Idaho 83241

Dear Mr. Gilbert:

This agency is ready to issue a decision on Application for Water Transfer Nos. 11-0548, 11-0551, 11-0553 by Merlin R. Smith, Application for Water Transfer Nos. 11-0549, 11-0054 by Don and Richard Gilbert and Application for Permit No. 13-7227 by Don W. Gilbert.

I anticipate that the decision will be appealed by either one or both of the parties. I know the expense that is involved in such action and I am concerned that every effort be made to reach a compromise solution. I feel that the differences which were identified in the hearing are such that an agreement could be reached between the parties privately. We will withhold issuing the decision until July 21. I strongly encourage you to discuss the possibility of a compromise solution between yourselves so that this situation might be resolved without additional court action. If, however, I have not been informed by both parties that progress is being made upon such an agreement, we will issue and enforce our decision.

Sincerely,

C. STEPHEN ALLRED
Director

The record of the hearing held in the matter of protests filed against applications for transfer No. 11-0599 and 11-0559 shows the protests were withdrawn under the stipulation that the points shown at which these rights are to be diverted have existed for many years and the purpose of these transfers is only to correct the rights shown in the Dietrich Decree.

Gentlemen:

Enclosed please find a copy of the protest filed by Lamont Jones, Attorney, in behalf of Merlin and Earlene Smith against the above referenced application. You should be aware that the following are the items we can consider at a conference and/or hearing in either approving or denying an application for transfer:

1. Are other water rights injured by the transfer?
2. Does the change constitute an enlargement in the use of the original right?

You will be notified at a later date as to the time and place set for conference and/or hearing to discuss the matters of protest. Legal counsel is not mandatory at any proceeding before the Department, although you may desire to employ an attorney in your behalf.

If we may be of any assistance, please contact us.

Gentlemen:

Enclosed please find two claims to a water right which we are resubmitting on behalf of Don W. Gilbert and Richard W. Gilbert on your updated forms. These claims were previously submitted on outdated forms at which time the filing fees were paid.

Also enclosed are two applications for permit which are resubmitting on behalf of Don W. Gilbert. These also have been previously submitted on outdated forms at which time the filing fees were paid. Please don't hesitate to contact me if any additional information is needed to aid you in processing these claims and applications.

Sometime ago your office requested some additional information in conjunction with applications for transfer of water right #11-0554 and #11-0549, to establish the applicant's ownership of the land to which the decreed water rights are appurtenant. In this regard I am enclosing a certified copy of the Contract of Sale of Real Estate and Warranty Deed, both of which are held in escrow at Idaho First National Bank, Soda Springs, Idaho, whereby the Gilberts are purchasing the land and appurtenant water rights. You will note that the Gilberts are acquiring a one/half interest in the water rights originally decreed to George and Mary E. Smith as #241 and #246 in the case of Utah Power & Light Company vs. Last Chance Canal Company, et al dated July 14, 1920. Mr. Hiram Wendall Smith and Adella M. Smith own the remaining one/half interest in the above decreed rights. The Gilberts presently lease the Hiram Wendall and Adella M. Smith property and appurtenant water rights, and as such have filed applications for transfer #11-0554 and #11-0549 as well as claims #13-4061 and #13-4062 (processed previously) on the full amount of the originally decreed rights to protect the interests of both Don W. and Richard W. Gilbert and Hiram Wendall and Adella Smith.

I recently discussed this matter with the Eastern Division Supervisor, Mr. Ronald D. Carlson, who advised me that it would be proper for the Gilberts to make these applications and claims on the full decreed right even though they only owned a one/half interest in that right, for the reason that the Gilberts were leasing from H. Wendell and Adella Smith the other half of the decreed right and the land to which it is appurtenant.

RE: Application for Transfer No. 11-0554 and 11-0549

Mr. Randall C. Budge
Attorney at Law
P.O. Box 833
Soda Springs, Idaho 83276

Dear Mr. Budge:

Enclosed please find the copy of the Contract of Sale of Real Estate submitted with the Don and Richard Gilbert transfers. We were unable to accept this document as proof of ownership for the decreed waters of George M. and Mary E. Smith on Densmore and Birch Creeks because it was not signed or notarized. Furthermore, this sales contract states the Gilbert's own "30 miner's inches of waters of Densmore Creek and 20 miner's inches of waters of Birch Creek," while the decreed water rights in question are for 60 miner's inches from Densmore Creek and 40 miner's inches from Birch Creek. If the Gilberts are purchasing a portion of the original rights, new applications for transfer will have to be submitted.

Therefore, we will delay processing of the applications until we receive proof of ownership for all of the two rights in question, or if the Gilberts are purchasing only a portion of the original rights please submit two new applications for transfer, completing Sections A, B and C, along with proof of ownership. Please note that the rate of application for the irrigation water as described in Section C should be equal to the original rate of application as described in Section A.

If you have any questions concerning this matter, please feel free to contact me.

Very truly yours,

RE: Applications for Transfers No. 11-0554 and 11-0549

Don W. and Richard W. Gilbert
Grace,
Idaho 83241

Gentlemen:

Enclosed you will find copies of the applications for transfer of water right concerning decreed rights on Densmore Creek and Birch Creek, received in this office on December 13, 1977. Also, enclosed are two other applications for transfer, partially completed in our office from the information you provided on the original documents.

These two applications are being forwarded to you as the original applications were submitted on outdated forms, and Item C-2a, describing the proposed and/or current place of use, on each application has to be completed. We could not accept the description provided on the original applications because it would constitute an expansion of each right. Therefore, in completing this portion of each transfer please indicate the section number and the number of acres in those 40-acre subdivisions to which the right will be appurtenant, making sure the total irrigated acreage does not exceed the figure penciled in on the right side. Both applicants will then need to sign the applications in the presence of a notary. Return the applications to this office along with a warranty deed or other legal document verifying proof of ownership for the two rights in question.

Since the original applications indicate 260 acres of irrigated land and only 100 acres can be covered by the decreed rights, it would be to your benefit to file a claim to water right for the remaining 160 acres, provided the land was irrigated prior to May 20, 1971. If this is not the case, then you should file an application for permit. A Department representative would be happy to assist you in this matter should you visit our office.

It has been a pleasure to assist you and if you have any questions concerning the completion of the applications for transfer of water right, please feel free to contact me.

Respectfully submitted,

Ernest M. Carlsen
