January 26th 1932

Department of Reclamation,
Boise, Idaho,

Gentlemen: Re- John Schwartz Filing Matters

I am enclosing herewith papers for making proof
in the above matter.

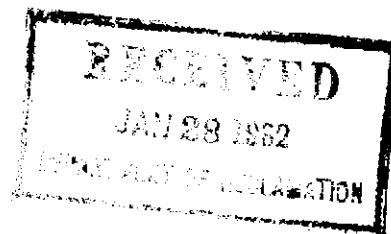

Mr. Schwartz had finished the works and proven to
his own satisfaction that it was successful before he made
his filing; that is during July 1931 he caused this well
to be put down at a cost of approximately \$1000.00 in-
cluding the equipment, and he used the water during a portion
of the irrigation season last year, so he is now prepared
to make final proof on the works, and I would suggest that
he be permitted to do this to avoid any unnecessary expense.

If this can be done let me hear from you on the
subject by return mail and I will communicate with Mr.
Schwartz. Thanking you in advance for this favor, I am,

Sincerely Yours

Arthur W. Hart

INSTRUCTIONS
PROOF OF COMPLETION OF WORKS

John Swartz
Dayton, Idaho

Boise, Idaho,

Dear Sir:—

Under the terms of your permit No.....**17546**.....you are required to complete your diversion works on or before.....**Feb. 27, 1932**..... I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

R. W. FARIS
Commissioner of Reclamation.

Department of Reclamation,
Boise, Idaho,

Gentlemen: John Swartz later filing

On August 6th I mailed to your office an application for filing on under ground water, or in other words for filing on water that had been secured by driving a well and contacting the under ground reservoir and pumping it to the surface. This filing was made for John ~~xxxx~~ Schwartz of Dayton, Franklin County, Idaho, and the filing was made for one cubic foot per second of time, but since that time Mr. Schwartz is desirous of increasing the supply to 2 cubic feet per second of time if it is permissable. I would be very please to hear from you on this matter at once, and if it can be that the application you have there be ammended to read so as to take in the additional amount it would be better.

Awaiting your prompt reply and thanking you in advance for this favor I am.

Sincerely yours

A. W. Hart, Justice of the Peace.

Permit No. 17546

Mr. A. H. Jensen,
Preston, Idaho

Dear Sir:-

Referring to your letter of the 2nd inst. would say that the amount of water could not be increased after an application has once been filed. Mr. Schwartz may file a new application for the full amount of water, two second feet, or he may file one for the other one second foot additional.

We are enclosing application blank in case he desires to make the new filing.
