Dear Mr. Young:

I am enclosing the signed copies of an application of transfer of water right, and an application for a permit for a reservoir along with the necessary fees to cover the cost of processing these applications.

I would appreciate it very much if you would review these applications carefully, and make any adjustments you feel appropriate based upon our recent conservation in your office a few days ago.

On the application for transfer I have included a land description of the original homestead entry survey #87, and a copy of the land patent #11-71-0116 which we received from the United States Forest Service. Also included is a camp development lay-out map showing the approximate location of troop sites, road ways, water lines, and proposed reservoir. Also included are the lower troop sites which will be included as a part of the irrigation program of H.E.S. #87.

I have attached a similar map on the application for permit, to show the camp lay out including the proposed reservoir. The detailed plans for the reservoir will be prepared under the direction of Wendell Smith, Consulting Engineer of Preston, Idaho.

I certainly appreciate the help you have given to us with this application. If additional information is needed, please call me collect.

Sincerely yours,
