Dear Mr. McDermott:

Our field examiner's report on his inspection of proof of completion of works and application of water to beneficial use under the terms of Permit No. G-29859 shows the well(s) is (are) capable of conveying 54 miner's inches, or 1.08 c.f.s. However, due to the limitations of your permit, we can only allow the amount of water originally requested, the amount of water actually used beneficially, or 1 (one) miner's inch per irrigated acre.

Upon receipt of the statutory fees, totaling \$ 11.00, we will issue the Certificate of Completion of Works for 1.08 c.f.s. and the License and Certificate of Water Right for 1.08 c.f.s. confirming the right, with priority of June 3, 1961, to the use of subterranean water with the point of diversion in NW $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 22, T. 14 S, R. 38 E, B.M. for irrigation of 93 acres in N $\frac{1}{2}$ NE $\frac{1}{4}$, Sec. 22; NW $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 23, T. 14 S, R. 38 E, B.M.

RE: Permit No. G-29859

Mr. Lew F. McDermott
Clifton, Idaho

Dear Mr. McDermott:

On July 15, 1966 I examined your permit for proof of beneficial use of the water you use from a well I found to be located in the NW $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 22, T. 14 S., R. 38 E., B.M. Your application and our records showed the well to be located in the NE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 22, T. 14 S., R. 38 E., B.M.

At the time of examination I explained it would be necessary for you to amend the point of diversion and readvertise, as the Attorney General had ruled that it must be advertised showing the correct legal descriptions of point of diversion and place of use. We have sent you 3 previous letters urging you to comply with our request. You amended the point of diversion as requested but failed to re-advertise the short form we sent you to take to the newspaper for publication. This was to be published for 2 weeks only. (Not 4 weeks as in the original publication.)

Your water license cannot be issued until this correction of the point of diversion is republished. We are enclosing a Form 11, which is self explanatory, for your signature at the red X. Upon return of the signed form we will make up a new notice, a duplicate of the one sent you, which will bear new dates and name of official.

For the perfection of your water right we urge you to give this more serious thought and comply with our request which is for your benefit.

POINT OF DIVERSION

Permit No. G-29859

Comes now Lew F. McDermott
and represents to the State Reclamation Engineer of the State of Idaho:

That he is the owner and holder of Permit to Appropriate the Public Waters of the State of Idaho, No. G-29859.

That the point of diversion is described in said Permit as being located:

NE1/4NE1/4, Section 22, T 14 S., R 38 E., B. M.

That he now requests that the point of diversion be changed to a point located:

NW1/4NE1/4, Section 22, T 14 S., R. 38 E., B. M.

That the reason for desiring to make such change is as follows:

The original permit was in error as to the place of diversion

That no one will be injured by such change, and that such change will be made at Permit Holder's own risk.

Once again we wish to call to your attention our letters of August 18, 1966 and October 18, 1966 in which you were notified that it would be necessary to readvertise your Permit No. G-29859 as the point of diversion had been wrong since the application was filed in this office. We have received and recorded the amendment to the point of diversion, but the Attorney General has ruled that it must be advertised right.

We cannot issue a final license on this permit until this matter is taken care of. You should be advised that it would be to your advantage to get it cleared up. May we hear from you?

Dear Mr. McDermott:

On August 18, 1966 you were notified that you would have to amend the point of diversion on the above numbered permit as it was not the same as shown on your permit and in the legal notice. At the same time a legal notice was sent to you with instructions to have it published. See the enclosed copy of our letter. The notice was evidently never published. The amendment has been recorded and returned to you.

Since the Attorney General's Office has ruled that the point of diversion and place of use on all permits must be advertised correctly this readvertising must be done before you can be issued the final license for the water. We would suggest, if you want a finalized water right, that you contact this office promptly in regard to the matter.

Dear Mr. McDermott:

Our field examiner has been out and examined your proofs on your permit. He finds that the point of diversion as listed and published does not agree with the actual point of diversion. Therefore, this requires that an amendment be completed and the enclosed notice published in the newspaper in your county for two (2) consecutive weeks.

Please complete the amendment form to agree with the legal notice, which is enclosed, and return to our department along with \$1.00 for the recording fee. Next, take the legal notice to the newspaper and have it published. Upon completion of the publication return the publication affidavit from the newspaper office to this department and we will issue your license for this permit.

In checking through the file folders of a number of permits today we found these tear sheets in another folder. They had evidently been misfiled before being given to the employee who has the responsibility of checking all legal notices.

We regret this error on the part of our office. Please accept our sincere apology.

Dear Mr. McDermott:

The date for proofs of Completion of Works and Application of water to beneficial use, as set out under terms of Permit No. G- **29859** are due not later than **June 29, 1966**

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list, which has been recorded in this department. If changes have been made and no amendments are on record, we advise you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least FORTY (40) DAYS BEFORE THE MENTIONED DATE, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point, or points, of diversion; and the location of use or the lands which are irrigated - - all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with two Forms 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named, and before the notary public, as advertised in the publication notice.

Application for Permit

Mr. Lew F. McDermott

Dear Mr. McDermott:

Returned herewith is your application for permit with attached check for \$5.50 and also a form for relinquishment of permit.

The amount of water claimed, 2.7 cubic feet per second, has been reduced to 1.8 to agree with the 90 acres to be irrigated and also with Permit No. G-26923.

The point of diversion shown on the application is in the NE $\frac{1}{4}$ NE $\frac{1}{4}$ Sec. 22. The tracing paper map and one of the Form O sketch maps show the well in the NW $\frac{1}{4}$ NE $\frac{1}{4}$ Sec. 22 and the second Form O shows the well in the NE $\frac{1}{4}$ NE $\frac{1}{4}$ Sec. 22 to agree with the application.

Kindly correct the error so the same point is shown on the maps and on the application and return to this office with a check for \$5.25, the filing fee for 1.8 cubic feet per second.

You would save this office considerable work and expense if you completed the relinquishment form enclosed. Evidently you are making a new filing on the same conditions.

Dear Mr. McDermott:

Replying to your letter of June 14, 1961, your permit calls for 1/5 of the work to be completed by December 5, 1959, and completion of works and beneficial use of the water by June 5, 1962. If you had not completed 1/5 of the work by December 5, 1959 any person with a later date of priority nearly could protest your proofs of completion of works. This office checks on the completion of works and beneficial use of the water.
