Mr. Cecil Foster, Pres.
Whitney, Nashville Water Works
R. F. D. #3
Preston, Idaho 83263

Dear Mr. Foster:

I have checked the records of this office concerning Permit Nos. 13-2132 and 13-2250. As indicated, Permit No. 13-2132 has been cancelled for failure of the Whitney, Nashville Water Works Company to submit Proof of Beneficial Use of the water. Our files contain a letter dated March 4, 1939, which was the last correspondence prior to our recent action. I am sending a copy for your information. As indicated in that letter, if the company had submitted Proof of Beneficial Use of the water, the priority of the right would have been reduced by the number of years that that proof was late. The only authority we have to reinstate the permit would be upon the finding that we had made an error. The original application was in the company's name and most correspondence was sent in care of E. P. Moser, who was apparently president. Our recent notice was sent to the company but was returned by the post office marked "no such post office in the state."

Permit No. 13-2250 is now being prepared for licensing, and I am enclosing a letter from our Water Rights Division indicating what the examination has found and the limitations of the license that may be issued. If you have any questions concerning this, please let us know within the next 30 days.

If you have any further questions concerning either of these matters, please advise me.

Gentlemen:

The date for proofs of Completion of Works and Application of water to beneficial use, as set out under terms of Permit No. G- 30483 are due not later than **May 2, 1967**

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list, which has been recorded in this department. If changes have been made and no amendments are on record, we advise you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least FORTY (40) DAYS BEFORE THE MENTIONED DATE, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point, or points, of diversion; and the location of use or the lands which are irrigated - - all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with two Forms 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named, and before the notary public, as advertised in the publication notice.
