Re: Permits Nos. 15929 & 15933
Preston-Whitney Irrigation Co.

MR. ARTHUR W. HART
Attorney at law
Preston, Idaho

Dear Sir:-

Referring to your letter of the 8th inst., enclosing notices for proof of beneficial use of water under the above numbered permits, would say that these have been completed as to the lands to be irrigated and one copy of each mailed to the Franklin County Citizen, at Preston, for the required four weeks publication prior to March 14, the date set for making proof.

The date of priority under each right has been brought down three months from the date of the filing, inasmuch as proof is being made three months later than specified in the permit.

Deposition blanks for holder and two witnesses will be mailed to you later, a set for each permit.

A separate letter is being mailed to you regarding the status of the other two permits now held by the Preston-Whitney Irrigation Company.

Very truly yours,
GEO. N. CARTER
Commissioner of Reclamation

By _____
Chief Clerk.

BY W. K. BARTON
Secretary.

Date of receipt at Office of Department of Reclamation October 22, 1929.

APPROVAL OF COMMISSIONER OF RECLAMATION.

I, Geo. N. Carter, Commissioner of Reclamation of the State of Idaho, hereby approve
the above and foregoing application for amendment to Permit to appropriate the Public Waters
of the State of Idaho, No. 15933. This approval constitutes a new permit and is issued as
an amendment to the original permit, to which it refers, and of which it becomes a part,
and said application is approved only insofar as the rights of others will not be adversely
affected thereby.

Re: PERMIT No. 15933
PERMIT No. R-364

PRESTON-WHITNEY IRRIGATION COMPANY
Preston
Idaho

Dear Sirs:

Attention: Mr. LARSON, Engineer

In examining the record in connection with the proof of beneficial use of PERMIT No. 15929 and PERMIT No. 15933 for the diversion of:

25 cubic feet per second from WORM CREEK
25 cubic feet per second from CUB CREEK

It is noted that the maps filed do not correspond with the conditions on the ground in the matter of canal locations.

I am enclosing a blue-print copy of the map; if possible, I would appreciate having canal alignments indicated approximately as constructed. It is not the requirement that extreme detail be shown but I feel that the deviation in this case is too great and correction should be made.

Also, in connection with PERMIT No. R-364: It is noted that amended plan and application for change in point of diversion were not made when the location of the dam was shifted upstream.

I am enclosing a blue-print of the reservoir site and dam detail and would appreciate having this change noted thereon, also, the drainage system which was installed at the west end of the dam.

I am, also, enclosing affidavit of change in point of diversion, which should be executed and filed.

Very truly yours,

Assistant Commissioner
of Reclamation

NOTICE FOR APPLICATION

Notice of Proof of Application of Water to Beneficial Use.

Notice is hereby given that at 11 a.m. on the 14th day of March, 1930, at Preston, County of Franklin, State of Idaho, before Arthur W. Hart, Notary Public, proof will be submitted of the application to beneficial use of 25 cubic feet per second of the waters of Cub River, in accordance with the terms and conditions of Permit No. 15933 heretofore issued by the Commissioner of Reclamation of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are Preston-Whitney Irrigation Company, Preston, Idaho.

The use to which said water has been applied is irrigation and domestic use.

The amount applied to beneficial use is 25 cubic feet per second.

The place where said water is used (if for irrigation, give full and accurate description of the lands irrigated): All Secs. 2, 3, 9 and 10; S $\frac{1}{2}$ NE $\frac{1}{4}$, S $\frac{1}{2}$ NW $\frac{1}{4}$, N $\frac{1}{2}$ SW $\frac{1}{4}$ and the SE $\frac{1}{4}$, Sec. 14; SE $\frac{1}{4}$ NE $\frac{1}{4}$, SW $\frac{1}{4}$ NE $\frac{1}{4}$, SE $\frac{1}{4}$ NW $\frac{1}{4}$, SE $\frac{1}{4}$ and SW $\frac{1}{4}$, Sec. 15; All Secs. 21, 22, 23, 26, 27, 28, 34 and 35, all in Twp. 15 S., R. 39 E. B. M.

The name of the canal or ditch or other works by which said water is conducted to such place of use are the canals of the Preston-Whitney Irrigation company.

The right to take water from such works is based upon Permit No. 15933.

The source of supply from which such water is diverted is Cub River.

The date of the priority which said user is prepared to establish is March 14th, 1924.

DEAR SIR:

I enclose herewith the following forms to be used in connection with proof of beneficial use of water under Permit No. 15933.

DEPOSITION OF PERMIT HOLDER, DEPOSITIONS OF TWO WITNESSES.

In submitting this proof the following instructions should be CAREFULLY followed out, since failure to do so may result in the loss of rights:

1. On March 14, 1930, the date set for proof, the enclosed forms (one for permit holder and one each for two disinterested witnesses) should be filled out and sworn to, at Preston before Arthur W. Hart, notary public.

2. When the depositions have been taken, they should be mailed to this office, together with affidavit of publication of notice.

When these have been received, together with report of the examining engineer, if everything is properly executed, you will be further advised as to fees due, etc., before certificate is issued.

Yours truly,

Dear Sir:-

Referring to your letter of the 8th inst., enclosing notices for proof of beneficial use of water under the above numbered permits, would say that these have been completed as to the lands to be irrigated and one copy of each mailed to the Franklin County Citizen, at Preston, for the required four weeks publication prior to March 14, the date set for making proof.

The date of priority under each right has been brought down three months from the date of the filing, inasmuch as proof is being made three months later than specified in the permit.

Deposition blanks for holder and two witnesses will be mailed to you later, a set for each permit.

A separate letter is being mailed to you regarding the status of the other two permits now held by the Preston-Whitney Irrigation Company.

Gentlemen:-

Re: Permits 15929----15933

In accordance with your favor of the 6th inst., I am enclosing herewith duplicate Letter of authorization and two notices for publication one for each of the above named permits.

I have taken the liberty to fill in the notices, excepting the description of the lands irrigated. The lands that have been irrigated are the identical lands described in each of said permits. Would you fill in these descriptions and forward to our news-paper here. OK

Yours truly,

ARTHUR W. HART

Myman
P.S. W.K. BARTON told me to-day that there are still out-standing other permits, the ones filed on by the Franklin Sugar Company, or some one on its behalf and later transferred to Preston-Whitney Irrigation Co. What is the status of these permits.

Yours truly,

Arthur W. Hart

RE: Permits 15929 - 15933

Mr. Arthur W. Hart
Prosecuting Attorney
Preston, Idaho

Dear Sir:

Referring to your letter of the 4th inst. would say that two permits were issued to the Cub River and Worm Creek Canal Company, to-wit:

Permit No. 15929, was issued December 17, 1923, for the diversion of 25 sec. ft. of the waters of Worm Creek. Proof of completion of works was made November 1, 1928, and the certificate of completion of works issued. Proof of beneficial use of water was due December 17, 1929.

Permit No. 15933, was issued December 17, 1923, for the diversion of 25 sec. ft. of the waters of Cub River. Proof of completion of works was made November 1, 1928, and the certificate of completion of works issued. Proof of beneficial use of water under this permit was due December 17, 1929. This proof, however, has not been made under either of these permits. Both permits were transferred to the Pragon-Whitney Irrigation Company, July 16, 1926.

If the holder of these permits desires to proceed with the proof of beneficial use of water at this time, the inclosed blank notices should be filled out and returned to this office in time for the required four weeks publication prior to the date set for making proof.

Under the provisions of Sec. 5579 of the Compiled Statutes, proof of beneficial use of water will be accepted when made at a date subsequent to the date specified in the permit but the date of priority will be brought down a length of time equal to the time lapsing between the date proof should have been made and the date proof is actually made.

RE: Permits Nos. 15929, 15933

W. K. Barton, Secretary
Preston-Whitney Irrigation Co.
Preston, Idaho

Dear Sir:

In checking the records of the above numbered permits preparatory to issuing certificates of completion of works, we find an error in the description of the lands to be irrigated. The records here show part of the land in township 15 south, and part in township 16 south, while in fact the land all lies in township 15 south, range 39 east, as shown on the map accompanying the application for permit.

To correct this discrepancy in the records, it will be necessary for you to file an application for amendment to these permits, stating that it was a typographical error in making out the applications for permit and that no actual change has been made in the lands to be irrigated. This application for amendment should be made upon the enclosed form.

As soon as the application referred to above has been received here the same will be approved and the certificates will then be issued in regular order.

Permit No. I5933**Proof of Completion of Works****DEPOSITION OF WITNESS**

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. Joseph Jensen, Farmer, Preston, Idaho

Ques. 2. Are you acquainted with Cub River & Wormcreek Canal Company, the holder of Permit No. I5933, authorizing the diversion of 25 second-feet of the waters of Cub River (Tributary of Bear River), at NW¹SE¹ 8-I5-4I for Irrigation purposes? How long have you known him, and where does he reside?

Ans. I have known the corporate officers for over twenty years, and have known Harry Stephenson--present director for twenty years

Ques. 3. Have you read or heard read said Permit No. I5933, and are you familiar with its terms and conditions? I have read said Permit I5933 and know its terms

Ans. and its conditions

Ques. 4. (If for irrigation purposes). Are you acquainted with the land proposed to be irrigated under said permit? If so, describe same, state its character, and give your estimate of the amount of water required for its profitable cultivation.

Ans. I am acquainted with all the said lands, which comprize what is alled the "Preston Flat" 84I₀ acres of cultivated fields of grain, alfalfa, beets, peas, potatoes and gardens; such lands require early and late water and require at least a cubic foot per second to each fifty acres

Ques. 5. Are the works of diversion fully completed and of sufficient capacity to convey the entire amount of water set out in the permit from point of diversion to place of use?

Ans. yes; the canal and works will carry said water and several times as much

Ques. 6. Describe the works of diversion as they now exist, and give your estimate of their capacity.

Ans. The present canal was enlarged to about three times the original carrying capacity so that the canal would hold about 150 second feet, it cost in the neighborhood of ten thousand dollars to make the enlargement. The intake is low so that it is unnecessary to put a dam across the river or stream; there is a head gate at the head of the canal to regulate the water that comes into it.

INSTRUCTIONS

PROOF OF COMPLETION OF WORKS

September 6, 1928

Boise, Idaho,

Cub River & Warm Cr. Canal Co.
C/o Arthur W. Hart
Preston, Idaho

DEAR SIR:

I enclose herewith blank form upon which to give notice that you are prepared and desire to submit proof of completion of works under your permit No. 15933.

This form should be filled out and mailed to the Department of Reclamation, at least 60 days before the date upon which proof is to be submitted, which proof MUST be on or before Dec. 17, 1928. Upon receipt of the blank properly filled out, notice for publication will be sent to the paper direct from this office, which notice must be published a period of four weeks prior to the date of proof.

The proof may be submitted at any place convenient to you and two witnesses, where there is a notary public or other officer authorized to administer oaths.

The certificate that shall be issued under this proof does not give you a perpetual right to the use of the water for which application is made, as it only confirms the completion of the works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Very truly yours,

GEO. N. CARTER

Commissioner of Reclamation.
