

1. This is same water as referred to in the decree.
2. W. Miles has withdrawn his filing in this spring and will take his water from springs to the south.
(There is more water there than he can beneficially use).
3. Water under the Med Ford-Hansen decree has been taken from only the N. spring as far as Pat's Hollow is concerned. The Flume to the one to the south has long ago gone.

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
6. Give general characteristics of soils, topography, and crops raised.

Some trouble is developing over this water.

Mr. Smith is attempting to develop a water right out of this spring and apparently blocks their ditch at times.

Smith stated that:-

1. Written permission was given in 1937 by Dick Turner.

2. Written permission was given by W. Miles the present owner of land on which spring is located.

3. Rulon Medford and Nels Roholt use this water by transmission thru the Medford ditch which has been so used for the past 52 years.

4. This water mingles with water from Sand Spring or Pat Hollow. 12 cfs to Medford 12 cfs to Roholt.

APPLICATION FOR PERMIT

To Appropriate the Public Waters of the State of Idaho

APPLICATION No. 28795
 PERMIT No. 21131
 DISTRICT No.

1. Name of Applicant: DAVID E. SMITH

Postoffice address: Grace

County: Caribou

State: Idaho

I. If applicant is a corporation, give:

- (a) Date and place of incorporation:
- (b) Amount of capital stock:
- (c) Amount paid in:
- (d) Names and addresses of directors:

II. The financial resources of the applicant are:

- (a) Cash on hand:
- (b) Treasury stock:
- (c) Bonds to be issued:
- (d) Other resources:

2. Quantity of water claimed: 110 inches or 2.2 cubic feet per second.

3. Source of water supply: A spring which is a tributary of

440 ft., thence East 720 ft.

4. Location of point of diversion: Corner SE $\frac{1}{4}$ NW $\frac{1}{4}$, thence North/ feet distant from the corner of Section 3, T.11 S, R.40 E., B.M., and is in the SE $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 3, T.11 S., R.40 E., B.M., County of Caribou

5. Water is to be used for Irrigation and domestic purposes.

6. If for mining, milling, power or manufacturing purposes, give:

(a) Point of use of water: feet distant from corner of Section T., R., B.M., in the of Section, T., R., B.M.

(b) Amount of power generated: H.P., under feet head.

(c) Water is to be returned to at a point feet distant from the corner of Section, T., R., B.M., in the of Section, T., R., B.M.

7. Estimated cost of works: \$200.00

8. Kind of works: Ditch

9. Height of dam feet; length of dam at top feet; length of dam at bottom

feet; material used in dam:

10. Size of headgate: Width feet; height feet.

11. Ditch: Width at bottom 3 feet; width at water line feet; depth of water feet;

dimensions of flume:

Diameter of pipe inches; length of conduit miles.

Average grade per mile 3 % feet.

12. The time required for the completion of such work is Ten days years.

13. The time required for the complete application of the water to the proposed use is additional years.

14. The land to be irrigated is described in the following tabulation: See remarks.

15. Existing water rights and/or valid permits appurtenant to the lands to be irrigated are:

16. (a) Is reservoir to be used? No If so, fill in (b) and (c) below:
 (b) Name of Reservoir and number of Storage Permit:
 (c) Date of filing of Application for Storage Permit and Name of Applicant:

BE IT KNOWN THAT The undersigned hereby makes application for permit to appropriate the public water of the State of Idaho as herein set forth.

NOTICE OF PROTEST APPLICATION OF WATER
TO BENEFICIAL USE

TO: State of Idaho, Department of Reclamation, Boise, Idaho

STATE OF IDAHO)
 : SS.
County of Caribou)

David E. Smith, the undersigned, being first duly sworn, on oath, deposes and says:

That he is a citizen of the United States of America, over the age of 21 years, a resident of Caribou County, Idaho, fully competent to make this affidavit.

That he is the owner and holder of State Department of Reclamation Water Permit No. 21131, which said permit is for the use of the waters of a certain unnamed spring, which said water is used on the following described lands, to-wit:

The SW $\frac{1}{4}$ NW $\frac{1}{4}$ and the NW $\frac{1}{4}$ SW $\frac{1}{4}$ of Sec. 3, Twp. 11 S.,
R. 40 E.B.M., in Caribou County, Idaho.

That he hereby protests against the granting of the Application of Water to Beneficial Use of Wesley A. Miles, which said Application is to be heard before F. J. Rasmussen, Notary Public on June 1, 1954 at 10:00 A.M., based upon Permit No. 21110.

That the reason affiant hereby protests against such application is that he believes that one of the "un-named springs" listed in said Application is that spring which has been used by affiant and is now being used by affiant under Permit No. 21131 of the Department of Reclamation of the State of Idaho.

Further your affiant sayeth not.

RE: Permit No 21110

Mr. David E. Smith
Grace
Idaho

Dear Mr. Smith:

We have your letter of May 19 in regard to proof to be made on Permit No. 21110 in the name of Wesley A. Miles for water from un-named springs which you think may possibly include the spring described in your Permit No. 21131.

Until a field inspection is made by an engineer from this department there is no way of determining whether these two permits include the same spring.

However, in order to have a record of your claim in the event that it is the same spring, you should make a formal protest as provided by statute stating clearly your claim and signing same before a Notary Public. This protest should be filed in this department prior to June 1, the date set for making proofs on Permit No. 21110.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

November 24, 1951

RE: Permit No. 21131

Mr. David E. Smith
Greene
Idaho

Dear Mr. Smith:

The report of our field engineer on examination for beneficial use under your Permit No. 21131, shows that you have irrigated 40 acres in the SW $\frac{1}{4}$ NW $\frac{1}{4}$, 39 acres in the NW $\frac{1}{4}$ SW $\frac{1}{4}$ Section 3, and 15 acres in the NE $\frac{1}{4}$ SE $\frac{1}{4}$, and 15 acres in the SE $\frac{1}{4}$ NE $\frac{1}{4}$ Section 4, Township 11 South, Range 40 East, B.M., or a total of 109 acres.

Since your decreed right includes 60 inches of water for the irrigation of this land, a license can be issued for an additional 49 inches (or .98 second foot) of water from an unnamed spring in the NE $\frac{1}{4}$ SW $\frac{1}{4}$ of said Section 3.

The statutory fee on this is \$8.00, being at the rate of \$2.00 for each 40 acre subdivision in which the land is located, and upon receipt of this amount, a license will be issued as above.

Very truly yours,

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO
REPORT OF ENGINEER

Permit No. 21131This proof is for Beneficial use

In Water District No.

1. Name of applicant. David E. Smith, Grace, Idaho
2. Source of water supply: An unnamed spring.
3. Location of point of diversion: Is in the SE $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 3
T. 11 S. R. 40 E. County of Caribou
4. Describe works as they exist, giving dimensions and capacities of same: A ditch of approximately 18 to 24" wide on the bottom and 3' at the top is constructed around a hill side from Sand Springs or Pat Hollow to the North that carries water from both Sand Springs and springs covered in this filing. Water is taken out of this ditch for Smith's place, for Rulan Medford and Nels Roholt. No works of any kind except ditches are necessary. The spring comes out through and under the lava from a bench to the East of Smith's place and flows rapidly down the side of the hill until it flows into the ditch.
(continued under remarks)
5. Water is used for: Irrigation and domestic purposes.
6. State whether or not water has been turned into works of diversion: Yes

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if other than irrigation):

SW $\frac{1}{4}$ NW $\frac{1}{4}$, NW $\frac{1}{4}$ SW $\frac{1}{4}$, Section 3; SE $\frac{1}{4}$ NE $\frac{1}{4}$ and NE $\frac{1}{4}$ SE $\frac{1}{4}$ Section 4; Township 11 South, Range 40 East, B.M.

Practically all the land - 100 acres - are irrigated.

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach? Bear River

Remarks:

From there, it flows through a system of ditches slightly slower, going both to the Northwest and Southwest, covering Smith's lands.

More water is flowing now than has been filed on. Due to repairs being done to the flume of the power plant, more water is being released for irrigation purposes and apparently this spring receives its water from irrigation being made on the bench above.

Smith stated that on ordinary years, there is nowhere near as much water as is flowing now.

This examination was made on the 23rd day of August, 19 50

(Signed) E. N. Humphrey Examiner.

3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
6. Give general characteristics of soils, topography, and crops raised.

Some trouble is developing over this water.

Mr Miller is attempting to develop a water right out of this spring and apparently blocks their ditch at times.

Smith stated that:-

1. Written permission was given in 1937 by Dick Turner.
2. Written permission was given by Mr. Miller the present owner of land on which spring is located

3. Rubin Medford and Nelson Roholt use this water by transference thru the Medford ditch which has been so used for the

past 52 years.
4. This water mingles with water from Sand Spring on Pat Hollow. 12.24 to Medford on Pat Hollow. 12.24 to Roholt.

CROSS COMPLAINT OF
CLAIMANTS ON SAND
SPRINGS (SOMETIMES
KNOWN AS PATS HOLLOW)

Defendants.
-----o-----

COME NOW LEONARD HANSEN AND LOUISE MEYERD and by way
of cross-complaint herein alleges:

I.

Adopt and incorporate as a part of their said answer
and cross complaint the terms, provisions and conditions of that
certain stipulation made and entered into by and between the
solicitors for the various defendants and solicitors for the
plaintiff herein, which said stipulation is on file herein.

II.

That said defendants and cross complainants are the
owners, respectively, in the possession and entitled to the
possession of the following described real property, situate in
Bannock County, Idaho, to-wit:

LEONARD HANSEN.

Lot one (1) Section four
Township eleven South,
Range forty East, B. B.
& M. and the Southeast
quarter of the Southeast
quarter Section thirty-
three, Township eleven
South, Range forty East,
B. B. & M.

21131

LOUISE MEDFORD

Lots Three, Four, Five
and Six in the Southeast
quarter of the Northwest
quarter and the Northeast
quarter of the Southwest
quarter of Section three,
Township Eleven South,
Range forty East, B. B. & M.

III.

That said defendant LEONARD HANSEN together with said
defendant LOUISE MEDFORD is the owner of the following appropri-
ations and of all rights acquired thereunder.

(a) That certain appropriation made on the 22nd day of May
1884 by the predecessors in interest of this cross complainant
and said Louise Medford, viz. Patrick McHarave for sixty (60)
inches per second of time of the waters of said Sand Springs,

(Sometimes known as Pata Hollow) a tributary of Bear River, with
point of diversion from said creek at a point near the head of
such springs and North eighty-seven (87) degrees 0 minutes East,
2060 feet from the quarter section corner on the east boundary
of Section four (4) Township eleven (11) South, Range forty (40)
East, B. B. & M.

Said appropriation was made by posting on said 22nd day of
May 1884 a notice in writing in a conspicuous place at the point
of diversion in said notice described; and said notice stated
among other things that said appropriator claimed for irrigation
purposes said amount of water in said notice set out to be used
for such purposes upon said lands heretofore described and other
contiguous lands and said notice further set out such other facts
as were required to be stated by the laws of the State of Idaho
then in force and effect for notices of appropriation. Within
a period of ten (10) days after the posting of said notice, same

was filed for record in the office of the County Recorder of what is now Benneek County, State of Idaho being the county in which were and are situated the points of diversion in said notice. Within sixty (60) days after the posting of said notice the predecessors in interest of the defendant herein as described in said notice of appropriation, commenced the excavation and construction of works thereunder by which they intended to divert the water so appropriated which work of construction was and ever since has been prosecuted diligently and uninterruptedly, except when temporarily interrupted by snow, rain or cold weather.

IV.

Said defendants directly and through their predecessors in interest on or about the year 1884 constructed a ditch known as the Medford-Hansen Ditch having point of diversion at the head of such springs, a tributary of Bear River in the Southeast quarter of the Northwest quarter of Section three (3) Township eleven (11) South, Range forty (40) East, B. B. & M., and conducted through said ditch eight hundred (800) inches of water to and upon the land hereinbefore described which said water thus conducted has been employed and used ever since said time and is now being used upon said land for irrigation, domestic and culinary purposes.

V.

That said water so appropriated, within the time allowed by the laws of the State of Idaho for putting such water to beneficial use was applied to beneficial uses, to-wit: irrigation, domestic and culinary and other uses during each irrigation season on said lands hereinbefore described or such part thereof as the said quantity of water sufficed to irrigate and such water and whole

Thereof is necessary for the successful cultivation and irrigation of the lands above described and other lands entitled to and susceptible of irrigation from said system of works.

WHEREFORE, The said defendants and cross-complainants pray:

- (1) That the plaintiff be granted to relief under its amended bill of complaint which impairs, conflicts with or prejudices the right of said defendants and cross-complainants to the waters so claimed by them.
- (2) That it be decreed that these defendants and cross-complainants are the owners and are entitled to the use of said waters so claimed by them and that their right in and to the use of said waters be established and quieted as against the claims of the plaintiff and all persons claiming by, through or under it and against all other persons whomsoever who are parties to this suit; and that the said plaintiff and all such other parties be enjoined and restrained from asserting any right in or to said waters in any manner adverse to these cross-complainants.
- (3) That said defendants and cross-complaints have such other relief in the premises as shall seem to be in accordance with equity and that they recover their costs herein.

J. H. PETERSON and H. A. BAKER

Attorneys for said defendants
and cross-complainants.

Re: Permit No. 21131

Mr. David E. Smith
Grace, Idaho

Dear Mr. Smith:

A complete check-up will be made regarding your problem and in connection with that, it will be necessary to make another inspection in order to verify the point of diversion of the water which was awarded in the Court Decree.

I hope to make that inspection rather early in the season. Will you please advise me as to when will be the best opportunity to get in there and make inspection? *Any time in the next 60 or 90 days.*

Does the snow get too deep to come in by car anytime during the next 60 or 90 days? *no, U.S. Mail - two milk routes + two school buses pass in house every day*

Can you show me the exact point at which the water came out of the ground under the Decree if there is snow on the ground? *yes*

Very truly yours,

Mr Mark R. Kuep State Reclamation
Engineer Boise Ida.

Dear Sir. Regarding your letter of
Nov 22, 1950. The license issued to
Louise Mesford May 1918 was a spring
to south of the one. I am filing on
it. It changed its course, and there
hasnt been water used from that spring
for several years.

The unnamed spring I am filing
on did not exist in 1918. it is just
one that has started since then.

If you were down here I could
show and explain to you, for better
than I can write & show you the
different springs.

The main thing is that I get
the water & amount I need for my land
and the license from the unnamed
spring. if there is ever that much water.

Yours Truly

David B. Smith

Re: Permit No. 21131

Mr. David E. Smith
Grace, Idaho

Dear Mr. Smith:

Before issuing a License under Permit No. 21131, a check has been made regarding the water rights for the lands listed in the above numbered Permit.

We find that a License was issued for 32 inches of water for the SW $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 3 and 30 inches of water for the NW $\frac{1}{4}$ SW $\frac{1}{4}$ Section 3, with a priority of May 9, 1918.

Even though this was issued to Louise Medford, it is still appurtenant to that land, and for that reason, unless there are other factors or information that have a bearing on the issuance of this License, it will be issued for only 47 inches, as that amount will give your land a maximum amount of water under the laws of this State.

If you have any comments to make regarding this, please let us hear from you in the near future.

Very truly yours,

MARK R. KULP

Mr. David E. Smith
Grace, Idaho

Dear Mr. Smith:

We have received your corrected depositions; also Affidavit of Publication in the Soda Springs Sun, submitted in Proof of Beneficial Use under Permit No. 21131.

Before final action is taken in the matter, the law requires that a field examination be made by an Engineer from this Department.

We are unable to say just when this examination will be made as this Department has but one Field Engineer who makes examinations all over the State.

However, Mr. Tolman, Field Engineer for this Department, will try and contact you at the time he makes the examination in order that you may arrange to show him over the grounds.

Very truly yours,

NOTICE OF PROOF APPLICA- TION OF WATER TO BENE- FICIAL USE

Notice is hereby given that at
11:00 a.m. on the 30th day of
September, 1949, at Grace, Coun-
ty of Caribou, State of Idaho,
before Melvin Whitehead, No-
tary Public, proof will be sub-
mitted of the application to
beneficial use of 2.2 cubic feet
per second of the waters of Un-
named Spring in accordance
with the terms and conditions
of Permit No. 21131 heretofore
issued by the Department of
Reclamation of the State of
Idaho.

The name and postoffice ad-
dress of the person or corpora-
tion holding said permit are
David E. Smith, Grace, Idaho.

The use to which said water
has been applied is irrigation
and domestic purposes.

The amount applied to bene-
ficial use is 110 inches, or 2.2
cubic feet per second.

The place where said water is
used SW $\frac{1}{4}$ NW $\frac{1}{4}$ and NW $\frac{1}{4}$
SW $\frac{1}{4}$ Section 3 and the SE $\frac{1}{4}$
NE $\frac{1}{4}$ and NE $\frac{1}{4}$ SE $\frac{1}{4}$ Section 4,
Twp 11, South, Range 40 East.

The name of the canal or
ditch or other works by which
said water is conducted to such
place of use is Medford ditch.

The right to take water from
such works is based upon Per-
mit No. 21131.

The source of supply from
which such water is diverted is
Unnamed Spring, located in the
SE $\frac{1}{4}$ NW $\frac{1}{4}$ Section 3, Twp. 11 S.,
Range 40 E.B.M.

The date of priority which
said user is prepared to establish
is June 23, 1949.

Permit No. 21131-----

Proof of Application of Water to Beneficial Use

Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. David E. Smith. Farmer, Grace, Idaho.

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. no.

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. 21131. June 23 1949.

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Unnamed spring, located in the SE $\frac{1}{4}$ NW $\frac{1}{4}$ Section 3 Twp. 11 S. Range 40 E. B.M.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use.

Ans. Medford ditch: 2.2 cubic feet per second.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

[illegible]

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. Domestic use.

21131

Ques. 8. What is the minimum amount of water required for the purpose specified above?
Ans. 2-2 Cubic feet per second.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.
Ans.

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.
Ans. Irrigation farm lands.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.
Ans. Irrigation.

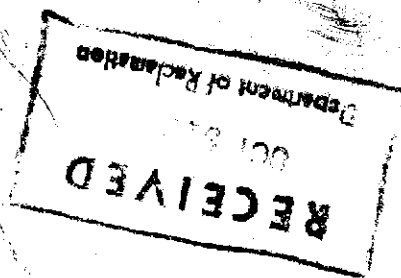

(Sign) David E. Smith

I hereby certify that the foregoing testimony was read to the above subscribed before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me, at my office in Grace, County of Caribou, State of Idaho, on this 28 day of October, A. D. 1949.

Proof of Application of Water to Beneficial Use

Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Eldon C Beus, age 32; Secretary A A A Caribou County/ Soda Springs Idaho.

Ques. 2. Are you acquainted with David E Smith, the holder of Permit No. 21131? How long have you known him and where does he reside?

Ans. 8 years.

Ques. 3. Have you read or heard read said Permit No. 21131, and are you familiar with its provisions and conditions?

Ans. yes

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Unnamed spring, ditch made to Medford Ditch.

Located in the SE $\frac{1}{4}$ NW $\frac{1}{4}$ Section 3 Twp 11 S. Range 40 E. B.M.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. 3 cubic feet.

Ques. 6. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Irrigation, Cultivated land located, SW $\frac{1}{4}$ NW $\frac{1}{4}$ & NW $\frac{1}{4}$ SW $\frac{1}{4}$ Section 3 and the SE $\frac{1}{4}$ NE $\frac{1}{4}$ and NE $\frac{1}{4}$ SE $\frac{1}{4}$ Section 4. twp. 11. South Range 40 East B.M.

21131

Ques. 7. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. Irrigation

Ques. 8. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. 2.2 cubic feet per second.

Ques. 9. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. none

Ques. 10. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. inspected.

October 31, 1949

Re: Permit No. 21131

Mr. David E. Smith
Grace, Idaho

Dear Mr. Smith:

We are sorry to have to return the depositions of yourself and two witnesses submitted in proof of beneficial use under your Permit No. 21131, for correction as follows:

1. In your own deposition, under Question 6, you describe the land on which the water is used as the SW $\frac{1}{4}$ NW $\frac{1}{4}$, SE $\frac{1}{4}$ NE $\frac{1}{4}$ and NE $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 4, Township 11 South, Range 40 East, B.M., whereas the Permit describes the SW $\frac{1}{4}$ NW $\frac{1}{4}$ and NW $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 3 and the SE $\frac{1}{4}$ NE $\frac{1}{4}$ and NE $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 4, same Township and Range.

If there has been a change in the place of use, it will require an Amendment and re-publication, but if this is a mistake in the deposition, it should be corrected. We think it must be an error, as your witnesses describe the land as given in the original Permit.

2. Neither of your witnesses describe the point of diversion as called for under Question 4, which should be given by subdivision, Section, Township and Range.

The Affidavit of Publication, which the Soda Springs Sun was instructed to send you is a necessary part of your proof. The clipping which you attached will not suffice and if you have not received the Affidavit from the newspaper, we suggest that you contact them at once in regard to the matter.

Very truly yours,

NOTICE OF PROOF APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that at 11:00 a.m. on the 30th day of September, 1949, at Grace, County of Caribou, State of Idaho, before Melvin Whitehead, Notary Public, proof will be submitted of the application to beneficial use of 2.2 cubic feet per second of the waters of Unnamed Spring in accordance with the terms and conditions of Permit No. 21131 heretofore issued by the Department of Reclamation of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are David E. Smith, Grace, Idaho.

The use to which said water has been applied is irrigation and domestic purposes.

The amount applied to beneficial use is 110 inches, or 2.2 cubic feet per second.

The place where said water is used SW $\frac{1}{4}$ NW $\frac{1}{4}$ and NW $\frac{1}{4}$ SW $\frac{1}{4}$ Section 3 and the SE $\frac{1}{4}$ NE $\frac{1}{4}$ and NE $\frac{1}{4}$ SE $\frac{1}{4}$ Section 4. Twp 11, South, Range 40 East.

The name of the canal or ditch or other works by which said water is conducted to such place of use is Medford ditch.

The right to take water from such works is based upon Permit No. 21131.

The source of supply from which such water is diverted is Unnamed Spring, located in the SE $\frac{1}{4}$ NW $\frac{1}{4}$ Section 3. Twp. 11 S., Range 40 E.B.M.

The date of priority which said user is prepared to establish is June 23, 1949.

Grace, Idaho

DEAR SIR:

I enclose herewith the following forms to be used in connection with proof of beneficial use of water under Permit No. 21131.....

DEPOSITION OF PERMIT HOLDER, DEPOSITIONS OF TWO WITNESSES.

In submitting this proof the following instructions should be CAREFULLY followed out, since failure to do so may result in the loss of rights:

1. On September 20, 1949....., the date set for proof, the enclosed forms (one for permit holder and one each for two disinterested witnesses) should be filled out and sworn to, at.....
Grace, Idaho..... before Melvin Whitehead, Notary Public.....

2. When the depositions have been taken they should be mailed to this office, together with affidavit of publication of notice.

When these have been received, together with report of the examining engineer, if everything is properly executed, you will be further advised as to fees due, etc., before certificate is issued.

Yours truly.

Boise, Idaho

Gentlemen:

This is acknowledgement of receipt of notice for publication (Re: Permit No. 21131) for applicant David E. Smith of Grace, Idaho, to be published once a week for four consecutive weeks prior to September 30, 1949.

We are placing the Department of Reclamation on our mailing list to receive all copies of The Sun indefinitely, in order that you may check it for all matters pertaining to your department. We hope this will be satisfactory.

Very truly yours

THE SODA SPRINGS SUN

Re: Permit No. 21131

Mr. David E. Smith
Greene, Idaho

Dear Mr. Smith:

We enclose Certificate of Completion of Works issued on your Permit No. 21131 for the diversion of 2.2 second feet of water from a spring in the SE $\frac{1}{4}$ NW $\frac{1}{4}$ Section 3, Township 11 South, Range 40 East, B.M. for irrigation and domestic use on the SW $\frac{1}{4}$ NW $\frac{1}{4}$, NW $\frac{1}{4}$ SW $\frac{1}{4}$ Section 3, SE $\frac{1}{4}$ NE $\frac{1}{4}$ and NE $\frac{1}{4}$ SE $\frac{1}{4}$ Section 4, same Township and Range.

We also enclose Departmental Receipt No. 21774 for the \$5.00 fee paid in connection with this proof.

We have sent to the Soda Springs Sun, Notice of Beneficial Use Proof to be made on this Permit on September 30, 1949, with instructions to publish once a week for four consecutive weeks prior to that date and to send you the Affidavit of Publication, together with statement of costs.

We shall send Mr. Melvin Whitehead, Notary Public, the necessary forms of deposition consisting of one for yourself and one for each of two witnesses and at the time set, you should appear before him together with two disinterested witnesses who are familiar with the terms of your Permit and the work done thereunder for the purpose of executing the depositions.

Very truly yours,

MARK R. KULP

NOTICE FOR PUBLICATION
NOTICE OF PROOF APPLICATION OF WATER
TO BENEFICIAL USE

Notice is hereby given that at 11:00 A. M. on the 30th day of September, 1949,
at Grace, County of Caribou, State of Idaho, before
Melvin Whitehead, Notary Public,
2.2, proof will be submitted of the
application to beneficial use of 110 inches cubic feet per second of the waters of Unnamed Spring
in accordance with the terms and conditions of Permit No. 21131
heretofore issued by the Department of Reclamation of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are

David E Smith, Grace Idaho.

The use to which said water has been applied is Irrigation and domestic purposes.

The amount applied to beneficial use is 110 inches, or 2.2 cubic feet per second.

The place where said water is used ~~(If for irrigation, give full and accurate description of the~~
SW $\frac{1}{4}$ NW $\frac{1}{4}$ and and NE $\frac{1}{4}$ SE $\frac{1}{4}$ South,
land irrigated) / NW $\frac{1}{4}$ SW $\frac{1}{4}$ Section 3 and the SE $\frac{1}{4}$ NE $\frac{1}{4}$ Section 4, Twp 11, Range 40 East.

The name of the canal or ditch or other works by which said water is conducted to such place of
use is Medford ditch.

The right to take water from such works is based upon Permit No. 21131

The source of supply from which such water is diverted is Unnamed Spring, located in the
SE $\frac{1}{4}$ NW $\frac{1}{4}$ Section 3, Twp. 11 S., Range 40 E., B.M.

The date of priority which said user is prepared to establish is June 23 1949.

MARK H. KUIP
State Reclamation Engineer.

Re: Permit No. 21131

Mr. David E. Smith
Grace, Idaho

Dear Mr. Smith:

We acknowledge receipt of your Affidavit in Proof of Completion of Works under Permit No. 21131, accompanied by the \$5.00 fee in connection therewith; also Notice of Proof of Beneficial Use to be made under this Permit on September 30.

However, none of these papers include as part of the land on which the water is used the SW $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 3, Township 11 South, Range 40 East, which is included in the original Permit; also the NE $\frac{1}{4}$ SE $\frac{1}{4}$ Section 4.

Please advise if this is an oversight or if that forty is to be omitted from the proofs. *Please make it like the original Permit*

Also, the Notice of Beneficial Use Proof should contain the name of the Notary Public at Grace, Idaho, before whom the proof will be made. Please advise promptly about this in order that the notice may reach the newspaper in time for the statutory four weeks publication. *The Notary Public is Dr. Melvin*

Very truly yours, *Whithead*

21131

NOTICE TO ACCOMPANY THIS LETTER MUST BE MADE IN DUPLICATE

(Date) August 24 1949.

(P. O.) Grace Idaho.

TO THE STATE RECLAMATION ENGINEER:

Boise, Idaho.

Dear Sir:

You are hereby authorized to have the attached notice published at my expense in the
Soda Springs Sun of Soda Springs Idaho. published in
the county in which the works are situated.

David E. Smith

(In case of canals or other works designed to divert and carry more than 50 cubic feet of water per second, the following certificate must be signed by a well-known and competent engineer.)

I hereby certify that the facts set forth in the attached notice are true.

Engineer.

21131

21131

July 22, 1949

Mr. David E. Smith
Grace, Idaho

Dear Mr. Smith:

Permits are issued by this office only for unappropriated public water, which means that under a permit, no right is given to take water that belongs to an earlier appropriator, no matter whether his earlier appropriation derives his right from decree, permit, or actual use. The use rights claimed can be confirmed only by the Courts.

Permits do not confer right of way or rights to use existing ditches or canals or interfere with their operation.

If agreement can not be reached between the users from a common source, or in a common canal, the relative rights of each can be fixed by the Courts either as to water rights, or ditch rights, or both.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

July 11, 1949

Re: Permit No. 21131

Mr. David E. Smith
Grace, Idaho

Dear Mr. Smith:

We enclose Permit No. 21131 and direct your attention to the limitations and conditions of same as given on the fourth page under approval of State Reclamation Engineer.

Since your applications states that the works will be completed within ten days, we have allowed three months or until October 5, 1949, to make the two statutory proofs necessary to complete the water right. These proofs, however, may be made at any time prior to that date.

The first proof of proof of completion of works is made by executing Form 6 enclosed before a Notary Public, and returning to this Department with a statutory fee of \$5.00, upon receipt and approval of which, a Certificate of Completion of works will be issued.

The final or beneficial use proof requires publication once a week in a county newspaper for four consecutive weeks prior to the date set for making proof. Notice should be made in duplicate on Form 10 enclosed, setting the time and place and naming the Notary Public before whom the proof is to be made. Both copies of the notice to be returned to this Department together with Form 11 which is your authorization for us to have the notice published in the designated newspaper at your expense.

We shall then send a copy of the notice to the newspaper with instructions in regard to publishing, and on the date set, you should appear before the Notary Public together with two disinterested witnesses to execute depositions of proof on forms furnished by this Department.

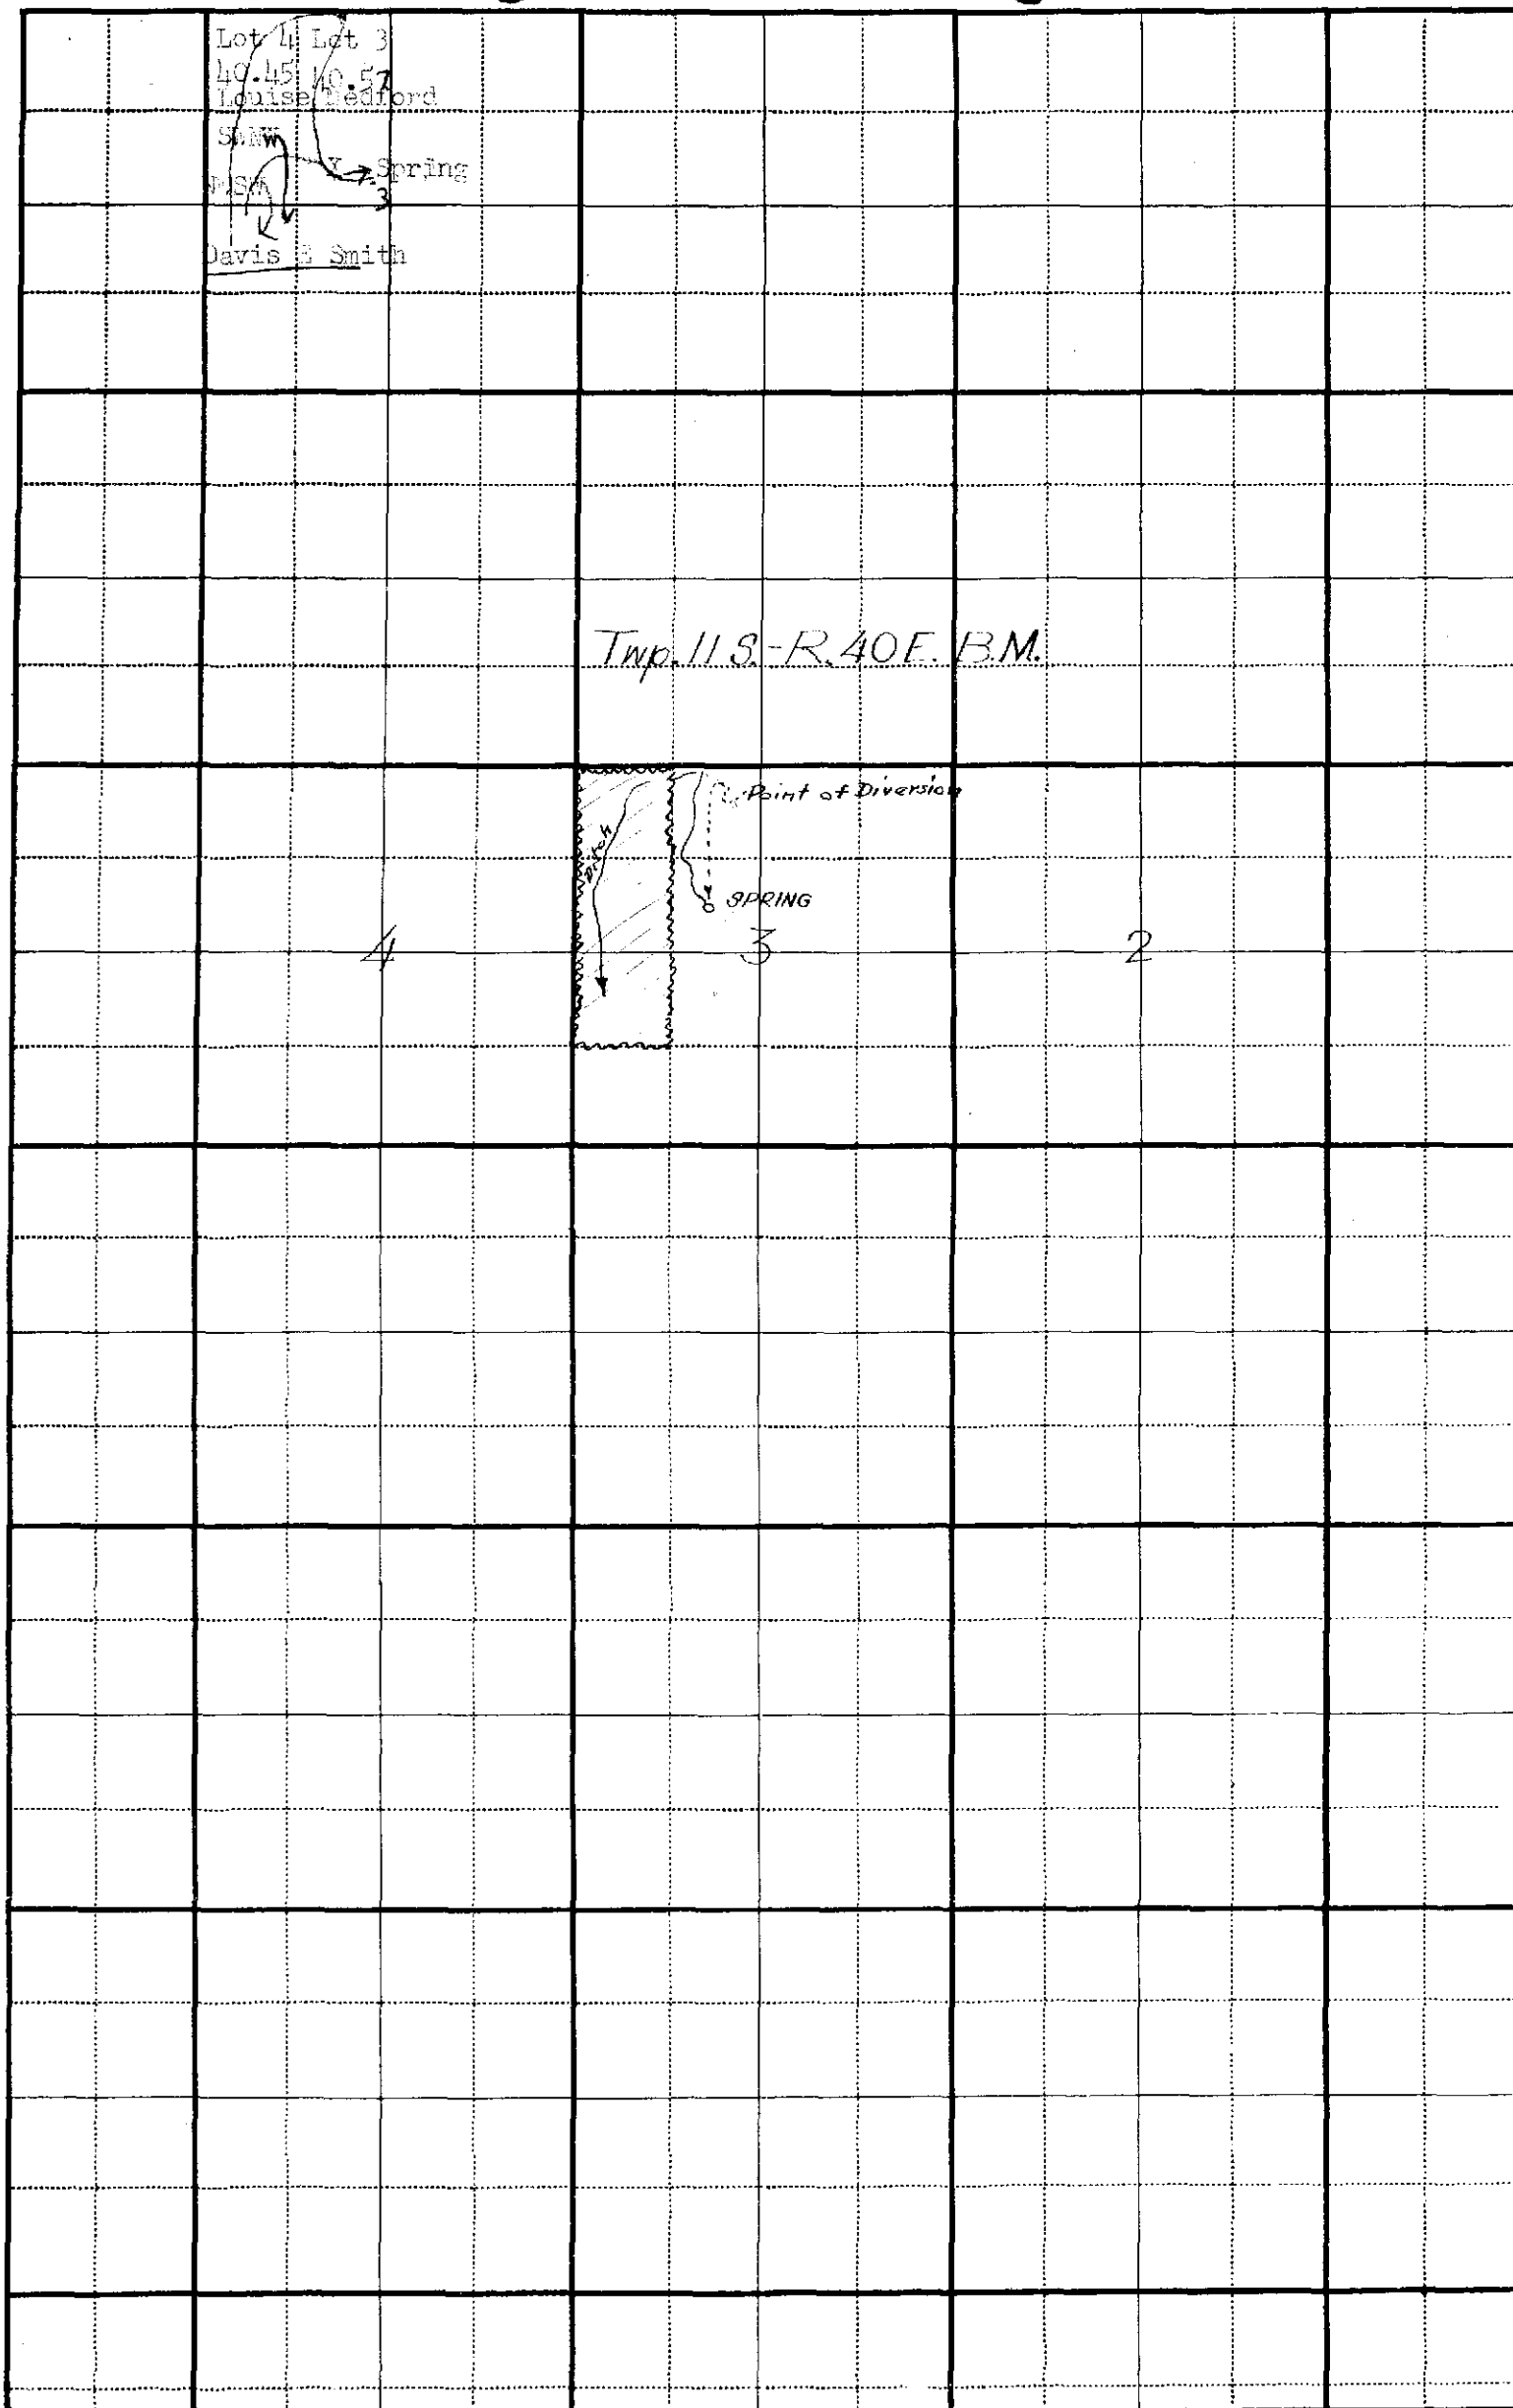

Very truly yours,

MARK R. KULP
State Reclamation Engineer

Mr. David E. Smith
Grace, Idaho

Dear Mr. Smith:

We acknowledge receipt of your application for Permit to appropriate 110 inches of water from a spring located on the $SE\frac{1}{4} NW\frac{1}{4}$ Section 3, Township 11 South, Range 40 East, B.M., accompanied by Affidavit of Permission from Wesley A. Miles to file on said spring which is located on his land.

However, Question 14 in this application describes the land as in the $NW\frac{1}{4} NW\frac{1}{4}$, $SW\frac{1}{4} NW\frac{1}{4}$ and $NW\frac{1}{4} SW\frac{1}{4}$ Section 3, Township 11 South, Range 40 East B.M., whereas your sketch map shows it in the $SW\frac{1}{4} NW\frac{1}{4}$, $NW\frac{1}{4} SW\frac{1}{4}$ Section 3, and 15 acres each in $SE\frac{1}{4} NE\frac{1}{4}$ and $NE\frac{1}{4} SE\frac{1}{4}$ Section 4, Township 11 South, Range 40 East B.M. Please advise which description is correct. *The underlined is correct.*

We are assuming that this application is to take the place of the application heretofore filed jointly by yourself and Mrs. Louise Medford, and if such is the case, we can apply thereon, the filing fee of \$5.50 which accompanied the original application. Please advise if that meets with your approval. *That is correct & needs my approval.*

21131

App 24758

June 16, 1949

Mrs. Louise Medford
Grace, Idaho

Dear Mrs. Medford:

Water rights may be acquired by actual appropriation and beneficial use, but can only be perfected and made a matter of record through an action in the District Court.

Generally, the Court will confirm a right of this kind if it does not conflict with existing or prior rights and has not been developed by the aid of a trespass or other illegal means. The priority generally confirmed by the Court would be the time when it was actually put to beneficial use. The amount allowed would be what was actually necessary and generally limited to one inch per acre.

This office can approve application for permits for one inch per acre with priority date of the date of receipt of application.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

June 9, 1949

Mr. Wesley Miles
Grace, Idaho

Dear Mr. Miles:

In reply to your letter of June 7, 1949, in regard to filings by Mrs. Louise Medford, our records show the following:

License No. 13216, for 1.41 cubic feet per second of water from Cedar Springs, with priority of March 9, 1918. Point of diversion in Lot 3 (or NE $\frac{1}{4}$ NW $\frac{1}{4}$) Section 3, Township 11 South, Range 40 East, B.M. for irrigation and domestic use on the W $\frac{1}{2}$ NW $\frac{1}{4}$ and NW $\frac{1}{4}$ SW $\frac{1}{4}$ of said Section 3.

An application has been filed by David E. Smith and Mrs. Louise Medford under date of May 21, 1949 for the diversion of 2.4 second feet of water from a spring located in the SE $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 3, Township 11 South, Range 40 East, B.M. for the irrigation of this same land. This application has been approved and Permit will issued in regular course.

Of course, we do not know if this is the spring you have in mind and we enclose, for your use, a form of application for permit, together with a pamphlet giving regulations and instructions in regard to filing same.

Mrs. Louise Medford
Box # 87
Grace, Idaho

Dear Mrs. Medford:

We acknowledge receipt of your application for permit to appropriate water from a spring for the irrigation of 120 acres of land in Section 3, Township 11 South, Range 40 East, B.M., accompanied by \$5.00 in currency.

Since the statutes allow a maximum of one inch per acre, this application can only be approved for 120 inches or 2.4 second feet. The correct filing fee on this amount is \$5.50, as indicated on the fourth page of the application.

The application is returned for completion as follows:

Answer questions 7 and 8, and such parts of 9, 10 and 11 as are applicable.

Answer questions 12 and 13, stating the length of time you will require for making the statutory proofs necessary to complete the water right. First, proof of completion of the works described in the application; and second, proof of beneficial use, when the land has been fully irrigated.

Answer question 15.

Furnish sketch maps in duplicate, forms for which were sent you in our letter of May 16th.

Dear Mrs. Medford:

Reference is made to the Application of yourself and David E. Smith to appropriate three (3) second feet of water from a spring.

The application states that the spring is located in the NE $\frac{1}{4}$ NW $\frac{1}{4}$ Section 3, Township 11 South, Range 40 East, B.M., but the little sketch which accompanied the application seems to indicate that the spring is located in the SE $\frac{1}{4}$ NW $\frac{1}{4}$ of this Section.

We enclose a sketch map, showing the location of the land and of the spring as shown on your own sketch. Please advise if this is correct, and if not, please indicate on the sketch, the exact location of the spring.

We return the fifty cents in stamps which you sent to complete the filing fee and request that you send this amount in cash or check, as the State Treasurer cannot accept stamps in payment.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

NOTICE OF PROOF APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that at 11:00 a.m. on the 30th day of September, 1949, at Grace, County of Caribou, State of Idaho, before Melvin Whithead Notary Public, proof will be submitted of the application to beneficial use of 2.2 cubic feet per second of the waters of Unnamed Spring in accordance with the terms and conditions of Permit No. 21131 heretofore issued by the Department of Reclamation of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are David E. Smith, Grace, Idaho.

The use to which said water has been applied is irrigation and domestic purposes.

The amount applied to beneficial use is 110 inches, or 2.2 cubic feet per second.

The place where said water is used SW $\frac{1}{4}$ NW $\frac{1}{4}$ and NW $\frac{1}{4}$ SW $\frac{1}{4}$ Section 3 and the SE $\frac{1}{4}$

NE $\frac{1}{4}$ and NE $\frac{1}{4}$ SE $\frac{1}{4}$ Section 4, Twp 11, South, Range 40 East.

The name of the canal or ditch or other works by which said water is conducted to such place of use is Medford ditch.

The right to take water from such works is based upon Permit No. 21131.

The source of supply from which such water is diverted is Unnamed Spring, located in the SE $\frac{1}{4}$ NW $\frac{1}{4}$ Section 3, Twp. 11 S., Range 40 E.B.M.

The date of priority which said user is prepared to establish is June 23, 1949.

MARK R. KULP,
State Reclamation Engineer.
