Re: Permit No. 16934

Mr. V. R. Fisher,
Oxford, Idaho.

Dear Sir:-

Referring to your note received today would say that two proofs are required to be made under every permit. The first is for completion of the diversion works, upon which the certificate of completion of works issues. The second is for beneficial use of the water, and it was for this proof that notice was mailed to you in regular order.

The blanks sent you should be filled out and returned to this office, the date for making proof being set far enough ahead to allow for the required four weeks publication. Deposition blanks for holder and two witnesses will then be mailed to the officer designated by you in your notice to take the proof on the date set.

We are today mailing you, under separate cover, a copy of the last biennial report of this department, upon page E15 of which, and following, you will find the statutes covering the appropriation of water.

Very truly yours,
GEO. H. CARTER,
Commissioner of Reclamation.

Re: Permit No. 16934

Mr. V. E. Fisher,
Oxford, Idaho.

Dear Sir:-

Referring to your letter of the 4th inst., in which you enclose depositions for proof of completion of work for re-instatement of the above permit, together with \$5.00 bill for fees, would say that these forms should not have been used for proof under this permit inasmuch as the permit had not lapsed, proof of completion of work not being required until January 29, 1923. Your earlier permit, No. 16241, lapsed and was cancelled several months ago but your later permit, 16934, is still in good standing. The depositions are, therefore, herewith returned to you, together with the fee of \$5.00.

If you still desire to make proof of completion of work under Permit No. 16934, all that is required is your affidavit upon the enclosed form, No. 8, with the fee of \$5.00.

Your permit is also being returned to you as we have the record of same in this office.

Very truly yours,
GEO. F. CARRER,
Commissioner of Reclamation.
