
Recorded in Book 107 Page 30526 Approved June 11, 1962
This is to certify that I have examined the within application for a permit to appropriate the public waters of the State of Idaho, and hereby approve the same, subject to the following limitations and conditions:
Bond in the sum of \$ to be filed on or before
Work to begin on or before August 11, 1962 and to continue diligently and uninterruptedly to completion, unless temporarily interrupted by circumstances over which permit holder has no control.
One-fifth of the work above specified to be completed on or before December 11, 1962
The whole of said work to be completed on or before June 11, 1963
Beneficial use of water appropriated in accordance herewith, to be made on or before June 11, 1963

WITNESS My hand this 11th day of June, 1962

s/ CARL E. TAPPAN
Assistant State Reclamation Engineer.

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO
REPORT OF ENGINEER

Permit No. 30526This proof is for Completion of Works & Beneficial Use In Water District No. _____1. Name of applicant Vereen Bingham2. Source of water supply: Unnamed wash3. Location of point of diversion: Is in the NE $\frac{1}{4}$ NW $\frac{1}{4}$, NW $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 11T. 16 S R. 38 E.B.M. County of Franklin4. Describe works as they exist, giving dimensions and capacities of same: 4 CylinderLP6 Engine direct connection to a Berkeley centrifugal Pump #5315 4" suction x 3" outlet. Pump + Motor mounted on a 2 wheel trailer and is moved from one pd to the other.Earth filled holding pond type dams. 10 to 11' high with 12" screw gate outlets in bottom #1 will hold approximately 2 AF and #2 will hold approximately 8 AF or less.5. Water is used for: irrigation6. State whether or not water has been turned into works of diversion: yes7. List legal land of lands to be irrigated. If proof is for beneficial use, give exact number of acres under irrigation in each forty-acre tract. (Describe manner and place of use if other than irrigation):102 acres in NE $\frac{1}{4}$ NW $\frac{1}{4}$, SW $\frac{1}{4}$ NW $\frac{1}{4}$ Sec. 11., Twp. 16 S., Rge. 38 E.B.M.

Mr. Nemensawander has sold to Mr. Terrell Campbell (in ASGS Office) and has no more interest. New owner doesn't seem to have any complaint.

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach? Beer River. ??Remarks: rv. V. Bingham along

The turn of Weston Creek water is some time turned and held in these ponds and applied to the land through the sprinkler systems.

R 676 also covers this land but probably only on paper & about $\frac{1}{6}$ AF/Acre
Measured by taking pressure readings at nozzles 38" avg psi: 628.22 - 42 cfs

This examination was made on the 26th day of July, 1966

(Signed)

Larry Johnson

Examiner.

30526

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
6. Give general characteristics of soils, topography, and crops raised.

RE: Permit No. 30526

Vereen Bingham
Weston, Idaho

Dear Mr. Bingham:

Our field examiner's report on his inspection of proof of completion of works and application of water to beneficial use under the terms of Permit No. 30526 shows the pump and pond type dams are capable of conveying 21 miner's inches, or 0.42 c.f.s. However, due to the limitations of your permit, we can only allow the amount of water originally requested, the amount of water actually used beneficially, or 1 (one) miner's inch per irrigated acre.

Upon receipt of the statutory fees, totaling \$11.00, we will issue the Certificate of Completion of Works for 0.42 c.f.s. and the License and Certificate of Water Right for 0.42 c.f.s. confirming the right, with priority of June 11, 1962, to the use of surface water from an unnamed wash with the point of diversion in NW~~1~~4NW~~4~~ and NE~~1~~4NW~~4~~, for irrigation of 81 acres in NW~~1~~4NW~~4~~, SW~~1~~4NW~~4~~, Sec. 11, T. 16 S, R. 38 E, B.M.

Very truly yours,

M. Russell Bosch

RE: Permit No. 30526

Vereen Bingham
Weston, Idaho

Dear Mr. Bingham:

We received your letter of May 12 in regard to water right under your permit.

Permits to divert water from any source are approved for unappropriated water. This office does not have information concerning all water rights, nor the amount of water available.

If Mr. Neuenswander has a prior right to all the water in the stream and uses the water beneficially, your permit is of no value.

The field examination of your works under the permit will be made as soon as possible.

Your letter does not show who stopped your permit. If you believe that there is water available in the stream in excess of your neighbors prior water right, you can take action in the District Court.

Very truly yours,

RALPH W. THOMAS
Deputy State Reclamation Engineer

Dear Sir:

I sent in and got an application for a permit for water in the spring of 1963 and went through all the procedures of having it approved and through a letter that Arthur H. Hunsicker wrote they stopped my permit. This permit was not intended to interfere with anyone else's water. I was just using my own water (irrigating and well water on my own place.

Yours truly,

VEREEN BINGHAM

Re: Permit No.

30526

Vereen Bingham
Weston, Idaho

Dear Mr. Bingham:

We acknowledge receipt of the depositions of holder and two witnesses, also affidavit of publication in the Preston Citizen, all submitted in proof of completion of works and beneficial use on Permit No. 30526.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Very truly yours,

BOISE, IDAHO

RECEIVED
JUN 13 1962

Department of Reclamation

Permit No. 30526

Proof of Application of Water to Beneficial Use and Completion of Works

Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. Vereen Bingham, Weston, Idaho, Farmer.

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans.

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. 30526, June 11, 1962.

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Source of water is unnamed wash on the holders premises; a dam is built, a pump and sprinkler diverts the water onto the holders land. Place of diversion NE 1/4 NW 1/4 and NW 1/4 NW 1/4, Section 11, Township 16 South, Range 38 East of the Boise Meridian.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. The system is a dam on an unnamed wash from which water is pumped through a sprinkler system to the place of use. The sprinkler has 7/8 inch head and approximately 50 lb. pressure -

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Used for irrigation. The water supplements the holders present supply where it is used on cultivated land from a dam by a sprinkler, Used at NE 1/4 NW 1/4 and NW 1/4 NW 1/4 and SW 1/4 NW 1/4, Section 11, Township 16 South, Range 38 East of the Boise Meridian.

Ques. 6-a If this is a ground water permit, give name and address of person that drilled the well.

Ans.

30526

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. _____

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. 1.5 CFS

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. _____

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. Since the first of June, 1962, I have been pumping water to my land in the amount of 1.5 CFS on cultivated crops.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. _____

(Sign) Vereen Bingham

I hereby certify that the foregoing testimony was read to the above subscribed before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me, at my office in Preston, County of Franklin, State of Idaho, on this 11th day of June, A. PERMIT NO. 30526

Proof of Application of Water to Beneficial Use
and Completion of Works
Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Howard Kofoed, 44, Weston, Idaho, Farmer

Ques. 2. Are you acquainted with Vereen Bingham, the holder of Permit No. 30526? How long have you known him and where does he reside?

Ans. Yes Forty years. Weston, Idaho.

Ques. 3. Have you read or heard read said Permit No. 30526, and are you familiar with its provisions and conditions?

Ans. Yes

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Source of water is unnamed hollow on the holders premises
a dam is built, a pump and sprinkler diverts the water onto the
holders land. Place of diversion NE 1/4, NW 1/4 and NW 1/4 NW 1/4,
Section 11, Township 16 South, Range 38 East of the Boise Meridian.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. 1.5 CFS

Ques. 6. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Used for irrigation. The water supplements the holders
present supply where it is used on cultivated land from a dam by a
sprinkler. Used at NE 1/4, NW 1/4 and NW 1/4, NW 1/4 and SW 1/4,
NW 1/4, Section 11, Township 16 South, Range 38 East of the Boise
Meridian.

30526

Ques. 7. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. _____

Ques. 8. If for irrigation, state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. The land is all cultivated, was once a dry farm and now grows irrigated crops, and needs 1.5 CFS of water for proper cultivation.

Ques. 9. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No

Ques. 10. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. That for the past six weeks I have seen the holder pump water from the dam in the amount of 1.5 CFS onto alfalfa, barley and wheat crops onto this land.

(Signed)

Howard Koford

NOTICE OF PROOF
OF COMPLETION OF WORKS
and
APPLICATION OF WATER
TO BENEFICIAL USE

NOTICE is hereby given that at 10:00 A.M., on the 11th day of June, 1963, at Preston, County of Franklin, State of Idaho, before Dell W. Smith, Notary Public, at Preston, Idaho, proof will be submitted of the completion of works for the diversion of 1.5 cubic feet per second of the waters of Unnamed wash, tributary of Bear River, and of the application to beneficial use of said water, in accordance with the terms and conditions of Permit No. 30528, heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name and postoffice address of the person or corporation holding said permit is Vercen Bingham, Weston, Idaho.

2. Said works of diversion will be ~~be~~ completed on the date set for such completion and the amount of water which said works are capable of conveying to the ~~the~~ *the* ~~the~~ *the* 1.5 cubic feet per second.

3. The use to which said water has been applied is irrigation purposes, and the amount applied to beneficial use is 1.5 cubic feet per second.

4. The point of diversion of said water is NE $\frac{1}{4}$ NW $\frac{1}{4}$; NW $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 11, Twp. 16 South, Range 38 E.B.M.

5. The place where said water is used is NE $\frac{1}{4}$ NW $\frac{1}{4}$; NW $\frac{1}{4}$ NW $\frac{1}{4}$, of Section 11, Twp. 16 South, Range 38 E.B.M.; SW $\frac{1}{4}$ NW $\frac{1}{4}$; same section, township and range. Total 102 acres.

6. The date of priority which said user is prepared to establish is June 11, 1962.

Re: Permit No. 30526
Vereen Bingham

Arthur Neuenschwander
Weston, Idaho

Dear Mr. Neuenschwander:

We received your letter of May 13 in regard to the legal notice of intention to make proof of completion of works and beneficial use of water from an un-named stream by Mr. Bingham.

The State Statutes provide that an application for permit must be approved, with some exceptions, if properly completed. One of the exceptions is that the application should not be approved if this office knows that there is no unappropriated water in the stream. Most of the streams in irrigated portions of southern Idaho are over appropriated in so far as a steady flow is concerned during the full irrigation season, however, there are occasions when there is excess water and permits are issued for the use of that excess water.

The priority relates to the date the application is received in this office.

The fact that Mr. Bingham has a permit does not give him the right to take water that has been appropriated.

Very truly yours,

GEORGE H. CARTER
State Reclamation Engineer

By:

RALPH W. THOMAS, Deputy
State Reclamation Engineer

RWT:vj

cc Vereen Bingham, Weston, Idaho

30526

Thuston, Idaho
May 13, 1963.

Mr. Geo. H. Carter
State Reclamation Engineer
Boise, Idaho.

Dear Mr. Carter:

I am writing this letter seeking clarification of duties and powers of your department.

My problem is in regards to the enclosed statements and permit #30526 granted to Vreen Bingham. Because of this permit having been granted, Mr. Bingham has constructed a ten foot high dam - reservoir - only four rods from the back up point of ~~my~~ the water in my reservoir. This dam has covered some of the springs, and when closed will practically cut off completely the source of my water supply. The water right to my place has been established ever since it was homesteaded in the 18 hundreds. If your records go back far enough your office probably has it recorded. I have a blue print of the reservoir site, a deed to the land also a right-of-way.

30526.

2

to my farm six feet wide. My deed + water decree calls for all water arising of whatever nature in the Jensen Hollow. The water right to my farm is so well established that it has passed the lawyers of three loan companies - The Beneficial Life Ins. Co. also Miller + Viede of Salt Lake City and a few years ago I obtained a loan from the Federal Land Bank of Spokane. I can furnish your office proof of all these rights or claims, thus, I cannot understand how Mr Bingham can be given a permit to build a reservoir that will impound my water. He admits it is my water but maintains he has a permit to build the dam. This permit will have to be revoked as I have a lawyer working on the case.

Several statements in the notice are erroneous. It is not an unnamed wash but has always been known as the Jensen Hollow. The stream flow is not 1.5 cu. ft per second but a small continuous spring flow, and as to the date of priority will state that the water could never have been used until dam was built

30524

Yours truly, Arthur Nevenswander

Re: Permit No. 30526

Vereen Bingham,
Weston, Idaho.

Dear Mrs. Bingham:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. 30526. The proofs are to be made at 10:00 o'clock A.M., on the 11th day of June, 1963, before Dell W. Smith, Preston, Idaho, Notary Public.

As of this date we have mailed the Notice to the Preston Citizen Preston, Idaho, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof then mail the affidavit of publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the place, on the date, and at the time and before the Notary, as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, the Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

Very truly yours,

NOTICE TO ACCOMPANY THIS LETTER MUST BE MADE IN DUPLICATE

(Date) April 20, 1963

(P. O.) Weston, Idaho

TO THE STATE RECLAMATION ENGINEER

Boise, Idaho

Dear Sir:

You are hereby authorized to have the attached notice published at my expense in the Preston Citizen of Preston, Idaho published in the county in which the works are situated. *Franklin Co.*

Vernon Bingham

(In case of canals or other works designed to divert and carry more than 50 cubic feet of water per second, the following certificate must be signed by a well known and competent engineer.)

I hereby certify that the facts set forth in the attached notice are true.

Engineer

STATE OF IDAHO

DEPARTMENT OF RECLAMATION

Re: Permit No. 30526

Date: April 1, 1963

Vereen Bingham
Weston, Idaho

Dear Mr. Bingham:

Under the terms of your Permit No. 30526 you are required to make proofs of completion of works and application of water to beneficial use on or before June 11, 1963.

Before this proof can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper in the county.

We enclose Form 36-A in duplicate, which is to be filled in and returned to this department at least forty (40) days before the above mentioned date and/or before the time you intend to make proof (this may be at any place that is convenient for you and your two witnesses), the quantity of water, for what purpose it is used, the point of points of diversion and the location of use or lands which are irrigated - - by legal description. Descriptions should be taken from your Permit, including any amendments thereto, as recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your notice is published.

Also enclosed is Form 11, which is the authorization for us to have the notice published in the designated county newspaper, at your expense. This is to be returned with Forms 36-A.

At the time we send the notice to the newspaper we will send you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set and at the place named, before the Notary Public as advertised in the publication notice.

The amount of water allowed in a license cannot be more than is actually produced and measured and put to beneficial use, and cannot be more than the statutory amount allowable per acre of land actually found by the field inspection to have been irrigated at the time of proof.

Very truly yours,

GEO. N. CARTER

State Reclamation Engineer

NOTICE is hereby given that at 10:00 A.M., on the 11th day of June, 1963, at Preston, County of Franklin, State of Idaho, before Dell W. Smith, Notary Public, at Preston, Idaho, proof will be submitted of the completion of works for the diversion of 1.5 cubic feet per second of the waters of Unnamed wash, contributory of Bear River, and of the application to beneficial use of said water, in accordance with the terms and conditions of Permit No. 30526, heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name and postoffice address of the person or corporation holding said permit is Verreen Bingham, Weston, Idaho.

2. Said works of diversion will be fully completed on the date set for such completion and the amount of water which said works are capable of conveying to the place of use is 1.5 cubic feet per second.

3. The use to which said water has been applied is irrigation purposes, and the amount applied to beneficial use is 1.5 cubic feet per second.

4. The point of diversion of said water is NE $\frac{1}{4}$ NW $\frac{1}{4}$; NW $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 11, Twp. 16 South, Range 38 E.B.M.

5. The place where said water is used is NE $\frac{1}{4}$ NW $\frac{1}{4}$; NW $\frac{1}{4}$ NW $\frac{1}{4}$, of Section 11, Twp. 16 South, Range 38 E.B.M., — SW $\frac{1}{4}$ NW $\frac{1}{4}$; same section, township and range. Total 102 acres.

6. The date of priority which said user is prepared to establish is June 11, 1962.
