Dear Mr. Whitehead:

Our field engineer's report on his inspection of the application of water to beneficial use under the terms of Permit No. 28109 shows the northerly spring is capable of conveying 10 miner's inches, or 0.2 c.f.s. of water for domestic and manufacturing purposes.

Upon receipt of the statutory fee of \$5.00 we will issue the License and Certificate of Water Right, confirming the right with priority of August 18, 1959 to the use of 0.2 second foot of surface water with the point of diversion in the NW $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 4 for domestic and manufacturing purposes in the NE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 4, Township 11 South, Range 40 East, B.M.

RE: Permit No 28109

Dear Sirs:

I have your letter of November 4 regarding our water permit where you requested our check for \$5.00 so that you could issue the License for Water Right. I have a question regarding your statement that it will be issued with priority of August 18, 1959.

I beleive that Aug 18, 1959 is about the time that we first applied for the permit, but I have been told that it is possible that the priority date can be changed to the time that beneficial use was first made of the water. In our case, we have been using water from these springs since 1935, but until last year, the company had never filed on it.

Is it possible that the priority date can be changed on the License to read 1935 or does it have to stand as stated- Aug 18, 1959? I will forward our check upon hearing from you in this matter.

Very truly yours,

Rex Whitehead

Dear Mr. Whitehead:

The State Statutes provide that the date of priority of a water right obtained through the "Permit Method" is the date of receipt of an acceptable application in this office, provided the terms of the permit are completed on time.

The only method to obtain a water right with earlier priority is by action in the District Court. You should consult your attorney.
