State of Idaho

License and Certificate of Water Right

Water License No. 22931

Amount 1.3 cubic feet

Water District No. _____

Priority April 2, 1953

THIS IS TO CERTIFY that **LEON G. NUFFER**
of **Dayton, Idaho**, made application for a permit to appropriate the
public waters of the State of Idaho, dated **July 17**, 19 **52**; that Permit No. **22931**
was issued under said application; that Certificate of Completion of works, with a carrying capacity of
1.64 second feet, was issued thereunder on **June 30**, 19 **53**, showing that said works
were completed on the **16th** day of **June**, 19 **53**; and that on the **11th**
day of **April**, 19 **54**,

LEON G. NUFFER

of **Dayton**, State of **Idaho**, made proof to the satisfaction of the
State Reclamation Engineer of Idaho, of the right to use the waters of **Five Mile**
Creek, a tributary of **Bear River**, for the purpose of **Irrigation**
, under Use Permit No. **22931** of the Department of Reclamation
and that said right to the use of said waters has been perfected in accordance with the laws of Idaho,
and is hereby confirmed by the State Reclamation Engineer of Idaho and entered of record in Volume
9 of Licenses at page **5285**, on the **22nd** day of **June**, 19 **54**;
The right hereby confirmed dates from **April 2, 1953**, 19 **53**;

The Point of Diversion is located
in the **NE 1/4 SW 1/4, Sec. 13**, Tp. **15 S.**, R. **38 E.**, B. M. **County Franklin**
That the amount of water to which such right is entitled and hereby confirmed, for the purposes
aforesaid, is limited to an amount actually needed and beneficially used for said purposes, and shall
not exceed **1.3** cubic feet per second.

Description and location of use:

Twp.	Range	Sec.	Forty-acre Tract	No. Acres Described in Permit	No. Acres Actually Irrigated
15 S.	38 E.	13	NE 1/4 SE 1/4 NW 1/4 SE 1/4 SE 1/4 SE 1/4	40 7 35	40 6 12
			Number of Acres	Actually Irrigated	65

The right to the use of the water aforesaid hereby confirmed is restricted to the lands or place
of use herein described, as provided by the laws of Idaho.

WITNESS the seal and signature of the State Reclamation Engineer, affixed at Boise, Idaho, this
22nd day of **June**, 19 **54**.

MARK R. KULP

State Reclamation Engineer.

APPLICATION FOR PERMIT

To Appropriate the Public Waters of the State of Idaho

13-2162

APPLICATION No. 30679
 PERMIT No. 22931
 DISTRICT No.

1. Name of Applicant: LEON G. NUFFER

Postoffice address: Dayton

County: Franklin

State: Idaho

I. If applicant is a corporation, give:

- (a) Date and place of incorporation:
- (b) Amount of capital stock:
- (c) Amount paid in:
- (d) Names and addresses of directors:

II. The financial resources of the applicant are:

- (a) Cash on hand:
- (b) Treasury stock:
- (c) Bonds to be issued:
- (d) Other resources:

2. Quantity of water claimed: 1.64 cubic feet per second.

3. Source of water supply: Five Mile Creek which is a tributary of Bear River

4. Location of point of diversion: 300 ft. South and 300 ft. West ~~feet distant~~ from the center corner of Section 13, T. 15 S., R. 38 E., B. M., and is in the NE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 13, T. 15 S., R. 38 E., B. M., County of Franklin

5. Water is to be used for Irrigation

6. If for mining, milling, power or manufacturing purposes, give:

(a) Point of use of water: feet distant from corner of Section

T. , R. , B. M., in the of Section , T. , R. , B. M.

(b) Amount of power generated: H.P., under feet head.

(c) Water is to be returned to at a point feet

distant from the corner of Section , T. , R. , B. M., in the of Section , T. , R. , B. M.

7. Estimated cost of works: \$ 4,500.00

8. Kind of works: Pumping plant, electric wiring, 1000 feet of 8 inch pipe, and levee of 1600 feet for open ditch

9. Height of dam feet; length of dam at top feet; length of dam at bottom

feet; material used in dam:

10. Size of headgate: Width feet; height feet.

11. Ditch: Width at bottom 16-19 feet; width at water line 22-25 feet; depth of water feet; dimensions of flume:

Diameter of pipe inches; length of conduit Pipe line 1000 feet; Open ditch 1600 ft. miles

Average grade per mile $\frac{1}{20}$ th ft. per 100 ft. as feet open ditch.

12. The time required for the completion of such work is One years.

13. The time required for the complete application of the water to the proposed use is in use additional years.

14. The land to be irrigated is described in the following tabulation: See remarks.

15. Existing water rights and/or valid permits appurtenant to the lands to be irrigated are:

16. (a) Is reservoir to be used? **No** If so, fill in (b) and (c) below:
 (b) Name of Reservoir and number of Storage Permit:
 (c) Date of filing of Application for Storage Permit and Name of Applicant:

BE IT KNOWN THAT The undersigned hereby makes application for permit to appropriate the public water of the State of Idaho as herein set forth.

LEON G. NUFFER *Applicant.*

By _____ Agent.

Date of first receipt at Department of Reclamation: 9:00 A. M. July 17, 1952

Returned to applicant for correction: July 17, 1952

Corrected application received: July 23, 1952

Approval of State Reclamation Engineer

The number of this permit is 22931

Recorded in Book 82 Page 22931 Approved July 29, 1952

Recorded in Book 82 Page 22931 Approved July 29, 1952
This is to certify that I have examined the within application for a permit to appropriate the public waters of the State of Idaho, and hereby approve the same, subject to the following limitations and conditions:

Bond in the sum of \$ _____ to be filed on or before _____

Work to begin on or before **September 29, 1952** and to continue diligently and uninterruptedly to completion, unless temporarily interrupted by circumstances over which permit holder has no control.

One-fifth of the work above specified to be completed on or before **January 29, 1953**

The whole of said work to be completed on or before **July 29, 1953**

Beneficial use of water appropriated in accordance herewith, to be made on or before July 29, 1953

WITNESS My hand this 29th day of July, 1952

MARK R. KULP
State Reclamation Engineer.

IN TESTIMONY WHEREOF, WE, LEN JORDAN, Governor of the State of Idaho,

and IRA H. MASTERS, Secretary of State of the State of Idaho, have caused this instrument to

be executed in the name of the State of Idaho, and caused the Great Seal of the State of Idaho to be hereunto affixed, this 29th.....

day of July, 19 52.

STATE OF IDAHO

Countersigned:

(SEAL)

By **LEN JORDAN** Governor.

By IRA H. MASTERS
Secretary of State.

REMARKS: Applicant is diverting water from a reservoir formed on applicant's land in NW $\frac{1}{4}$ of SE $\frac{1}{4}$ of Section 13, Twp. 15 S., Range 38 E. B.M., which is for the purpose of flood control of Five Mile Creek. The water is impounded on applicant's land, and applicant is now pumping from said reservoir by use of tractor, and intends to bring electricity to the pumping plant. Applicant is not building the dam for the reservoir which is under direction of flood control people

RE: Permit No. 22931

Mr. Leon G. Nuffer
Dayton
Idaho

Dear Mr. Nuffer:

We acknowledge receipt of corrected depositions of yourself and two witnesses in proof of beneficial use on Permit No. 22931.

We also have on file the report of our field engineer on examination for beneficial use, which shows that you have irrigated 65 acres in the NW $\frac{1}{4}$ SE $\frac{1}{4}$ and E $\frac{1}{2}$ SE $\frac{1}{4}$ Section 13, Township 15 South, Range 38 East B.M. from Five Mile Creek.

A License can, therefore, be issued for 1.3 second feet of water upon receipt of the statutory fee which amounts to \$6.00.

Meanwhile, we return Permit No. 22931 and the Certificate of Completion of Works issued thereunder, which were sent to this department along with your proof for beneficial use.

Very truly yours,

BOISE, IDAHO
REPORT OF ENGINEER

Permit No. 22931This proof is for Beneficial Use In Water District No. _____1. Name of applicant Leon G. Nuffer, Dayton, Idaho2. Source of water supply: Five Mile Creek3. Location of point of diversion: Is in the NE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 13T. 15 S. R. 38 E. County of Franklin

4. Describe works as they exist, giving dimensions and capacities of same: This system pumps directly from the pool formed by a large erosion control dam on Five Mile Creek. Pump is a Fairbanks Morse centrifugal 5" intake 4" outlet. Serial No. 758012 driven by a 20 H.P. G. E. Horizontal motor 220 V. 50 Amps. 1760 RPM. Serial No. O K 8019138. Mounted on a portable trailer unit; 27' of 6" suction line extending down into the reservoir. There is 960' of 8" iron pipe leading up the hill to head of ditch. Delivery is approximately 100". Most of the water is supplemental at present. The erosion control dam is approximately 35' wide at top, 500' wide on bottom, 75' high and 1/8 mile long. There is an 18" culvert pipe through the dam for an outlet. There is a 24" pipe through the upper portion of the dam as a spill way over-flow extending from a concrete well 2' by 3'. An additional spillway is 12' wide in the bottom and extends to the West for a considerable distance and dumps into another draw. This spill outlet are at the center portion of the dam on top.

5. Water is used for: irrigation way is not yet finished. Control works for the

6. State whether or not water has been turned into works of diversion: _____

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if other than irrigation):

NW $\frac{1}{4}$ SE $\frac{1}{4}$, E $\frac{1}{2}$ SE $\frac{1}{4}$ Section 13, Twp. 15 South, Range 38 East, B. M.

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach? _____

Remarks: This dam is on the farm of Mr. Leon Nuffer. This filing is to prevent some-one else from appropriating the water and preventing its use by Mr. Nuffer.

This examination was made on the 20 day of April, 1954(Signed) E. N. Humphrey Examiner.

APR 29 1954
Department of Reclamation

Permit No. 22931

Proof of Application of Water to Beneficial Use

Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. Leon G. Nuffer, Dayton, Idaho, Farmer, Dayton, Idaho

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. _____

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. 22931, July 17, 1952, April 2, 1953

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Five Mile Creek, resevoir of the Five Mile Erosion Control Dam, located at Dayton, Idaho, 300 ft South and 300 ft West from the center of Sec 13 Twp 15 S, R38, EEM

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined.

Ans. Pump having 2 second foot capacity, pump is a five inch suction and 4 inch discharge, and the determination is made by actual inspection of volumn.

2 Second feet.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Irrigation of applicants land in NW $\frac{1}{4}$ of SE $\frac{1}{4}$ of Sec. 13 Tp. 15 S, R. 38 E. B. M.

67 acres are now under irrigation, and are improved by the use of this water

upon the land, all land is cultivated. Also said land are located in the

East one-half of the SW $\frac{1}{4}$ of said Section 13.

22931

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. _____

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. 1.64 cubic feet per second.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. _____

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. 1st of July, 1952. 2 second feet, 2 second feet.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. _____

Idaho

Dear Mr. Nuffer:

We return the depositions of yourself and two witnesses offered in proof of Beneficial Use on Permit No. 22931 for the following corrections.

1. Question 4 of the depositions of the two witnesses should give the point of diversion and also describe the works.
2. Question 6 of all the depositions mentions 67 acres, but only describes the NW $\frac{1}{4}$ SE $\frac{1}{4}$ Sec. 13, whereas the permit includes the land in the E $\frac{1}{2}$ SE $\frac{1}{4}$ of said section.
3. Question 10 of the depositions of your two witnesses should give more detail as to the amount of water they have seen applied to Beneficial Use.

Please Complete the depositions as above and return promptly to this Department.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

NOTICE FOR PUBLICATION

Notice of Proof Application of
Water to Beneficial Use

Notice is hereby given that at 10:00 A. M. on the 14th day of April, 1954, at Preston, County of Franklin, State of Idaho, before C. L. Swenson, Notary Public, proof will be submitted of the application to beneficial use of 1.64 cubic feet per second of the waters of Five Mile Creek in accordance with the terms and conditions of Permit No. 22931 heretofore issued by the Department of Reclamation of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are Leon G. Nuffer, Dayton, Idaho.

The use to which said water has been applied is irrigation.

The amount applied to beneficial use is 1.64 cubic feet per second.

The place where said water is used, 82 acres of land owned by the applicant and located in the NW 1/4 SE 1/4 and E 1/2 SE 1/4 Section 13, Twp. 15 South, Range 38 East, B. M.

The name of the canal or ditch or other works by which said water is conducted to such place of use is Five Mile Creek.

The right to take water from such works is based upon Permit No. 22931.

The source of supply from which such water is diverted is Five Mile Creek.

The date of priority which said user is prepared to establish is April 2, 1953.

MARK R. KULP
State Reclamation Engineer.

NOTICE FOR PUBLICATION
 NOTICE OF PROOF APPLICATION OF WATER
 TO BENEFICIAL USE

Notice is hereby given that at 10:00 A. M. on the 14th day of April, 1954,
 at Preston, County of Franklin, State of Idaho, before
C. L. Swenson, Notary Public, proof will be submitted of the
 application to beneficial use of 1.64 cubic feet per second of the waters of Five Mile Creek
 in accordance with the terms and conditions of Permit No. 22931
 heretofore issued by the Department of Reclamation of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are _____

Leon G. Nuffer, Dayton, Idaho.

The use to which said water has been applied is irrigation.

The amount applied to beneficial use is 1.64 cubic feet per second

The place where said water is used (if for irrigation, give full and accurate description of the lands irrigated)

82 acres of land owned by the applicant and located in the NW $\frac{1}{4}$ SE $\frac{1}{4}$ and E $\frac{1}{2}$ SE $\frac{1}{4}$
Section 13, Twp. 15 South, Range 38 East, B. M.

The name of the canal or ditch or other works by which said water is conducted to such place of use is _____

Five Mile Creek.

The right to take water from such works is based upon Permit No. 22931

The source of supply from which such water is diverted is Five Mile Creek.

The date of priority which said user is prepared to establish is April 2, 1953

MARK R. KULP

State Reclamation Engineer.

February 19, 1954

RE: Permit No. 22931

Mr. Leon G. Muffer
Dayton
Idaho

Dear Mr. Muffer:

We have completed the notice for proof of beneficial use to be made April 14, 1954 on your Permit No. 22931 and shall send a copy to the Preston Citizen with instructions to publish it once a week for four weeks prior to that date and to send you the affidavit of publication together with statement of costs.

Since this proof was due July 29, 1953, the original priority of July 17, 1952 will be changed to April 2, 1953 or the length of time this proof is past due.

We enclose the necessary forms of deposition to be used in making this proof and at the time set, you should appear before Mr. C. L. Swenson, Notary Public, together with two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, for the purpose of executing the depositions.

Very truly yours,

Mr. Mark Kulp, State Engineer
State House
Boise, Idaho

Dear Mr. Kulp:

You no doubt are somewhat familiar with this terrible soil erosion problem on Five-Mile Creek in the Dayton, Idaho area.

Last year a committee was formed, headed by the writer, and we undertook to do something about this problem so we raised \$40,000.00 locally and proceeded to do a force account job under the engineering of L. M. Winsor. The work consisted of building a dam across Five-Mile at a point that would create a stilling pond upstream from the dam. This stilling pond was to eliminate the meandering creek and thereby stop the constant bank cutting and sloughing. A graduated two-point entry outlet works was installed so that in case of flash floods the upstream reservoir would retain the water and let it out at a given rate. The downstream part of the Creek below the dam was lined with rock, at least for a mile and a half (expect to do the remainder at some future time.) Now, the thing works. You can already see the effects of stabilization.

Yesterday I saw something that must be corrected. Leon G. Nuffer has installed a two-second foot pump to take water from the stilling basin and yesterday the water in the stilling basin was at least four feet below the outlet pipe of the dam and therefore the area of the stilling basin was reduced down to the point where the stream joins the surface of the stilling basin pond above which point the stream had resumed its old meandering and cutting action.

Now, it is OK for Mr. Nuffer to use water from the pond so long as he catches the overflow but to permit his reducing the area of the pond below our outlet works destroys the effects of all the work done. What can be done to stop this? Certainly rights should not be established. His permit to pump will be as of 1952. Will you please advise?

Yours very truly,

Thos. Heath

July 13, 1953

Mr. Thomas Heath
Preston
Idaho

Permit No. 22931
Leon G. Nuffer
1.64 c.f.s. Five Mile Creek

Dear Mr. Heath:

The Nuffer application for permit was approved as far as unappropriated public water is concerned.

Although the committee did not formally apply for permit to appropriate public water to maintain a pond level that would reduce erosion, it is probable that the building of the dam with a fixed outlet level and catching runoff enough to fill it to that level would constitute a valid appropriation of that amount of water.

We realized at the time we approved Mr. Nuffer's application that he intended to pump from the pool formed by the erosion control dam and took for granted that an agreement had been reached as the applicant stated: "Applicant is diverting water from a reservoir formed on applicant's land in NW 1/4 SE 1/4 Section 13, Township 15 South, Range 38 East, B.M., which is for the purpose of flood control of Five Mile Creek. The water is impounded on applicant's land and applicant is now pumping from said reservoir by use of tractor, but intend to bring electricity to the pumping plant. Applicant is not building the dam for the reservoir which is under direction of flood control people."

The applicant has initiated a valid appropriation as far as unappropriated public water is concerned and if local arrangements cannot be made as to how much the pond can be lowered, it would have to be settled by the court.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

(P. O.) Dayton, Idaho

TO THE STATE RECLAMATION ENGINEER:

Boise, Idaho.

Dear Sir:

You are hereby authorized to have the attached notice published at my expense in the
Preston Citizen of Preston, Idaho published in
the county in which the works are situated.

Leon G. Huffer

(In case of canals or other works designed to divert and carry more than 50 cubic feet of water per second, the following certificate must be signed by a well-known and competent engineer.)

I hereby certify that the facts set forth in the attached notice are true.

Engineer.

22931

NOTICE FOR PUBLICATION
NOTICE OF PROOF APPLICATION OF WATER
TO BENEFICIAL USE

Notice is hereby given that at 10 A. M. on the 19th day of April, 1954,
at Preston, County of Franklin, State of Idaho, before
C. L. Swenson Preston, proof will be submitted of the
application to beneficial use of 1.64 cubic feet per second of the waters of The Five Mile Creek
Control Dam Reservoir in accordance with the terms and conditions of Permit No. 22931
heretofore issued by the State Reclamation Engineer of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are

Leon G. Nuffer Dayton, Idaho

The use to which said water has been applied is Irrigation

The amount applied to beneficial use is 1.64 cubic feet per second

The place where said water is used (if for irrigation, give full and accurate description of the lands irrigated)

82 acres of land owned by the applicant and located in the NW $\frac{1}{4}$ of SE $\frac{1}{4}$ of
Section 13 Township 15 South, Range 38 East of the Boise Meridian and the E $\frac{1}{2}$
of the SE $\frac{1}{4}$ of this section.

The name of the canal or ditch or other works by which said water is conducted to such place of use is

Five Mile Creek

The right to take water from such works is based upon Permit No. 22931

The source of supply from which such water is diverted is Five Mile Creek

The date of priority which said user is prepared to establish is July 1, 195¹⁷ 4-2-53

State Reclamation Engineer.

DEPARTMENT OF RECLAMATION

Mr. Leon G. Ruffer

BOISE

May 1, 1953

Dayton, Idaho

Dear Sirs:

Under the terms of your permit No. ~~22931~~ you are required to complete your diversion works and make proof of beneficial use on or before

~~July 29, 1953~~

We enclose herewith a blank affidavit to be filled out, sworn to by you before a Notary Public of Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the Completion of the Works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion of Works will be issued to you.

We also enclose blank notice for proof of application of water to Beneficial Use under this permit, which should be filled out and returned to this office at least forty (40) days before the date upon which you wish to make proof. The proof must be submitted before a Notary Public or other officer authorized by law to administer oaths. The date for proof as set out in your permit, is ~~July 29, 1953~~, and if proof is submitted subsequent to said date, your priority will be brought down a length of time equal to the time elapsing between the date proof should have been made and the date proof is actually made.

Very truly yours,

SCALE: 2 INCHES = 1 MILE. DRAW PLAN IN INK.

22931

July 17, 1952

Mr. P. M. Condie
Attorney at Law
Preston, Idaho

Dear Mr. Condie:

We acknowledge receipt of your letter of July 16, 1952, enclosing the application of Leon G. Nuffer to appropriate water, accompanied by your check for the \$5.25 filing fee.

We are sending you, under separate cover, some of the current forms used in filing an application for water permit, including Form 1 for surface water and Form 3 for filing on subterranean water.

We return Mr. Nuffer's application with the request that it be refiled on one of the current forms.

The maximum allowed by statute for irrigation purposes is one inch per acre, so on the 82 acres described the application could only be approved for 1.64 second feet.

We infer that the source of supply is from the Five Mile Creek and the source should be designated as from a stream rather than from a reservoir as the present application states unless your client is making an application for a storage permit, in which case Form 2 would be required, one of which is also enclosed.

Very truly yours,

MARK R. KULP
State Reclamation Engineer
