Dear Mr. Cox:

Enclosed you will find an amendment form to change the well site for permit No. 13-07180. As you may recall, we tried to include this permit on a transfer application with right No. 13-02218. This was returned by our Boise office. They stated that a permit cannot be addressed by an application for transfer. Only inspected water rights can be changed by a transfer.

The amendment form is what Boise wants signed and returned to this office with the required Twenty Dollar (\$20) fee. I will hold the transfer application until I get the amendment form back and submit them both to Boise at the same time.

If you have any questions, please give me a call.

Dear Mr. Fisher:

This acknowledges the Notice of Proof of Completion of Works and Application of water to Beneficial Use under Permit No. G-28957. The proofs are to be made at 10:00 o'clock A.M., on the 10th day of August, 1965, before Ted B. Larsen, 10 West Oneida, Preston, Idaho Notary Public.

As of this date, we have mailed the Notice to the Idaho State Journal Pocatello, Idaho, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof then mail the Affidavit of Publication and statement of costs to you.

Dear Mr. Fisher:

The date for proofs of Completion of Works and Application of water to beneficial use, as set out under terms of Permit No. G- 28957 are due not later than Aug. 23, 1965

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list, which has been recorded in this department. If changes have been made and no amendments are on record, we advise you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least FORTY (40) DAYS BEFORE THE MENTIONED DATE, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point, or points, of diversion; and the location of use or the lands which are irrigated -- all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with two Forms 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named, and before the notary public, as advertised in the publication notice.

Very truly yours,

Carl E. Tappan

RE: Permit No. G-28957

Douglas Lee Fisher
Oxford, Idaho

Dear Mr. Fisher:

Our record of the permit showed the point of diversion in the SE $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 17, Township 13 South, Range 38 East as being in Franklin County whereas it should have shown Bannock County and has been changed.

You should change your permit if it shows Franklin County.

Very truly yours,
