Dear Madam:-

Your notices for proof of beneficial use of water received. The amount of water has been changed to read 0.8 second feet, or 40 inches, inasmuch as only one forty was included in the land to be irrigated. The date of priority has also been changed to correspond with the date of the filing, July 28, 1922. One copy of this corrected notice will be mailed to the Grace Herald for the required four weeks publication prior to August 2nd, the date set for proof, and deposition blanks will be mailed to A. L. Bonnell, the notary public before whom proof is to be taken. Deposition blanks for the holder and two witnesses will be mailed.

Very truly yours,

GEO. N. CARTER,

Dear Sir

Your letter received. I am very much disappointed to ~~know~~ there was a mistake made in the land plot given

to be irrigated. I think Mr. Bonnell must have taken that from the Decree book as it is decreed therein. I think that must be why the mistake was made. We made proof on this spring once but as it was specified for one Party only and only 0.5 second feet of water. I refiled on the same spring in order to get the actual amount of water or about that. I filed under Mr. Swensen in person, on the 28 of July 1922. He advised and sanctioned the filling on 3.2 ^{second ft.} for 160 acres of land descriptions as follows

✓ The Northeast-quarter of Section Thirty-three in Township eleven South of Range Party East of the Boise Meridian in Idaho containing One hundred ~~sixty~~ acres.

I will have to make proof on this amount of water for the 160 acres described or there is absolutely no use in my making proof. As I all ready have a deed for the 0.5 for 40 acres or rather to be used on the 40 mentioned on deed. I hope you will have this fixed up satisfactory to us. Hoping to hear from you at an early date. Yours Very Truly Andrie M. Christensen
