Water District No. _____

Priority March 30, 1961

THIS IS TO CERTIFY that **HERBERT N. WILLIAMS**
of **Weston, Idaho**, made application for a permit to appropriate the
public waters of the State of Idaho, dated **March 9**, 1961; that Permit No. **G-29553**
was issued under said application; that Certificate of Completion of works, with a carrying capacity of
0.36 second feet, was issued thereunder on **March 29**, 1967, showing that said works
were completed on the **31st** day of **March**, 1966; and that on the **31st**
day of **March**, 1966, **HERBERT N. WILLIAMS**

of **Weston**, State of **Idaho**, made proof to the satisfaction of the
State Reclamation Engineer of Idaho, of the right to use the waters of a well
, a tributary of subterranean flow, for the purpose of irrigation
, under Use Permit No. **G-29553** of the Department of Reclamation,
and that said right to the use of said waters has been perfected in accordance with the laws of Idaho,
and is hereby confirmed by the State Reclamation Engineer of Idaho and entered of record in Volume
14 of Licenses at page **8757**, on the **29** day of **March**, 1967;
The right hereby confirmed dates from **March 30**, 1961;

The Point of Diversion is located **two points**
In the **NE 1/4 NW 1/4, Sec. 8**, T^p. **16 S.**, R. **38 E.**, B. M., **County of Franklin**.
That the amount of water to which such right is entitled and hereby confirmed, for the purposes
aforesaid, is limited to an amount actually needed and beneficially used for said purposes, and shall
not exceed **0.36** cubic feet per second.

Description and location of use:

Twp.	Range	Sec.	Forty-acre Tract	No. Acres Described in Permit	No. Acres Actually Irrigated

APPLICATION FOR PERMIT

To Appropriate the Subterranean Waters of The State of Idaho

Application No. G- 37559
Permit No. G- 29553
District No.

1. Name of Applicant: Herbert N. Williams
Postoffice address: Weston County: Franklin State: Idaho

2. Quantity of water claimed:
(a) Rate of withdrawal in cubic feet per second 1.34 or Idaho
Miners' inches 67 or gallons per minute
(b) Annual withdrawal in acre feet per annum

3. Source of water supply: Subterranean

4. Location of point of diversion or ² wells in the NE 1/4 of the NW 1/4 of Section 8
Twp. 16 S , Rge. 38 E , B.M., County of Franklin
Open dirt well diversion is in the SE 1/4 SW 1/4 Sec. 5, Twp. 16 S., Rng. 38 EBM

5. Water is to be used for: Irrigation

6. If for municipal, industrial or recreational purposes, give:

(a) Point of use of water is in the 1/4 of the 1/4 of Section , Twp.
Rge. , B.M.

(b) Waste water or sewage effluent is to be returned to
at a point in the 1/4 of the 1/4 of Section , Twp. , Rge. , B.M.

7. Kind of works: Drilled cased wells and open dirt side well described above

8. Estimated cost of works: \$4000

9. (a) Is reservoir to be used? yes

(b) Capacity of reservoir: 4 A. F.

10. The time required for the completion of such work and complete application of the water to the proposed use is 5 years.

11. If applicant is a corporation, give:

I. (a) Date and place of incorporation:

(b) Amount of capital stock: \$

(c) Amount paid in: \$

(d) Names and addresses of directors:

II. The financial resources of the applicant are (a) Cash on hand: \$

(b) Treasury stock:

(c) Bonds to be issued:

(d) Other resources:

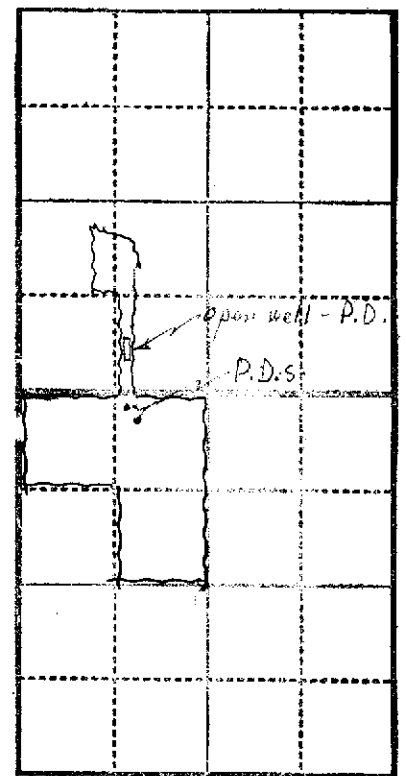

12. The land to be irrigated is described in the following tabulation:

13. Existing water rights and/or valid permits appurtenant to the lands to be irrigated are:

53 shares of Weston Creek Irr. Co., Permit No. G-28839 for 1.4 cfs

(a) 67 (cubic feet per second, inches or gallons per minute) of the water herein applied for is to be supplemental to the existing water rights.

(b) (cubic feet per second, inches or gallons per minute) is for new lands.

BE IT KNOWN THAT The undersigned hereby makes appli cation for permit to appropriate the public waters of the State of Idaho as herein set forth.

Certificate of Completion of Works

TO ALL WHOM IT MAY CONCERN:

This is to certify that Herbert N. Williams
 of Weston, County of Franklin, and State of
Idaho, the holder of Permit No. G-29553, issued upon
 Application No. G-37559 bearing date of priority of March 30, 1961, authorizing the
 diversion of 1.34 second feet of waters of two wells,
 (late proof)

County of Franklin, State of Idaho, for irrigation
 purposes, has fully complied with the provisions of the laws of the State of Idaho
 relating to the proof of completion of the works of diversion set out and described in said
 Permit; that said works are adequate for diverting and conveying to the place of intended
 use 0.36 second feet of the waters of two wells, tributaries of
subterranean flow;

that the point of diversion of said waters is in two points in NE 1/4, Sec. 8,
T. 16 S., R. 38 E., B.M.

and that the lands proposed to be irrigated by the use or place of use of said water are
 described as follows, to-wit: N 1/2 SW 1/4, SE 1/4 SW 1/4, Sec. 5; N 1/2 NW 1/4, SE 1/4 NW 1/4, Sec. 8,
T. 16 S., R. 38 E., B.M.

Proof of Completion of Works Made: March 31, 1966

RE: Permit No. G-29553

Herbert N. Williams
Weston, Idaho

Dear Mr. Williams:

Our field examiner's report on his inspection of proof of completion of works and application of water to beneficial use under the terms of Permit No. G-29553 shows the well(s) ~~are~~ (are) capable of conveying 18 miner's inches, or 0.36 c.f.s. However, due to the limitations of your permit, we can only allow the amount of water originally requested, the amount of water actually used beneficially, or 1 (one) miner's inch per irrigated acre.

Upon receipt of the statutory fees, totaling \$ 17.00 , we will issue the Certificate of Completion of Works for 0.36 c.f.s. and the License and Certificate of Water Right for 0.36 c.f.s. confirming the right, with priority of March 30, 1961 , to the use of subterranean water with the points of diversion in NE $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 8, for irrigation of 124 acres in N $\frac{1}{2}$ SW $\frac{1}{4}$, SE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 5; N $\frac{1}{2}$ NW $\frac{1}{4}$, SE $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 8, T. 16 S, R. 38 E, B.M.

Very truly yours,

M. Russell Bosch
Office Manager

Weston, Idaho

Dear Mr. Weston:

We acknowledge receipt of the depositions of holder and two witnesses, also affidavit of publication in the Preston Citizen, all submitted in proof of completion of works and beneficial use on Permit No. G-29553.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Very truly yours,

CARL E. TAPPAN
State Reclamation Engineer

DEPOSITION OF HOLDER

Ques. 1. State your name, residence occupation and postoffice address: _____

Herbert N. Williams Farmer Weston, Idaho

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf: _____

Ques. 3. State number, approval date of permit, and date of priority: _____

Permit No. G-29553 Approval date March 10, 1966 Priority date March 9, 1961

Ques. 4. State source of water supply: 2 wells and a sump

Give location of point of diversion, showing subdivision, section, township and range

2 Wells in NE1/4 NW1/4, Sec 8 T 16 S., R 38 E., B.M. and sump in SE1/4 SW1/4, Sec 5, T 16 S., R 38 E., B.M.

Ques. 5. Describe your works of diversion: Buried Mainline and portable mainline

40 lengths of sprinkler pipe; state amount of water they are capable of con-

veying from point of diversion to place of use: 1.34 c.f.s; Give name of canal or ditch

or other works by which water is conducted to such place of use: Buried mainline and

portable mainline; if a well, state depth of well 167 ft.; depth and size of

casing 10" casin 4" casing; depth to water 12 Ft.; if pump is used,

state discharge of pump: 150 gal per min gas 200 gal per min electric; tell how it was measured or determined _____

number of heads times size of head _____; if sprinkler irrigation, give number and size

of nozzles and operating pressure: 15-10 gal heads 35-8 gal. heads just under 40 lbs. pressure

Ques. 6. State for what purpose water is used: Irrigation

(If for irrigation, name each subdivision in which used and number of acres in each subdivision that have actually been irrigated with said water:

38 acres SE1/4 NW1/4 Sec 8 T 16 S., R 38 E., B.M.

78 acres NW1/4 NW1/4 Sec 8

10 acres SE1/4 SW1/4 Sec 5 T 16 S., R 38 E., B.M.

5 acres NE1/4 SW1/4 Sec 5

3 acres NW1/4 SW1/4 Sec 5

1.34 total acres

One log in

29553

State nature of all improvements which have been made as a direct result of said use:

An increase in bu. per acre of wheat and more tons of hay per acre. Tripled

Ques. 6-a: If this is a ground water permit, give name and address of person that drilled the well: Bernard Gardner Malad, Idaho

Ques. 7. If for other than irrigation purposes, show full legal description of place of use and state purpose for which water is used:

Ques. 8: If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder:

Quest. 9: State when and in what amount the water diverted under above mentioned permit has been first used: _____ - Time used since first use:
35-8 gal heads = 280 gals per min. pumped with 25 horse power Electric motor
15-10 gal heads = 150 gals per min. pumped with 10 horse power gas motor.

Water has been used in the months of May, June, July, August and September
of each Summer.

Ques. 10. Describe all other water rights appurtenant to same place of use: _____

53 Shares of water in Weston Creek Irrigation Co.

(sign) Herbert Williams

I hereby certify that the foregoing testimony was read to the above subscribed, before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me, at my office in

DEPOSITION OF WITNESS

The deposition of two witnesses on this form, taken separately, required in each case.

Ques. 1 State your name, age, residence, occupation and postoffice address:

Oscar Campbell Weston, Idaho: Farmer; Weston, Idaho

Ques. 2 Are you acquainted with Herbert Williams yes, the holder of
Permit No. G-29553 ? How long have you known him and where does he reside?

47 Years; He resides in Weston, Idaho

Ques. 3. Have you read or heard said Permit No. G-29553 read, and are you familiar
with its provisions and conditions: Yes NE

Ques. 4. State source of water supply: 2 wells and sump

Give location of place of diversion, showing subdivision, section, township and range
two Wells
sump SE1SW1, Sec. 5, T 16 S., R 38 E., B.M. NE1NW1, Sec. 8 T 16 S., R 38 E., B.M.

Describe works for conveying water to place of use: Buried Mainline and portable
Mainline and 40 lengths of sprinkler pipe

Ques. 5. How many second feet of water do you estimate said works will safely conduct
to place of use: 1.34 c.f.s. How much water have you seen being so
conveyed? 1.34 c.f.s.

Ques. 6 If for irrigation, show number of acres irrigated in each subdivision, giving
full legal description:
N1SW1, SE1SW1, Sec 5, N1NW1, SE1NW1, Sec. 8, T 16 S., R 38 E., B.M.

Ques. 7. If for other than irrigation purposes, show full legal description of place of use, and state purpose for which water is used.

Ques. 8. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

The land is rolling terrain and one inch per acre is required for its profitable cultivation.

Ques. 9. Have you any ownership interest in the works, water or lands above mentioned? If so, in what way and to what extent? None

Ques. 10. When did you first see this water used? Spring of 1960

Other times you have seen such use: Each summer since 1960

Re: Permit No. G-29553

Mr. Herbert N. Williams,
Weston, Idaho.

Dear Mr. Williams:

This acknowledges the Notice of Proof of Completion of Works and Application of water to Beneficial Use under Permit No. G-29553. The proofs are to be made ~~xxxxxxxxxxxxxx~~, on the 31st day of March, 1966, before Rachael Lott, Weston, Idaho Notary Public.

As of this date, we have mailed the Notice to the Preston Citizen Preston, Idaho, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof then mail the Affidavit of Publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the place, on the date, and at the time and before the Notary, as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, the Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the AFFIDAVIT OF PUBLICATION.

Very truly yours,

RE: Permit No. G-29553

Herbert N. Williams
Weston, Idaho

Dear Mr. Williams:

This is in reply to your letter of February 7, 1966 and your Notice of Publication. There seems to be some question in your mind as to the requirements of your permit. We are listing them as follows:

Permit No. G-28839
Date filed: July 1, 1960
Quantity of Water: 1.4 c.f.s.
Point of Diversion: NW $\frac{1}{4}$ Section 8, T 16 S., R 38 E., B.M.
SE $\frac{1}{4}$ Section 5, T 16 S., R 38 E., B.M.
Lands Licensed: NW $\frac{1}{4}$, SE $\frac{1}{4}$ Section 5, NW $\frac{1}{4}$, SE $\frac{1}{4}$ Section 8, all in T. 16 S., R 38 E., B.M. making a total of 102 acres.
Water Licensed: 1.04 c.f.s.
License issued: August 4, 1964
Priority date: March 9, 1961

Permit No. G-29553
Date filed: March 9, 1961
Quantity of Water: 1.34 c.f.s.
Point of Diversion: (two wells) NE $\frac{1}{4}$ Section 8, SE $\frac{1}{4}$ Section 5, T 16 S., R 38 E., B.M.
Land List: NW $\frac{1}{4}$, SE $\frac{1}{4}$ Section 5, NW $\frac{1}{4}$, SE $\frac{1}{4}$ Section 8, T 16 S., R 38 E., B.M.

January 1, 1966

Re: Permit No. G - 29553

Herbert N. Williams
Weston, Idaho

Dear Mr. Williams:

The date for proofs of Completion of Works and Application of water to beneficial use, as set out under terms of Permit No. G-29553 are due not later than March 10, 1966.

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list, which has been recorded in this department. If changes have been made and no amendments are on record, we advise you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least FORTY (40) DAYS BEFORE THE MENTIONED DATE, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point, or points, of diversion; and the location of use or the lands which are irrigated - - all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with two Forms 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named, and before the notary public, as advertised in the publication notice.

Very truly yours,

STATE RECLAMATION ENGINEER

Enc. Forms 36 and 11

cc:

29553

January 9, 1962

RE: Permits No. G-28839, G-29553

Herbert N. Williams
Weston, Idaho

Dear Mr. Williams:

We received your letter of January 8 in regard to completion of your well and possible trouble with springs.

Enclosed are forms, with instructions, to be completed prior to making the proofs of completion of works and beneficial use of the water.

You indicate you are using 10-5 gallon sprinklers or about one cubic foot per second of water. Permit No. G-28839 claims 1.4 c.f.s. and should be the one you use at this time. Your other permit could be used later if you develop additional water.

Your right, and also the right of your neighbors, to divert subterranean water is good only insofar as you do not deplete water claimed by a prior right.

Determination of effect of withdrawal of water from a well or wells is a tedious job of measuring the water flowing from the spring prior and while one well is being used. Then the second well is checked, etc.

Record of depth to water in the wells should be kept during the test period as well as the flow from the wells. The time necessary would depend upon the number of wells involved. It could mean that the wells could not be operated for a considerable time. The tests could be made prior to the irrigation season. Any offending wells could probably divert sufficient water to the company to offset any loss of water in the spring.

Very truly yours,

GEO. N. CARTER
State Reclamation Engineer
By

Ralph W. Thomas
Deputy State Reclamation Engineer

RWT:mr
Enc. Form 36, 11, Instructions

29553

RECEIVED

JAN 9 1962

January 8, 1962

Department of Reclamation

Mr. Geo. N. Carter
State Reclamation Engineer.

Dear Mr. Carter:

I have completed my Irrigation system. What must I do to obtain a license?

I have a 12 inch casing down 157 feet with a total of 40 feet of gravel.

I operate my pump with a U D 236 International Deisel engine. The pump bowls are down 90 feet. When the engine is running at 2000 RPM it will operate 40-8 gallon sprinkler heads.

I have 1600 feet of 6 inch buried main line, 1000 feet of 5 inch portable main line, 1600 feet of 3 inch sprinkler line with 8 gallon heads and 600 feet of 4 inch sprinkler line with 10 gallon heads, with all the elbows, tees and fittings necessary. The total cost was just a little under \$10,000.00. I am really thrilled with my irrigation system.

There is a matter that I am concerned about. Since the Richard Lemmon, Fannesbeck-Schvaneveldt pumps and my pump started operating last summer there are a few people, belonging to the Weston Creek Irrigation Co., who claim that we are drying up some springs that empty into the Weston Creek. These people say that we cannot start up our pumps this coming summer of 1962. Can they stop us from pumping? Please advise. These springs have, in the past years, been drying up because of the drought. The flow has decreased a little more each year.

My house well is 16 feet to the first gravel and water. My irrigation well 200 feet away is 11 feet to the first gravel and water. When my irrigation well was first completed last spring, the water came up to 3 feet from the top of the ground. At the present time the water stands at 8 feet from the top of the ground.

Thanks for your help with everything.

Sincerely,

Herbert N. Williams
Weston, Idaho

The annual stockholders meeting for the Weston Creek Irrigation Co. will be held in February. Could I receive some information about what I mentioned above before this meeting?

March 22, 1961

Re: Permit No. G-29553

Mr. Herbert N. Williams,

Dear Mr. Carter:

I received your letter dated February 14, 1961 and after reading it I have a clearer understanding of my problem.

I would like to keep my Permit No. G-28839 allowing me 1.4 cubic feet per second and I would like to apply for another permit for an additional 1.34 cubic feet per second.

I am enclosing a check for \$5.25 to pay for the new permit. I am enclosing a check for \$1.00 for recording the amendment.

I have filled out the amendments in pencil, if these are not correct would you please make the corrections? I'm not sure of these. Thanks.

Very truly yours,

Herbert N. Williams

Re: Permit No. G-28839
Application for Permit

Herbert Williams
Weston, Idaho

Dear Mr. Williams:

Your application for permit has been received without the proper filing fee.

You claimed 1.4 cubic feet per second under Permit No. G-28839 and that amount will have to be subtracted from this application, leaving 1.34 cubic feet per second. You may relinquish Permit No. G-28839 on the enclosed form, and then this application could be approved for 2.74 c.f.s. of water. That would make your water right simpler although you would lose some priority on the 1.4 c.f.s. in the permit.

The fee for filing the application for 1.34 c.f.s. is \$5.25 and \$5.50 for 2.74 c.f.s.

Kindly remit the fee to this office at your earliest convenience with the signed relinquishment if you desire to have only one permit.

Very truly yours,

GEO. N. CARTER
State Reclamation Engineer
