Dear Mr. Westover:

Our field examiner's report on his inspection of proof of completion of works and application of water to beneficial use under the terms of Permit No. 29593 shows the dam and pipe are capable of conveying 28 miner's inches, or 0.56 c.f.s. However, due to the limitations of your permit, we can only allow the amount of water originally requested, the amount of water actually used beneficially, or 1 (one) miner's inch per irrigated acre.

Upon receipt of the statutory fees, totaling \$7.00, we will issue the Certificate of Completion of Works for 0.56 c.f.s. and the License and Certificate of Water Right for 0.56 c.f.s. confirming the right, with priority of June 18, 1961, to the use of surface water from an unnamed stream with the point of diversion in SW $\frac{1}{4}$ NE $\frac{1}{4}$, for irrigation of 28 acres in SW $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 28, T. 15 S, R. 39 E, B.M.

Dear Mr. Westover:

You had published a legal notice of intention to make proof of completion of works and beneficial use of the water in the Preston Citizen, which showed the proofs were to be made on June 22, 1962.

We received the depositions of the holder and two witnesses but not the affidavit of publication.

Without this affidavit to complete your depositions the permit is subject to cancellation, however we will accept the documents if received on or before August 10, 1962.

Very truly yours,

Dear Mr. Westover:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. 29593. The proofs are to be made at 1:00 o'clock P.M., on the 22nd day of June, 19 62, before Ted B. Larson, Preston, Idaho, Notary Public.

As of this date we have mailed the Notice to the Preston Citizens Preston, Idaho, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof then mail the affidavit of publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the place, on the date, and at the time and before the Notary, as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, the Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

DEPARTMENT OF RECLAMATION

Re: Permit No. 29593

Copy

Date: Jan 3, 1962

Don Westover
Clifton, Idaho

Dear Mr. Westover:

The date for proof of application of water to beneficial use, as set out under the terms of Permit No. 29593 is due not later than March 31, 1962. If by this date you are not prepared to make this proof, you may make it at a later date, however, your priority will be advanced the same length of time for which the proof is late.

Before this proof can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county.

We enclose Form 10, in duplicate, which is to be filled in and returned to this department at least forty (40) days before the above mentioned date and/or before the time you intend to make proof. This form, in duplicate, is to include the time of day, the date, the name of the town, the address of the Notary Public before whom you will appear to make the depositions of proof (this may be at any place that is convenient for you and your two witnesses), the quantity of water, for what purpose it is used, the point or points of diversion and the location of use or lands which are irrigated - by legal land description. Descriptions should be taken from your Permit, including any amendments thereto, as recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your notice is published.

Also enclosed is Form 11, which is the authorization for us to have the notice published in the designated county newspaper, at your expense. This is to be returned with Forms 10.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set and at the place named, before the Notary Public, as advertised in the publication notice.

The amount of water allowed in a license cannot be more than is actually produced and measured and put to beneficial use, and cannot be more than the statutory amount allowable per acre of land actually found by field inspection to have been irrigated at the time of proof.

Dear Mr. Westover:

Returned herewith is your application for permit with attached check for \$5.25 filing fee. There are a number of questions which must be answered.

Under "1" you do not show your postoffice address.

Under "2" you claim 2 cubic feet per second and on the second page you show 28 acres to be irrigated. Maximum allowable is one miners inch or $1/50$ c.f.s. for each acre.

Under "3" you do not complete the second part.

Under "4" you do not show the point or points of diversion.

Under "11" you do not show the acres in each sub-division. The total 28 acres does not agree with the map.

You enclosed only one map whereas two maps are requested. The map does not show the point or points of diversion.

Kindly complete the application and return with the proper filing fee.
