RE: ^{Permit} License No. 14447

Franklin Cub River Pumping Co.
Franklin
Idaho

ATTENTION: Mr. Ray Morrison, President

Gentlemen:

Since returning to the office I have been trying to get the information you requested, and I am finding what appears to be some discrepancy in usage of names.

You said your company was the Franklin Cub River Pumping Co. and the watermaster's report lists it that way. But in the Cub River Decree there is no mention of the Pumping Company but does decree 5 cubic feet per second of 1882 right to the Franklin Cub River Canal Co.

Please let me know right away the relationship between the Franklin Cub River Canal Company and the Franklin Cub River Pumping Company. As soon as I get this information I can answer your query regarding your water rights in Cub River.

Yours truly,

Mr. Arthur W. Hart.
Attorney at law,
Preston, Idaho.

Dear Sir:--

Proof of completion of works and beneficial use of water under the above permit was made last August and the report of our engineer filed September 23, 1920. According to this report the works have a capacity of eleven second feet and there are twenty-six forty acre tracts under cultivation and irrigation. The fees will therefore amount to \$5.30 for completion of works and \$26.00 for beneficial use of water, making a total of \$31.30. Upon receipt of this amount, the certificate and license will be issued.

Very truly yours,

Re: Permit 14447.

Franklin Cub River Pumping Co.,
Franklin, Idaho.

Gentlemen:

For your information the e is attached hereto a statement of the status of permit No. 12938 issued to Ivan Woodward and Samuel J. Handy under priority date of April 12, 1917.

Under the provisions of this permit, work was to have been started on or before July 27, 1917 and one-fifth of the work was required to be completed on or before November 28, 1918. Completion of works is required on or before May 28, 1921.

This permit calls for 3 second foot of the waters of Cub River or a tributary thereof and is to be used for irrigation purposes.

There is nothing in the records of this Department to show whether or not the applicant has complied with the provisions of his permit regarding the commencement of the work and the doing of one-fifth.

Under the statutes if the work was not started within the time limit specified in the permit and if the one-fifth of the work was not performed within the required time, the permit would be subject to cancellation, providing a petition for such cancellation was filed by some other permit holder, and the contentions set up in his allegation were sustained.

Obviously an examination of the ground will be necessary before we can tell whether or not this permit is valid.

I may say that in passing, that the statutes do not make it possible for this office to take the initial steps to cancel a permit on the ground that the work was not commenced in time or on the ground that one-fifth was not performed in time. We can, however, take steps to cancel a permit where the proof of completion is not made on or before the required time.

Very truly yours,

WGS:MB

Commissioner of Reclamation.
