TRANSFER NO. 4914
WATER RIGHT NO. 13-00974

CONDITIONS OF APPROVAL AND REMARKS

3. The change authorized by this transfer shall be accomplished within one (1) year of the date of this approval.
4. Failure to comply with the conditions of this transfer is cause for the director to issue an order to show cause why the approval of the transfer should not be rescinded.
5. Use of water under this water right will be regulated by the watermaster of State Water District No. 11, Bear River District, Idaho in conjunction with the equivalent authority for the second point of diversion located within Utah.
6. Upon a satisfactory showing by the watermaster of Water District No. 11, as determined by the department, that the rate of diversion from the authorized points of diversion cannot be properly controlled to insure there is no injury to other water users and that there is no enlargement in use of water under this transfer, the Director may rescind approval of this transfer.
7. Prior to diversion of water under this approval, the right holder shall provide a means of measurement and method of accounting acceptable to the Department from all authorized points of diversion which will allow determination of the total rate of diversion.
- * 8. The total instantaneous diversion of water from all points of diversion under Transfer No. 4914 shall not exceed 186.0 cfs, nor total combined annual volume of 51,912.0 af.
9. A second point of diversion is authorized within the NENW, Sec 3, T14N, R01W, Cache County, Utah S.L.B.&M.
10. Right No. 13-00974 is limited to the total combined irrigation of 14,832 acres within the place of use described above located in the state of Idaho and the place of use described below within the state of Utah.
11. The portion of the place of use located within Utah is described as follows: Sec 34 and 35, T15N, R01W; Sec 03, 04, 09, 10, 11, 15, 16, 21, 22, 23, 25, 26, 27, 28, 33, 34, 35 and 36, T14N, R01W; Sec 01, 02, 03, 10, 11, 12, 13, 14, 15, 16, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35 and 36, T13N, R01W; Sec 05, 06, 07, 08, 18, 19 and 30, T13N, R01E; Sec 01, 02, 03, 04, 11 and 12, T12N, R01W; S.L.B.&M.

A. PURPOSE OF TRANSFER

1. ☐ Change point of diversion ☒ Add diversion point(s) ☐ Change place of use
☐ Change nature of use ☐ Change period of use ☐ Other _____

2. Describe the reason for the proposed changes This additional diversion point will allow water to be pumped into the canal below a section of the canal that is very unstable. The total amount of water diverted should be less than at present because less water will be lost due to seepage. The river watermaster will make sure the combined diversions are within our decreed right, and accurate measuring devices will be constructed at the additional site.

All the foregoing reservations of jurisdiction shall extend after the term at which this decree is entered, and during any subsequent term prior to January 1, 1924, at which time, or at such earlier time as the court may determine these matters, this decree shall be closed. In all other respects this decree shall be final.

The court further retains jurisdiction, however, at all times, and from time to time, to make all reasonable rules touching the manner of diverting, measuring and distributing the waters, and the devices to be installed and used for such purposes where it may be impracticable to fully comply with the terms of this decree, and to direct that the parties keep accurate and detailed records of the amounts of water diverted, and to require reports to be filed from time to time of the amount so diverted, and generally to make such orders as may be found reasonably necessary to give effect to the decree, and to appoint commissioners or water masters to make distribution in accordance with its terms, and to punish the parties hereto, their officers, agents and employes, and their grantees and successors in interest, for any violation of the provisions thereof.

Done in open court this 14th day of July, 1920.

FRANK S. DIETRICH,
Judge.

Dear Mr. Larsen:

On December 12, 1996 I sent you a letter regarding the change application you have filed with the Idaho Department of Water Resources. The application seeks to move your point of diversion downstream which would place it in Utah instead of Idaho.

Since the writing of that letter, a concern has arisen in Utah concerning the proposed change. The particular section of the river where you would be moving your point of diversion is a gaining section. More water will be available at the proposed point of diversion than has been available at the current point of diversion. It is Utah's position that your company should be limited to divert only that amount of water that would be available at the current diversion location. We would hope this limitation would be included in any approval given to your company by the State of Idaho.

If this limitation is included in the approval and adhered to by your company, we see no problem with your company's proposal and would expect the Utah commissioner to cooperate with Idaho in the administration of the water right.

If you have any questions, please call.

Sincerely,

Robert L. Morgan, P.E.

MEMORANDUM

TO: FILE NO. 13-00974

FROM: PAM SKAGGS/STATE OFFICE

SUBJECT: TRANSFER NO. 4914

DATE: December 9, 1996

=====

Transfer No. 4914 was filed to add a second point of diversion under Right No. 13-00974 to be located in Utah to better serve lands located there. The proposed new point of diversion will reduce losses through an unstable portion of the canal system. The transfer was advertised in both Idaho and Utah in the affected vicinity under this right and no protests were received.

The application had not been signed or properly notarized by the applicant & was returned to correct the oversight prior to final recommendation for approval.

No watermaster comment was returned by the watermaster of Water District 11, Bear River when the file was forwarded to the State Office. I contacted Pete Peterson, watermaster, by telephone to discuss the transfer. He feels that with the second point of diversion in Utah, controlling the total diversion will be difficult at best. Cooperation in the past has not been reliable.

He has been working on a river model and new accounting program with Bill Ondrechen, Technical Section, and feels that this transfer will create difficulties without strong conditions and controls. He is concerned about receiving accurate diversion information from the Utah point of diversion for accurate accounting within the new program and recommends measuring devices and the possibility of placing both points of diversion under his direct control.

This decreed right describes a permissible place of use consisting of sections listed in both Idaho and Utah, but limited to the irrigation of 14,832 total acres. Season of use and diversion volume were adjusted to current standards.

Recommended conditions include irrigation overlap, measuring devices & total diversion limits, watermaster control & cooperation with designated Utah counterpart, permissible place of use limits, legal description of the point of diversion & place of use in Utah, right-of-way and standard transfer conditions.

Remarks:

Use of water under this water right will be regulated by the watermaster of State Water District No. 11, Bear River District, Idaho in conjunction with the equivalent authority for the second point of diversion located within Utah.

Upon a satisfactory showing by the watermaster of Water District No. 11, as determined by the department, that the rate of diversion from the authorized points of diversion cannot be properly controlled to insure there is no injury to other water users and that there is no enlargement in use of water under this transfer, the Director may rescind approval of this transfer.

Prior to diversion of water under this approval, the right holder shall provide a means of measurement and method of accounting acceptable to the Department from all authorized points of diversion which will allow determination of the total rate of diversion.

The total instantaneous diversion of water from all points of diversion under Transfer No. 4914 shall not exceed 186.0 cfs, nor total combined annual volume of 51,912.0 af.

A second point of diversion is authorized within the MENW, Sec 3, T14N, R01W, Cache County, Utah S.L.B.&M.

Right No. 13-00974 is limited to the total combined irrigation of 14,832 acres within the place of use described above located in the state of Idaho and the place of use described below within the state of Utah.

The portion of the place of use located within Utah is described as follows: Sec 34 and 35, T15N, R01W; Sec 03, 04, 09, 10, 11, 15, 16, 21, 22, 23, 25, 26, 27, 28, 33, 34, 35 and 36, T14N, R01W; Sec 01, 02, 03, 10, 11, 12, 13, 14, 15, 16, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35 and 36, T13N, R01W; Sec 05, 06, 07, 08, 18, 19 and 30, T13N, R01E; Sec 01, 02, 03, 04, 11 and 12, T12N, R01W; S.L.B.&M.

NOTICE OF PROPOSED CHANGE OF WATER RIGHT

Notice is hereby given that West Cache Irrigation Company, C/O Ed Cottle, 1207 S. 400 E., Trenton, UT 84338, has applied to the Department of Water Resources to change the point of diversion for a portion of a surface water source. The right sought to be changed is evidenced by a decree and recorded as follows:

DECREE NO: 13-00974

Source: Bear River

Amount: 186 cfs

Priority: 9/12/1899

Point of Diversion: SESW, Sec 25, T14S, R39E, Franklin County

The water is used for irrigation of 14,832 acres in 11 (eleven) different sections of T15S and T16S, R39EBM. Most of the irrigated lands, however, are in Utah.

TO BE CHANGED AS FOLLOWS:

The point of diversion will be added on the Bear River in Utah. The location is just north of Cornish, Utah in the NENW, Sec 3, T14N, R1W, Cache Co., Utah. This additional point of diversion will bring water into the canal below an unstable area and is intended to reduce losses due to seepage.

Anyone wishing to protest the above change must submit a written protest to the applicant at the above address and to the Department of Water Resources with a fee of \$25.00 on or before October 21, 1996.

RE: Notice of Application for Transfer 4914

Dear Applicant:

The Department of Water Resources acknowledges receipt of your water right application. This office is currently in the process of advertising the application in the THE PRESTON CITIZEN & LOGAN HERALD-JOURNAL on Oct 3 & 10, 1996. The advertisement will be published for two consecutive weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested, you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our State Office in about five weeks. State Office Personnel will conduct a complete review prior to final processing of the applications and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about twelve weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Sincerely,

Harold W. Jones

Norm has asked be to pass on a special request to you about advertising this transfer application.

Norm has been in contact with both Bob Morgan and Bob Farthingham (sp?) about this transfer. Both of them have agreed to recognize this Idaho water right with the addition of the point of diversion located in Utah. However, we need to publish notice of the transfer in both the Preston and Logan newspapers. Also, please send copies of the transfer to both of the above.
