Dear Mr. Weyerham:

This acknowledges the Notice of Proof of ~~Completion of Work~~ Application of Water to Beneficial Use under Permit No. 26153. The proofs are to be made at 10:00 o'clock A.M., on the 18th day of February, 1963, before Ted E. Larsen, 10 West Oneida, Preston, Idaho, Notary Public.

As of this date we have mailed the Notice to the Preston Citizen Preston, Idaho, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof then mail the affidavit of publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the place, on the date, and at the time and before the Notary, as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, the Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

Very truly yours,

GEO. N. CARTER

Dear Mr. Weyerman:

Returned herewith are the forms you submitted with a blank Form 10 and a form to assign a permit.

First you must have Mr. Delbert Jensen and wife assign the permit to you before you can make the proof of beneficial use of the water. Remit the assignment to this office with the other papers with the \$0.50 recording fee.

Mr. Jensen should give you the permit, if he has not done so, as it is necessary in completing Form 10. If the permit or the certificate of completion of works are not available, a copy of the permit can be issued by this office for a fee of \$1.50 for copy work.

Complete two Forms 10 according to directions on Form 10-A, dated November 1, which we sent to Mr. Jensen and return to this office with Form 11 and the assignment.

Re: Permit No. 26153

Date: November 1, 1963

Delbert Jensen
Rt 1, Box 65
Weston, Idaho

Dear Mr. Jensen:

The date for proof of application of water to beneficial use, as set out under the terms of Permit No. 26153 is due not later than January 24, 1963. If by this date you are not prepared to make this proof, you may make it at a later date, however, your priority will be advanced the same length of time for which the proof is late.

Before this proof can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county.

We enclose Form 10, in duplicate, which is to be filled in and returned to this department at least forty (40) days before the above mentioned date and/or before the time you intend to make proof. This form, in duplicate, is to include the time of day, the date, the name of the town, the address of the Notary Public before whom you will appear to make the depositions of proof (this may be at any place that is convenient for you and your two witnesses), the quantity of water, for what purpose it is used, the point or points of diversion and the location of use or lands which are irrigated - by legal land description. Descriptions should be taken from your Permit, including any amendments thereto, as recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your notice is published.

Also enclosed is Form 11, which is the authorization for us to have the notice published in the designated county newspaper, at your expense. This is to be returned with Forms 10.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set and at the place named, before the Notary Public, as advertised in the publication notice.

The amount of water allowed in a license cannot be more than is actually produced and measured and put to beneficial use, and cannot be more than the statutory amount allowable per acre of land actually found by field inspection to have been irrigated at the time of proof.

Ques. 8. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. All of the land in question has been farmed, part of it dry farmed
Now that it is watered crop yield has been increased.

Ques. 9. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. None.

Ques. 10. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I have been on the land several times each year for the past 10
years and have noted the change in production of the land since it has
been watered.

I, J. N. Larsen, a Notary Public for the State of Idaho, residing at Preston, Idaho, do hereby certify that blanks for Proof of Application of Water to Beneficial Use was received in duplicate, together with Proof of Application of Water to Beneficial Use Deposition of Holder was received on or before January 24, 1957 at Preston, Idaho, and as I remember, these depositions were made by two witnesses and also one by Delbert Jensen, the applicant under permit no. 26153 to appropriate the Public Waters of the State of Idaho, and that these affidavits were properly taken and properly filled out and were supposed to have been mailed to the Department of Reclamation, and whether or not they became lost I am not prepared to say, but from information from the Department of Reclamation they were never received and for this reason a new set of depositions have been delivered to the Affiant and that this Affidavit is made for the purpose of convincing the State Engineer that the Affidavits were properly taken at the proper time and the new set of Affidavits were asked for and have been executed in lieu of the ones lost. No protests have been received at any time.

In Witness whereof I have hereunto set my hand this 16th day of January, 1958.

Dear Mr. Larsen:

According to the publication notice, a copy of which is enclosed herewith for your information, was that Mr. Jensen was to appear before you on the 24th day of January, 1957 at Preston, Idaho, to submit Proof of Beneficial Use in connection with the above captioned permit number. We have written several letters in regard to this matter, without answer.

Providing no person or persons appeared at your office on or before the 24th day of January, 1957 in protest to the taking of proofs in connection with the above stated permit, we believe that the notice for publication will not have to be re-published. However, we will request a statement from you in the form of an affidavit, stating that said Proof of Application of Water to Beneficial Use was to be taken before you on January 24, 1957, and at that time no person or persons appeared before you to protest the proofs to be executed by Mr. Jensen and his two witnesses, also affidavit should state the reasons why the proofs were not taken at the time as stated in the publication notice.

If the depositions of Mr. Jensen and the two witnesses were taken at the time as published by publication notice, and mislaid or failed to be sent in to this office, please state the reason therefore also in the affidavit. We require this affidavit to support the depositions filed at a later date than stated in the publication notice.

We are enclosing herewith, additional proofs, if it is necessary to submit new proofs at this time, one for the holder and one each for two witnesses.

Dear Mr. Kulp:

Mr. Jensen brought in to me the letter he recieved from you under date of December 16, 1957. At that time Mr. Jensen left a check with me made payable to you for \$5.00 and stated that he would go home and see if he could locate the papers that were not sent in. Now, today, he tells me he has been unable to locate the papers.

We are herewith enclosing check for \$5.00 as per your letter of December 16, and ask that you furnish us with the proper blanks and then we will have him and his witnesses come in and fill them out and certify to them and mail them to you.

So, if this is satisfactory, please mail them to us and we will get in touch with Mr. Jensen and get it out of the road.

Re: Permit No. 26153

Mr. Delber Jensen
R.F.D. #1 Box 65
Weston, Idaho

Dear Mr. Jensen:

To date, we have never received acknowledgment of our letter to you of April 16, 1957. Perhaps there has been misunderstanding regarding the matter of proof of beneficial use under the terms of your Permit No. 26153.

At the time you filed on the water under Permit No. 26153 you stated the works for diversion would be completed and the water put to beneficial use by January 27, 1957. The permit was issued as a "Use Permit" with that stipulation. You have complied with the terms in that you have made the completion of works proof, dated December 10, 1956, however, before this proof is accepted as valid it must be recorded on the record of the permit, which record is made from The Certificate of Completion of Works. The fee for this Certificate is five dollars and you have failed to send it. Please do so immediately.

You have advertised your notice of intention of application of water to beneficial use and we have the affidavit of publication in your file. However, the depositions of holder and two witnesses executed on January 24, 1957, before J. N. Larsen, Notary Public, have never been received. These, too, are a necessary requirement and must be sent immediately.

To complete a water right (surface) a Certificate of Completion of Works is issued and recorded on the record of the permit and after the depositions of proof of application of water to beneficial use are received a report is made from them and the field engineer then makes an inspection. After which, the permit is entitled to be licensed.

26153

Mr. Delber Jensen

Page 2

December 16, 1957

Unless the requirements are met it will become necessary to cancel the permit. We know you are anxious to keep this permit in good standing until it becomes a licensed water right.

Dear Mr. Jensen:

It is necessary that we write you again regarding your recent Application filed in the Department of Reclamation to appropriate water from a drain.

Your Application states that the drain is in the SE $\frac{1}{4}$ of Section 30, Township 16 South, Range 39 East, then directly below in answer to Question 4 (location of point of diversion) you state that the diversion point is any place along drain in the SE $\frac{1}{4}$ of Section 36, Township 16 South, Range 39 East. We assume you mean your land is located in the SE $\frac{1}{4}$ of Section 30 as there is no Section 36 in the above stated Township, as the south row of Sections are cut off being over the state line in Utah.

Kindly set us right as to your correct land description.
