Attn: Mr. Dean R. Reynolds

Dear Mr. Reynolds:

Enclosed are the two above Transfer of Water Rights which I have signed.

As we discussed in Keith's office while I was in Boise about February 1; and as I discussed with Keith in Montpelier last week, the new point of diversion through a pipe line should have a means of measurement and a control so that only the amount of water they are entitled to will be diverted. This is especially true in light of the 1917 priority date of the two c.f.s. of Hansen's water, as we discussed. You will note that I have made this comment on the two forms.

Yours very truly,

SUBJECT: Lowell Elsmore Transfer & Ralph Hansen Transfer

Dear Mr. Stoker:

It is important that the Department of Reclamation have your comments concerning the following. Enclosed please find copies of two separate applications for transfer.

We request your review of each attachment as a separate transfer action and request that you submit answers to the following, concerning each attachment, as well as any other information of interest.

1. By changing the point of diversion, does the source change, or is the source found at both points of diversion? (Note the map)
2. Would the transfer interfere with or injure other rights?
3. Under "To be transferred to": Are the grounds now or have they previously been irrigated by the quantity decreed? Note: Attachment #1, Ralph Hansen Transfer, Water License #12112 - This transfer will not be approved as it expands the original right.
4. Are there duplicate points of diversion between Mr. Ralph Hansen's transfer and Mr. Lowell Elsmore's Transfer, or are they possibly different?

Your assistance is appreciated.

Very truly yours,

Dear Mr. McEldowney

We have reviewed the new application for transfer you sent me and asked me to complete any additional points that we feel may be appurtenant and have added additional attachment NO. 1, water License No. 12112 instead of entry 229 which belongs to another mans land.

We were aware that the court decree book does not have this particular water decreed under license No. 12112 due to an error in the decree but this water has been used on this particular land for the past fifty years and has never been contested.

We Sincerely hope this additional information will be sufficient to complete this application for transfer.
