Mr. C. L. Swenson
Box No. 26
Preston, Idaho

Dear Mr. Swenson:

This will acknowledge receipt of notice in duplicate for publication in connection with proof of beneficial use, and also authorization to have the notice published in the Preston Citizen, at Preston, Idaho, all in connection with Permit No. 19387.

A copy of the notice has been sent to the newspaper with instructions to publish it once a week for four consecutive weeks prior to May 22nd, the date set for proof.

About ten days prior to this date, we shall send you depositions- one for the holder and one for each of two witnesses, so that you may have them in ample time for the proof.

On the date designated, Mr. Gamble should appear at your office, with two disinterested witnesses, who are familiar with the terms of the permit, and the works constructed thereunder, for the purpose of executing the depositions.

Meanwhile, the affidavit of completion of works, enclosed in our former letter, may be executed and returned to this office, with the statutory fee of \$5.00- upon receipt of which Certificate of Completion of works will be issued.

Very truly yours,

JAMES SPOFFORD

WATER RIGHT LICENSE

License of Water Right No. 13-2148 Priority March 9, 1943 Amount 0.25 cfs

THIS IS TO CERTIFY, that FLOYD J. JENSEN
of Preston, Idaho, has complied with the terms and conditions of Permit
No. 13-2148 issued pursuant to Application for Permit dated March 9, 1943,
and has submitted proof to the Department of Water Resources on May 22, 1943,
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 0.25 cfs of water from an unnamed drain,
tributary to Bear River, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume
<u>Irrigation</u>	from <u>April 1</u> to <u>November 1</u>	at <u>0.25</u> cfs and	<u>106.6</u> acre feet
	from _____ to _____	at _____ cfs and	_____
	from _____ to _____	at _____ cfs and	_____
(both dates inclusive)			

Subject, however, to the condition that no more than 0.25 cfs of water be diverted at any one time, and
that the amount of water so diverted and to which such right is entitled and confirmed is for the purpose
aforementioned and is limited to the amount which can actually be beneficially used and shall not exceed
106.6 acre feet per year, said waters to be diverted within the SW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 9, Twp. 16S,
Rge. 39E, B.M. in the County of Franklin

Dear Mr. Gamble,

A representative of this Department made an examination of the works covered by your Permit No. 13-2148 on June 29, 1978, and has found the following:

Amount of water that can be recognized as beneficially used under
Idaho law: 0.25 cfs Source: an unnamed drain

The maximum quantity diverted shall not exceed 106.6 acre feet
per year.

Point of diversion: SW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 9, Twp. 16S, Rge. 39E, B.M.

Beneficial use: Irrigation of 44 acres within the E $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 8, & 32
acres within the SW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 9, Twp. 16S, Rge. 39E.

Priority date established: March 9, 1943.

In order for the Department to issue the above license, it will be necessary for you to amend the permit to correspond with the findings of the field examiner. We are enclosing a partially completed amendment form for your use in this matter.

Please sign the amendment application and return it to this office along with a \$20.00 filing fee within 30 days in order that we might issue your license as set forth above. If you do not concur with these findings or have any questions, please contact us within the 30-day period.

Dear Mr. Jensen:

We have learned from other sources that you have recently acquired 80 acres of land from Frank J. Gamble. There is an old water right Permit No. 13-2148 still pending a field examination. Upon completion of the examination, a license will be issued for the amount of water you are actually putting to a beneficial use. The license will serve as prima facie evidence of a water right.

As this examination has been in our files for many years, we are looking forward to it's completion this coming irrigation season. The permit describes the irrigation of 80 acres of land in the E $\frac{1}{2}$ SE $\frac{1}{4}$, Sec. 8, Twp. 16S, Rge. 39E, B.M., Franklin County, using two (2) c.f.s. of water from an unnamed stream.

We would appreciate your cooperation in this matter greatly. If you have any questions, please contact me.

Very truly yours,

Attention- Mr. J. N. Larsen

Gentlemen:

Reference is made to your letter of May 16th, in regard to the above numbered permit in the name of Frank J. Gamble.

The records of this Department show that upon receiving Mr. Gamble's application for permit to appropriate the public waters of the State of Idaho, and before same was approved, the applicant was asked whether it was from a natural drain or a privately constructed drain, because according to the statutes this Department could not accept a filing on private water.

In reply it was stated that "the water desired to be filed on is from natural drain water. However, a ditch or open drain has been constructed to assist in the natural draining of the land, and it is from this ditch or open drain that the water is to be diverted."

When our Field Engineer makes his examination of this project, he will thoroughly investigate the conditions and report on same, and the matter will be given careful consideration by this Department before final action is taken.

Re: Frank J. Gamble

Dear Sir:

This will acknowledge receipt of yours of the 15th.
Inst. in answer to ours of the 11th. Inst.

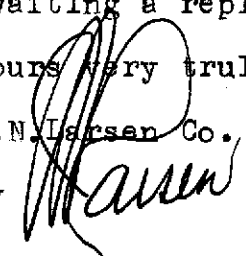

There is a peculiar condition about this application as Mr. Gamble knew at the time that he made his filing that the water he is filing on came from a drain ditch, which was built and paid for by Mrs J.W. Stoddard, Trustee for the heirs of R.M. Taylor, and that before she had the drains constructed she got the consent to drain certain lands, and placed her written consents from the owners of the land she drained on record, said written consents were procured Nov. 13, 1942, the one consent she received from the owner of the land upon which, was later sold by Thos. Thompson to Frank J. Gamble, Clyde J. Gamble, and Blain J. Gamble date of sale by contract was Feb. 23, 1943, and that Thomas Thompson is still the record owner, presumably this is the tract of land that Mr. Gamble basis his claim to take water out of the drain constructed by Mrs Stoddard, it must be remembered however that the drain continues through this land and through the neighbors land, which said drain drains, Mr. Gamble now he claims under the authority that he has received from you, that he has the right to cut this drain and apply to his use the waters from this drain which he has already done, and has thus deprived the rightfull owner of the drain water the use of the water which she has acquired by purchase and the cost of the constructing of the drain and is compelling the owner of the R.M. Taylor Estate to go into court to protect his rights, at the request of the owner we are advising you of these facts.

We think that you do not understand conditions, if you did we can not understand why you would entertain an application to appropriate the property of another without his consent.

Re J.N.Larsen letter of 5/16/44.

I re-examined conditions pertaining to Permit # 19387 upon the 5th. of May 1944 under the guidance of Mr.Larsen.

The drain water in question was being used upon the Stoddard land situated in the Ne $\frac{1}{4}$ of section 17 T16S--R39E.B.M.; where about 40 acres were in irrigated crop.

The estimated stream flow at this date was 20 Miners Inches. It would appear from Mr.Larsens showing, that this water should go to the Stoddard land; however if the matter is under temporary injunction, as Mr.Larsen states, it would appear that no further action can be taken by the Department until the Court has made a decision thereon.

Dear Mr. Swenson:

In reply to your letter of December 11th, 1943,
inquiring as to the present status of Permit No.
19387, in the name of Frank J. Gamble.

Proofs of completion of works and beneficial use
have been made as required, and certificate of
completion of works was issued on May 5, 1943.

When our Field Engineer examined the project some
time ago, the conditions were such that he felt he
could not make a complete report at that time.

For that reason it was thought best to defer final
action on this permit until a further examination
could be made next summer, when certain conditions
which he recommended to Mr. Gamble could have been
complied with.

We trust this is the information you desire, and that
the action taken will meet with your approval.

Dear Mr. Swenson:

We are in receipt of your letter of May 26th, enclosing corrected affidavit of publication from the Preston Citizen, in connection with beneficial use proof under the above numbered permit.

We are enclosing herewith Certificate of Completion of Works issued on this permit to appropriate Two (2) second feet of water from an unnamed stream (an open drain) in the SE $\frac{1}{4}$ Section 8, Township 16 South, Range 29 East, B. M., Franklin County, for irrigation purposes.

The depositions in connection with beneficial use proof have been placed on file, but before final action can be taken in this matter the law requires that a field examination be made by an engineer from this Department.

We are unable to say just when this examination will be made, since this Department has but one field engineer, who makes examinations all over the State.

However, Mr. Tolman, Field Engineer for this Department, will try and contact you or Mr. Gamble at the time he makes the examination, so that you may arrange to show him over the grounds.

Re: Permit No. 19387
Frank J. Gamble

Mr. C. L. Swenson
Preston, Idaho

Dear Mr. Swenson:

We acknowledge receipt of your letter of May 22nd, enclosing affidavit of Frank J. Gamble on completion of works under the above numbered permit, together with his check for \$5.00 in payment of the fee; and also enclosing depositions of the holder and two witnesses in connection with beneficial use proof, and the affidavit of publication from the Preston Citizen.

We are returning the affidavit of publication, however, as you will note that it names C. L. Greaves as the Notary Public before whom these proofs are to be made.

On April 23rd we received a clipping from the Preston Citizen, to which we replied on the same date, calling attention to this error, and requesting that correction be made in subsequent issues.

If this correction was made, the notice should have appeared with your name as Notary Public in the last two issues in which the notice appeared.

Please have the paper furnish you with an affidavit of publication showing the correct name of the Notary Public before whom the proofs were made. This is necessary to complete the proper record of the proof.

Certificate of Completion of Works will be issued and sent you within a few days.

Very truly yours,

JAMES SPOFFORD
State Reclamation Engineer

PROOF OF BENEFICIAL USE OF WATER

BOISE, IDAHO, May 12, 1943

Re: Permit No. 19387

Mr. C. L. Swenson,
Notary Public
Box 26- Preston, Idaho

DEAR SIR:

I enclose herewith the following forms to be used in connection with proof of beneficial use of water under Permit No. 19387, Frank J. Gamble

DEPOSITION OF PERMIT HOLDER,
DEPOSITIONS OF TWO WITNESSES.

In submitting this proof the following instructions should be CAREFULLY followed out, since failure to do so may result in the loss of rights:

1. On May 22, 1943, the date set for proof, the enclosed forms (one for permit holder and one each for two disinterested witnesses) should be filled out and sworn to, at Preston, Idaho before C. L. Swenson, Notary Public

2. When the depositions have been taken they should be mailed to this office, together with affidavit of publication of notice.

When these have been received, together with report of the examining engineer, if everything is properly executed, you will be further advised as to fees due, etc., before certificate is issued.

Yours truly,

Dear Mr. MacKnight:

We thank you for your letter of April 22nd, enclosing
copy of your issue of April 15th, containing notice of
beneficial use proof under the above numbered permit,
in the name of Frank J. Gamble.

We find two errors in this, namely:

1. The name of the Ministry before whom this proof is
to be made should be C. L. Swenson, and not C. L. Greaves,
as you will note by referring to the copy sent.

2. The State Reclamation Engineer's name is Spofford
and not Spoffard.

Please make these corrections in your subsequent issues.

Mr. C. L. Swenson
Box No. 26
Preston, Idaho

Dear Mr. Swenson:

We are enclosing herewith the above numbered permit, in the name of Frank J. Gamble. BE SURE AND NOTE THE LIABILITIES AND CONDITIONS OF SAME as given under approval of the State Reclamation Engineer on the fourth page.

The application calls for ninety days, within which to make the proofs required by the statutes in order to complete the water right, but we have allowed six months time, in order to be sure and have plenty of time within which to make these proofs.

Proof of Completion of Works is made by executing the enclosed Affidavit-Form No. 6- and returning to this office with the statutory fee of \$5.00; and upon its receipt and approval, Certificate of Completion of Works will be issued.

In order to make the beneficial use proof, or final proof, it is necessary to publish a notice of intention to make such proof for four consecutive weeks prior to the date set for proof, in some newspaper published in the county where the water is diverted.

Form No. 10 is to be filled out in duplicate, giving time and place for making the proof, and also naming the Notary Public before whom the proof will be made. Form No. 11 should also be filled out with the name of the newspaper in which you wish the notice to appear- said notice to be at the expense of the permit holder.

Both copies of Form No. 10, and Form No. 11, should be returned to this office, at least forty days before the date set for proof, so as to allow ample time for the four weeks publication.

Dear Mr. Gamble:

Your application for permit to appropriate two second feet of water from an open drain, together with your check for \$5.00, reached us this morning. It seems to have been mailed on February 24th, but was held up in the post-office on account of insufficient postage and we have just received it.

We are returning the application and check for the following corrections.

1. The point of diversion is described as 100 feet distant from the Southwest corner of Section 9, and in the Southeast quarter of Section 8; as shown on the map it is about 1100 feet East of the Southwest corner of Section 9, and in the SW $\frac{1}{4}$ SW $\frac{1}{4}$ of the same section. Either the description or the map must be in error.
2. The place of use is described as the SE $\frac{1}{4}$ SW $\frac{1}{4}$ and NE $\frac{1}{4}$ SE $\frac{1}{4}$ Section 8, which would be the subdivisions we have checked in red on the map. As these 40's do not join, we wonder if this is the correct description. The 40's to be irrigated should be cross-hatched or colored on the map.
3. Under Remarks please describe the open drain more fully. Is it a natural drain or a privately constructed drain? According to the statutes, this department is not allowed to accept a filing on private water. Therefore, this question should be answered fully.
4. The statutory fees for filing an application to appropriate water are \$5.00 for the first second foot, and 25 cents additional for each additional second foot. Therefore, the correct fee would be \$5.25.

Only one application is necessary, but two maps-- so we are only returning one, and upon return of this application, with the proper corrections, we shall file same with a number and starting date, and upon approval a permit will be issued.

We enclose a pamphlet giving rules and regulations in regard to the filing of applications for permits.
