THIS IS TO CERTIFY, that ALFRED SPATIG
of Preston, Idaho, has complied with the terms and conditions of Permit
No. 13-2078 issued pursuant to Application for Permit dated October 6, 1916,
and has submitted proof to the Department of Water Resources on April 30, 1917,
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 0.20 cfs of water from an unnamed spring & subwater
tributary to Cub River tile drain., and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume
Irrigation	from <u>April 1</u> to <u>November 1</u>	at <u>0.08</u> cfs and	<u>14</u> acre feet
	from _____ to _____	_____ cfs and	_____
	from _____ to _____	_____ cfs and	_____
(both dates inclusive)			

Subject, however, to the condition that no more than 0.08 cfs of water be diverted at any one time, and
that the amount of water so diverted and to which such right is entitled and confirmed for the purpose
aforementioned and is limited to the amount which can actually be beneficially used and shall not exceed
14 acre feet per year, said waters to be diverted within the NE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 13, Twp. 15S,

Condition:

Use of the water under this license is subject to control by the
watermaster of State Water District 13-A, Cub River.

NOTE: Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho
Code, or the applicable Idaho Law. This right may be forfeited by five years of non-use.

The right to the use of the water hereby confirmed is restricted and appurtenant to the lands or place of use
herein described, as provided by the laws of Idaho.

Dear Mr. Spatig,

A representative of this Department made an examination of the works covered by your Permit No. 13-2078 on May 11, 1978, and has found the following:

Amount of water that can be recognized as beneficially used under Idaho law: 0.08 cfs Source: an unnamed spring & subwater tile drain.
The maximum quantity diverted shall not exceed 14 acre feet per year.

Point of diversion: NE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 13, Twp. 15S, Rge. 40E, B.M.

Beneficial use: Irrigation of 4 acres within the NE $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 24, Twp. 15S, Rge. 40E.

Priority date established: October 6, 1916.

In order for the Department to issue the above license, it will be necessary for you to amend the permit to correspond with the findings of the field examiner. We are enclosing a partially completed amendment form for your use in this matter.

Please sign the amendment application and return it to this office along with a \$20.00 filing fee within 30 days in order that we might issue your license as set forth above. If you do not concur with these findings or have any questions, please contact us within the 30-day period.

SYSTEM DESCRIPTION:

Groundwater is collected by 2 buried tile drains and conveyed with water from an unnamed spring to the NE 1/4 Sec 13. The water then flows down a natural drainage and is redirected into a private ditch located N 1/2 NW 1/4 Sec 24. The area is flood irrigated.

REMARKS:

System shown & described by Alfred Spatz's son Warren.

Problem: Permit needs amending but the permit holder is deceased. Source of subwater for tile drains appears to be seepage loss from the Preston-Whitney canal.

Marvin Spatig was contacted by telephone Friday Jan 13, 1978. Both Alfred & his son Ernest have both passed away. Ernest's son Marvin now runs the farm. It was learned that the dam proposed on this permit was never built. However, Marvin claims the water is still used for irrigation. The completion of this exam will require a pygmy current meter measurement or an estimate of flow if there is not enough water to measure with the meter. There is no measuring device & the acres are flood irrigated. Irrigation will begin late May or early June. Marvin has been made aware of the importance of completing this exam.

Ans. Water comes from spring located in the NW $\frac{1}{4}$ of the SW $\frac{1}{4}$ of Sec. 12, Twp. 15 S., Range 40 E. B. M., and is impounded by reservoir and diverted from reservoir to land to be watered by means of an earthen ditch.

Ques. 5. How many second-feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. 25/100 of one second foot. I have seen ditch carry this amount.

Ques. 6. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Is used for irrigation of about 4 acres of the SE $\frac{1}{4}$ of the SE $\frac{1}{4}$ of Sec. 11, Twp. 15 S., Range 40 E. B. M. The land is cultivated.

Ques. 7. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. Is for irrigation.

Ques. 8. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Land reclaimed is a black loamy soil and will take about 25/100 of one second foot.12579

Ques. 9. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. Have no interest whatever.

Ques. 10. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I have seen applicant use water a number of times during the year 1916 on the above described land for irrigation. I have seen him use 25/100 of one cubic foot of water on said land for irrigation.

INSTRUCTIONS
PROOF OF COMPLETION OF WORKS

Alfred Spatig,
Preston, Idaho.

Boise, Idaho, **January 20, 1917.**

Dear Sir:—

Under the terms of your permit No. **12579**-----, you are required to complete your diversion works on or before **April 14, 1917**---. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

J. H. SMITH,

State Engineer.

Re Permit 9054.

Alfred Spatig ,
R. F. D. No. 1,
Preston, Idaho.

Sir:--

Am just in receipt of your affidavit and money order for fees for proof of completion of works under above permit. In regard to this proof would say that the same could not be accepted at this late date. The works should have been completed and proof submitted within the time specified in your permit, February 11, 1916. It will now be necessary for you to file a new application and obtain a new permit, and I herewith enclose blanks for same, with instructions.

Am herewith returning affidavit and money order.

Very truly yours,

J. H. SMITH,

State Engineer.
