In re: Permit: 13703

Joseph E. Martinsen,
Thatcher, Idaho.

Dear sir:

In checking over the proof of beneficial use of water under the above permit issued to yourself and William H. Crossley, I note that in the deposition of the holder as well as in the deposition of the witnesses that five acres of land is irrigated in the NW $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 29, Twp. 11 S. R. 40 E. B. M.; while the permit and the report of the examining engineer, this day received, describe the land to be irrigated as the SW $\frac{1}{4}$ NW $\frac{1}{4}$, SW $\frac{1}{4}$ NE $\frac{1}{4}$, SE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 29, Twp. 11 So. R. 40 E. B. M.

It is evident that in the proof the SW $\frac{1}{4}$ NW $\frac{1}{4}$, was described as the NW $\frac{1}{4}$ NE $\frac{1}{4}$, but in case the proof description is the correction it will be necessary for you to make application to amend the permit.

Kindly submit an affidavit to this office covering the above point if the description given in the proof is not correct.

Yours very truly,

W. G. Swendsen,

Instructions To Examiners

1. Examiners will not be permitted to examine any of the records in the office pertaining to this permit. They are to furnish a report of the facts and conditions as they exist, from their own observations and inquiries.
2. Always carefully note the location of the point of diversion, and accurately plat same.
3. Find out how many parties own rights in the ditch or canal and give their names and amount of right.
4. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
5. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
6. If any unusual conditions are discovered, make a plain statement of them under remarks.
7. Always see the holder, if possible, and go over the whole ground with him, and make your report only upon actual existing facts and conditions.

Re Permit 13703.

Mr. W. H. Mendenhall,
Thatcher, Idaho.

Dear Sir: --

Replying to yours of the 20th inst.
would say that we wrote Mr. Martinsen and Mr. Crossley
on February 4th, advising them that it would be nec-
essary to change the date for making proof to March 13th,
in order to allow time for the required four weeks pub-
lication of the notice. I herewith enclose deposit~~an~~
blanks to be used in making proof on that date.

Very truly yours,

Re Permit No. 13703.

Joe E. Martinson and
William E. Crossley,
Thatcher, Idaho.

Gentlemen:--

Replying to yours of the 1st inst. would say that notice of final proof was mailed to the Gem Valley Progress in due time for the required publication but, as we have received no reply from them, I take it the letter has been lost in the mails. I am, therefore, sending a new notice, setting March 13th as a new date for making proof, thus allowing for the required four week publication from next week's issue of the paper.

Very truly yours,

FRED A. WILKIE,

State Engineer.

INSTRUCTIONS
PROOF OF COMPLETION OF WORKS

Boise, Idaho,

Martinson & Crossley,

November 22, 1918.

Jos. E. Martinson,

Thatcher, Idaho.

Dear Sir:—

Under the terms of your permit No. **13703**-----, you are required to complete your diversion works on or before **Feb. 20, 1919**----- I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

FRED A. WILKIE,

State Engineer.
