Gentlemen:

We are not satisfied with the findings of the examination made by a representative from your Department, in July of 1970. We do not agree with the quantity of water, nor the number of acres that your examiner found.

We would, therefore, request that you re-examine the system some time during the 1972 irrigation season.

DEPARTMENT OF THE ARMY

June 6, 1972 CERTIFIED MAIL

#31651

Hobbs Brothers
Franklin,
Idaho 83237

Gentlemen:

It appearing to the Department of Water Administration that the terms and conditions of Permit 29765/13-2236 to appropriate the public waters of the State of Idaho have not been complied with as to failure to submit licensing fee in the amount of \$15.00,

you are hereby notified that under the provisions of Section 42-311, Idaho Code, as amended, said permit is hereby held for cancellation, and you are required to show cause before the Director of the Department of Water Administration on or before July 17, 1972, why said permit should not be cancelled.

Permit 29765/13-2236 claims the use of 2.0 cubic feet per second of water from a ground water source, the point of diversion was to be located within the SW $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 20, Twp. 16S, Rge. 40E, B.M. and the permit was approved June 2, 1961.

R. KEITH HIGGINSON
Director

March 28, 1972

Hobbs Brothers
Franklin,
Idaho 83237

Gentlemen:

A representative of this Department has made an examination of the works covered by your Permit No. 29765/13-2236 and has found the following:

Quantity of water diverted: 0.66 cfs

Amount of water that can be recognized as beneficially used under Idaho law: 0.66 cfs

The maximum quantity of water diverted shall not exceed 285.6 acre feet per year.

Beneficial use: Irrigation of 100 acres within the SW $\frac{1}{4}$ NE $\frac{1}{4}$, E $\frac{1}{4}$ NW $\frac{1}{4}$, NE $\frac{1}{4}$ SW $\frac{1}{4}$, NW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 20, Twp. 16 S, Rge. 40 E, B.M. Domestic & stockwater purposes.

Point of diversion: SW $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 20, Twp. 16 S, Rge. 40 E, B.M.

The priority date established: September 22, 1961 (late proof)

As your permit does not cover stock water, it will be necessary to amend the permit before a license can be issued. We are enclosing a partially completed application for amendment for your use. Please be advised that there is a \$15.00 licensing fee due and there will also be a \$10.00 filing fee for the application for amendment. Therefore, a fee totaling \$25.00 plus the completed amendment form must be received within 30 days of the date of this letter in order that we can issue your Water License as set forth above.

The examiner also found that you are now irrigating 38.8 more acres than are included under this permit, and which, therefore, cannot be included in this license. If this additional acreage was irrigated before March 25, 1963, the date applications for all ground water diversions were required, then you may have developed a water right by diversion and beneficial use. However, if this additional acreage was irrigated after the March, 1963, date, you must file an application for permit to divert water for this land. We have enclosed an application form and instructions for your consideration. If you have any questions regarding this matter, please let us know.

Sincerely,

BOBBY D. FLEENOR

In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list, which has been recorded in this department. If changes have been made and no amendments are on record, we advise you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least FORTY (40) DAYS BEFORE THE MENTIONED DATE, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point, or points, of diversion; and the location of use or the lands which are irrigated - - all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with two Forms 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named, and before the notary public, as advertised in the publication notice.

Very truly yours,
