Dear Sir:-

On October 23 we wrote you relative to your notice of proof under the above permit but as yet have had no reply. In order that this notice may be published and the proof made without further delay, I will ask that you give us the name of some other paper printed in the county in which the land is located and set a new date for making the proof.

Hoping that you will give this your attention as soon as possible, I am,

Very truly yours,

Mr. Leslie Wright,
Thatcher, Idaho.

Dear Sir:-

On October 9th and ~~again~~ ^{again} on the 16th we wrote to the publisher of the Gem Valley Progress relative to the notice for publication for proof sent to him but have received no reply to our letters. We will ask you, therefore, to set another date for making the proof and designate another paper in which this notice can be published, unless you have seen the notice already published in the Gem Valley Progress. If the paper is still in existence, we are at a loss to understand why we cannot get a reply from the publisher relative to this notice.

Very truly yours,

INSTRUCTIONS
PROOF OF COMPLETION OF WORKS

Boise, Idaho,

April 4, 1921.

Leslie Wright
Thatcher, Idaho.

Dear Sir:—

Under the terms of your permit No. ~~14094~~ you are required to complete your diversion works on or before ~~July 5, 1921~~. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.
