Wayne Darlington
State Engineer

13 2002

NAME OF APPLICANT

Frank C. Christensen

535

Township-10 South

Range 41 East

State of Idaho
License and Certificate of Water Right

Water License No. 535

Amount 2 Sec. Ft.

Water District No.

Priority Nov. 13, 1931

THIS IS TO CERTIFY that FRANK C. CHRISTENSEN
of Grace, Idaho, made application for a permit to appropriate the
public waters of the State of Idaho, dated March 26, 1904; that Permit No. 535
was issued under said application; that Certificate of Completion of works, with a carrying capacity of
3 second feet, was issued thereunder on January 16, 1922, showing that said works
were completed on the 30th day of December, 1921; and that on the 4th
day of December, 1936,

FRANK C. CHRISTENSEN

of Grace, State of Idaho, made proof to the satisfaction of the
Commissioner of Reclamation of Idaho, of the right to use the waters of Springs
, a tributary of , for the purpose of irrigation and
domestic use, under Use Permit No. 535 of the State Engineer
and that said right to the use of said waters has been perfected in accordance with the laws of Idaho, and is
hereby confirmed by the Commissioner of Reclamation of Idaho and entered of record in Volume 7
of Licenses, at page 3885, on the 14th day of October, 1937;

The right hereby confirmed dates from November 13, 1931;

The Points of Diversion are located
in the SW $\frac{1}{4}$ NE $\frac{1}{4}$ Sec. 34, Tp. 10 S., R. 41 E., B. M. Bannock County.
SW $\frac{1}{4}$ SE $\frac{1}{4}$ 27

That the amount of water to which such right is entitled and hereby confirmed, for the purposes aforesaid,
is limited to an amount actually needed and beneficially used for said purposes, and shall not exceed 2
cubic feet per second.

Description and location of use:

Twp.	Range	Sec.	Forty-acre Tract	No. Acres Described in Permit	No. Acres Actually Irrigated
10 S	41 E	33	NW $\frac{1}{4}$ NE $\frac{1}{4}$	40	20
			SW $\frac{1}{4}$ NE $\frac{1}{4}$	40	35
			SE $\frac{1}{4}$ NW $\frac{1}{4}$	40	25
			NW $\frac{1}{4}$ SE $\frac{1}{4}$	40	<u>20</u>
			Total Number of Acres Irrigated		

The right to the use of the water aforesaid hereby confirmed is restricted to the lands or place of use
herein described, as provided by the laws of Idaho.

WITNESS the seal and signature of the Deputy
Commissioner of Reclamation, affixed at Boise, Idaho,
this 14th day of October, 1937.

PAUL L. HENRY 13 2002
Deputy Commissioner of Reclamation

(SEAL)

Record of Application

13-2002

46669 G&P STATESMAN PRINT

1. Name of applicant Frank C. ChristensenPostoffice address: P. O. Bench, IdahoCounty Bannock

I. If applicant is a corporation give

- (a) Date and place of incorporation
- (b) The amount of capital stock
- (c) The amount paid in
- (d) The names and addresses of directors

II. The financial resources of the applicant are:

- (a) Cash on hand
- (b) Treasury stock
- (c) Bonds to be issued
- (d) Other resources

2. The quantity of water claimed is three (3) cubic feet per second3. Source of water supply seven springs in Secs. 21, 28 and 33, T. 10 S., R. 41 E., Bannock County4. Location of point of diversion at said springs, as shown on accompanying plat

5. To be used for:

I. Irrigation and domestic use:

- (a) Number of acres to be irrigated one hundred and sixty acres
- (b) In the following legal subdivisions N. 1/2 of N. E. 1/4, N. E. 1/4 of N. W. 1/4 and N. W. 1/4 of S. E. 1/4 of Sec. 34, T. 10 S., R. 41 E., B. M.

II. Mining, power, manufacturing or transportation purposes:

- (a) To be used for
- (b) Amount, of power to be generated horse power
- (c) At what point
- (d) If water is to be returned to stream, ("yes" or "no")
- (e) If "yes" at what point

6. Estimated cost of works two hundred dollars

7. Description of works for diversion:

I. Kind of works (reservoir, dam, ditch, flume, pipes or otherwise) Ditches from springs to Main ditch, as described below

II. Dimensions of works:

- (a) Height of dam feet, length of dam at top feet
length of dam at bottom feet, material used in construction
(wood, earth, stone or concrete)
- (b) Capacity of reservoir acre feet.
- (c) size of headgate, width feet, height feet.
- (d) Main Ditch (flume or pipe) width at bottom 2 feet, width at water line 3 feet, depth of water 1 feet. Average grade per mile is 1.5 feet. Length of ditch is 2 miles, and it crosses the following quarter sections S. 1/2 of Sec. 21, N. W. 1/4 of Sec. 28, and E. 1/2 of Sec. 27, T. 10 S., R. 41 E.,
to N. W. 1/4 of N. E. 1/4 of Sec. 34, T. 10 S., R. 41 E., which is the point of intended use.

the State of Idaho. No. 731.

Permit No 534

~~Certificate of Completion of Works~~

To All Whom It May Concern,

This is to certify that Stephen K. Green of Small, County of Fremont, and State of Idaho, the holder of Permit No 534, issued upon Application No 731, bearing date of priority of March 19, 1904, authorizing the diversion of three and one fifth second-feet of the waters of Left Fork of Indian Creek, County of Fremont, State of Idaho, at a point supposed to be in the SW 1/4 of N. 8 1/4 of Section 28, T. 12 N., R. 34 E. B. M. (Unsurveyed), for irrigation and domestic purposes, has fully complied with the provisions of the laws of the State of Idaho relating to the proof of completion of the works of diversion set out and described in said Permit, that said works are adequate for diverting and conveying to the place of intended use three and one-fifth second-feet of water; and that the lands proposed to be irrigated by the use of said water are described as follows, to wit: Unserved United States Desert Land Entry No. 3571, Blackfoot Land Office District said entry containing 160 acres.

Witness my hand this twenty-fourth day of November A.D. 1906

Remarks:

AFFIDAVIT FOR CHANGE OF POINT OF DIVERSION
OF WATER RIGHT
Permit No. 535

STATE OF IDAHO,)
) ss.
County of Bannock.)
I, Frank C. Christensen, being first duly sworn, deposes and says: That his postoffice address is Grace, Idaho. That he is the owner of and using a certain water right, for 3 cubic feet per second of the water of Seven Springs, County of Bannock, State of Idaho, obtained by virtue of Permit to appropriate the public waters of the State of Idaho, No. 535, issued by the State Engineer, dated April 14, 1904, bearing date of priority of Nov. 13, 1931, for the purpose of irrigating the following described lands, situate, lying and being in Water District No. _____, in the County of Bannock and State of Idaho, to-wit: $\frac{1}{2}$ NE $\frac{1}{4}$, SE $\frac{1}{4}$ NW $\frac{1}{4}$, and NW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 33, T. 10 S., R. 41 E., B. M.; and is the person to whom such right was so issued; and that said waters are now diverted from said stream in: Point 1 SW $\frac{1}{4}$ of NW $\frac{1}{4}$ of Sec. 27, Twp. 10 S., Range 41 E., RM, and conducted to the above described lands through the ditch, as per map filed herewith and of this affidavit made a part;
That affiant desires to change the point of diversion of Point No. 1 of said waters from the point above described to a point located in SW $\frac{1}{4}$ of SW $\frac{1}{4}$ of Sec. 27, Twp. 10 S., Range 41 E., RM, and thereafter conduct same to the above described land through the ditch, as per map above referred to;
That his reasons for desiring to make such change are as follows: Applicant was in error in his descriptions at the time when the original application for permit was filed.
That no one will be injured by such change and that such change will be made at affiant's own risk.

FRANK C. CHRISTENSEN
Affiant.

Subscribed and sworn to before me this 21st day of September, 1937.

DEPARTMENT OF RECLAMATION

In the Matter of the Reinstatement
of Permit No. 535, under the pro-
visions of Section 5594, Compiled
Statutes of Idaho.

ORDER REINSTATING PERMIT 535.

WHEREAS, Permit No. 535 lapsed through failure of the holder to make proof of completion of the works of diversion within the time specified in the permit, to-wit: April 16, 1907; and,

WHEREAS, On the 21st day of November, 1921, notice to show cause why said permit should not be cancelled, under the provisions of Section 5594, Compiled Statutes of Idaho, was duly served on the holder of said permit; and,

WHEREAS, On the 30th day of December, 1921, the holder filed notice of appearance to offer proof to show that the works of diversion under said permit were fully completed within the time required; and,

WHEREAS, On the 30th day of December, 1921, depositions of the holder and two witnesses were received at the Department of Reclamation showing the said works of diversion were completed within the time required in the permit; and

WHEREAS, After examination of the said depositions, the Commissioner of Reclamation of the State of Idaho is fully satisfied that the works of diversion were completed, as required under the terms of said Permit No. 535, and that the holder has acted in good faith;

IT IS, THEREFORE, Hereby ordered that said Permit No. 535, be and the same is, hereby reinstated and that a certificate of completion of works be issued to the applicant herein.

IN WITNESS WHEREOF, I have hereunto set my hand and affixed the official seal of this department, at Boise, Idaho, this 16th day of January, 1922.

Re: License No. 535/13-2002

Mr. Stanley Christensen
Star Route
Grace, Idaho 83241

Dear Mr. Christensen:

We are enclosing a copy of Water License No. 535/13-2002. We cannot tell from your letter just exactly what you want researched. The Department does not have a normal research type operation available or abstract service. We would make an effort to assist you in this matter as time permits. We would need, however, a more specific statement as to what you require. You have asked for water rights within a two mile area. Do you mean from the same source, from surface water, ground water and etc. Anything else that you would require, we would request clarification on.

We also find that your letter indicates that you wish to be advised as to the cost of the copies. Is this to be supplied to you before the copies are submitted, or do you want the copies regardless of the cost? Our fees for photo copies are twenty cents for letter size, twenty five for legal and fifty cents for larger than legal size.

If we can assist you further, please contact us.

Very truly yours,

Donald W. McElowney
Appropriation Supervisor

June 17, 1971

Dear Sir:

If possible, I would like to get photostatic copies of water license no. 535 or copies of filings Frank Christensen in Caribou county formerly Bannock County. Along with this information I would like to gather all pertinent transactions associated with water license 535 or Frank Christensen.

If possible I would like to get photo copies of filings of water rights within a 2 mile radius of water license 535.

Would you send me procedures of filing for a water license or steps in filing for a new water license on a non-potable water source.

Please send the cost of such services. Thank you for your help in this matter.

Sincerely,

Stanley Christensen

RE: Permit No. 535

Mr. Gene Curtis, Fieldman
National Farm Loan Association
Preston, Idaho

Dear Mr. Curtis:

We have your letter of June 19 requesting a copy of Permit No. 535 issued to Frank C. Christensen.

The records of this department show that a License has been issued on this permit, which License shows the following:

Name: Frank C. Christensen
Amount: 2 cubic feet per second
Source: Springs
Points of Diversion: SW $\frac{1}{4}$ NE $\frac{1}{4}$ Section 34; SW $\frac{1}{4}$ SW $\frac{1}{4}$ Section 27; and NW $\frac{1}{4}$ SE $\frac{1}{4}$ Section 34, Township 10 South, Range 41 East B.M.
Place of Use: 100 acres in Section 33, Township 10 South, Range 41 East B.M.
Divided as Follows: 20 acres in the NW $\frac{1}{4}$ NE $\frac{1}{4}$, 35 acres in the SW $\frac{1}{4}$ NE $\frac{1}{4}$, 25 acres in the SE $\frac{1}{4}$ NW $\frac{1}{4}$, 20 acres in the NW $\frac{1}{4}$ SE $\frac{1}{4}$
Priority: November 13, 1931.

The records further show that this application was originally filed March 26, 1904 but proof of beneficial use was not made until December 4, 1936, which brings the priority down to November 13, 1931.

The above information may be all that you require but if you wish a copy of the License No. 535, we can make one for you and the fee will amount to \$1.00 or \$1.50 if you wish it certified.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

RECEIVED
JUN 21 1954
Department of Reclamation

Dear Sir:

If possible, will you please forward to us a copy of Permit #535, issued to Frank C. Christensen for the use of spring water arising in Sections 27 and 34, Township 10 South, Range 41 E. B. M., in Caribou County, Idaho?

We are taking an application for a loan on property of Mr. Card Christensen, who claims water for irrigation of approximately 70 acres from this permit. There appears to be some question as to the water arising under this permit and a copy of the permit I am sure would straighten the matter out for us.

Very truly yours,

Gene Curtis
Gene Curtis
Fieldman

GC:FBR

F. Rhoda
Page Two
June 22, 1938

You further ask in your letter what rights are given by the issuance of a license.

Section 41-214, Idaho Code Annotated, states:

"Such license shall be binding upon the state as to the right of such licensee to use the amount of water mentioned therein, and shall be prima facie evidence as to such right; and all rights to water confirmed under the provisions of this chapter, or by any decree of court, shall become appurtenant to, and shall pass with a conveyance of, the land for which the right of use is granted." * * *

This portion of this section means just what it says that the issuance of a license is prima facie evidence of a water right.

We trust that this information will be of some value to you.

Very truly yours,

R. W. FARIS,
Commissioner of Reclamation

Re: License Number 535

F. Rhoda
Land Bank Appraiser
Box 189
Pocatello, Idaho

Dear Sir:

We have your letter of June 20, 1938, in which you request information concerning the above numbered license. This license was issued to Frank C. Christensen, for two (2) cubic feet per second of the waters of Seven Springs, lying in the Southwest Quarter of the Northeast Quarter (SW₁NE₁), Section 34, the Southwest Quarter of the Southwest Quarter (SW₁SW₁), Section 27, and the Northwest Quarter of the Southeast Quarter (NW₁SE₁), Section 34, all in Township 10 South, Range 41 East, Boise Meridian. The date of priority is November 13, 1931, and the lands to be irrigated are as follows:

20 Acres in the Northwest Quarter of the Northeast Quarter (NW₁NE₁),
35 Acres in the Southwest Quarter of the Northeast Quarter (SW₁NE₁),
25 Acres in the Southeast Quarter of the Northwest Quarter (SE₁NW₁),
20 Acres in the Northwest Quarter of the Southeast Quarter (NW₁SE₁),
All in Section 33, Township 10 South, Range 41 East, for a total of 100 Acres.

The original filing was made in 1904, however Proof of Beneficial Use was a good many years late, hence the date of priority was set up to 1931.

You mention, in your letter, that the above numbered permit claims all of the water in Frank's Canyon, or Water Canyon, however, the license makes no mention of this fact, it merely states that this appropriation is of the waters of Seven Springs which is described above.

Re: Permit 535.

Mr. F. C. Christensen
Grace, Idaho

Dear Sir:

I am enclosing herewith your License and Certificate of Water Right issued under the provisions of Permit 535. I am also enclosing herewith your Affidavit for Change of Point of Diversion under one of the springs, as well as our Office Receipt in the sum of \$8.00, which you paid in connection with your beneficial use proof. This license now serves to complete the record.

There are two things concerning the license to which I wish to call your attention. In the first place, final proof was approximately twenty-seven years past due; consequently your priority date had to be advanced to November 15th, 1931, whereas had proof been made when it was due, your priority date would have been March 26, 1904.

The permit was originally issued for three second feet of water, and you obtained a Certificate of Completion of Works with a carrying capacity of this amount, but at the time when the field engineer of this department made his inspection of the lands which you were irrigating, he gave you credit for but one hundred acres. Your license therefore had to be limited to two second feet, since under the laws of this state one is entitled to the use of only one miners' inch per acre (1 second foot equals 50 miners' inches.)

I trust that this explanation will be sufficient to clarify these points to your satisfaction.

Very truly yours,

Deputy Commissioner of Reclamation

Re: Permit 535,
Frank C. Christensen.

Mr. F. E. Tydeman
Attorney at Law
Pocatello, Idaho

Dear Sir:

I am herewith enclosing an affidavit for the purpose of correcting the description of one of the points of diversion under Permit 535. You will note that this instrument is complete except for filling in the county and the affiant's signature before a Notary.

Will you kindly have Mr. Christensen return this affidavit to the Department with a fee in the amount of \$8.00. This fee is fixed by law at the rate of \$2.00 for each forty-acre subdivision or fraction thereof and is for the purpose of partially paying the cost of inspection of the lands.

Immediately upon receipt of the affidavit and the fee, a license will be issued to Mr. Christensen for 2 second feet of water.

Very truly yours,

Paul L. Henry
Deputy Commissioner of Reclamation

PLH:jl

Mr. R. W. Fairie

Boise Idaho

Dear Mr. Fairie:-

I have been waiting to hear from you in regards to water seed, permit 535, as we are anxious to get this settled, and the water line in shape for cold weather.

Mr. F. C. Nelson of Lava informed me quite while ago that you would send the seed with your approval but haven't heard from you as yet.

Hoping to hear from you soon
Frank C. Christensen
(At address Grace) Henry Idaho.

Permit 535-

August 12, 1937

F. E. TYDEMAN
Attorney-at-Law
Pocatello, Idaho

Dear Sir:

I have your letter of August 7, in which you request that you be advised as to how soon the Department will take action in the matter of the Proof of Beneficial Use, under Permit No. 535.

Mr. Fred Tolman, Field Engineer for this Department, has been out almost constantly since April and I am not advised as to whether or not he has yet made the required investigation in connection with this matter. However, he will be in the office in a few days and I shall then discuss the matter with him and try and get action within the next week or so, so that Mr. Christensen may obtain his license.

This matter, as you know, has been pending for several months and we too are anxious to dispose of it.

Yours very truly,

PAUL L. HENRY,
Deputy Commissioner

**STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE**

REPORT OF ENGINEER

PERMIT NO. 535

REPORT ON PROOF OF Beneficial Use

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO

535

REPORT OF ENGINEER

Permit No. 535

This proof is for Beneficial Use

In Water District No.

1. Name of applicant Frank C. Christensen
2. Source of water supply: Seven Springs
3. Location of point of diversion: Is in the SW $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 27; SW $\frac{1}{4}$ NE $\frac{1}{4}$ & NW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 34,
T. 10 S. R. 41 E. County of Bannock
4. Describe works as they exist, giving dimensions and capacities of same: Dirt dam 40 ft long x 4 ft high, 20 ft corrugated pipe 16" diam, Concrete reservoir 6' x 6' x 8' deep, 20 ft 10", 20 ft 8" & 1 mile of 6" steel pipe, flanged joints. About 2 miles of ditches
5. Water is used for: Irrigation & Domestic
6. State whether or not water has been turned into works of diversion: yes
7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if for other than irrigation): W $\frac{1}{2}$ NE $\frac{1}{4}$, SE $\frac{1}{4}$ NW $\frac{1}{4}$, & NW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 33, T. 10 S., R. 41 E., B. M.

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach? Bear River (in flood season)

Remarks: This system is now owned by a son of F.C. Christensen and the owners knowledge of spring locations etc. is limited

This examination was made on the 15th day of May, 1937

(Signed)

Fred H. Solomon

Examiner.

Permit No. 535

Examination for Beneficial Use

County Bannock

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
 2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
 3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
 4. If any unusual conditions are discovered, make a plain statement of them under remarks.
 5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.

Re: Permit No. 535
Frank C. Christensen

F. O. NELSON
Lava Hot Springs, Idaho

Dear Sir:

In reply to your letter of May 6th concerning the above permit, please be advised that Fred A. Tolman, Field Engineer of this department, will be in that section of the state the first part of next week and at that time will make the necessary field examination in connection with final proof. Mr. Tolman was in southeastern Idaho several weeks ago, but snow conditions would not permit an examination at that time.

You may be assured that as soon as he returns to the department, I shall secure his report and advise Mr. Christensen of the fee due in connection with the proof so that the license can be issued immediately upon its receipt.

Very truly yours

Deputy Commissioner of Reclamation

PLH/cj

RECEIVED

MAY 7 1937

Department of Reclamation

Lava Hot Springs, Idaho, May 6, 1937.

Robert S. Faris
Commissioner of Reclamation
Boise, Idaho

Dear Mr. Faris:

Re: License for water, Permit, 535.
Frank C. Christensen, Grace, Idaho.

Last fall Frank C. Christensen made final proof on water under permit No. 535. An inspection of the facts submitted was to be made by an engineer of your department before license could be issued. Mr. Christensen is very much inconvenienced by the delay. Anticipating the granting of the said license, a deal involving a small portion of the waters involved under the said permit is still pending and can not be closed until the license is issued.

Will you kindly write him a letter immediately, informing him when the inspection by your engineer will be made? It will greatly facilitate matters for him and for the group of families who are interested if this matter can be consummated without further delay.

Sincerely yours,

F.O. Nelson

January 11, 1937

Re: Permit 535,
Frank Christensen.

F. E. TYDEMAN
Attorney at Law
Pocatello, Idaho

Dear Mr. Tydeman:

In reply to your letter of recent date in regard to the above permit, I wish to inform you that the hearing to which you referred as having been held on December 4th at Lava Hot Springs consisted merely in taking of depositions for final proof under the above permit.

The depositions were taken and submitted to this office in proper form, and the matter of the issuance of the license is being held in abeyance awaiting a field examination, as required by law. It will probably be some time in the early summer before the Department's field engineer can make this inspection.

We are very sorry that this matter will have to be delayed for so long a time, but the examination could not possibly be made at the present time due to weather conditions, and furthermore, the Department's appropriations are so limited that examinations must be grouped so that one trip will take care of as many of them as possible. However, just as quickly as it has been made and we have the report, we shall advise the permit holder of the fees due so that the issuance of the license need not be delayed any longer than is necessary.

Very truly yours,

Chief Clerk & Office Engineer

Re: Permit No. 535

FRANK C. CHRISTENSEN
Grace, Idaho

Dear Sir:

This will acknowledge receipt of the deposition of the holder, depositions of two witnesses and the affidavit of proof of publication from the newspaper, all in connection with beneficial use proof under the above permit.

Before final action can be taken in this matter, the law requires that a field examination be made by an engineer from this department. We are unable to say just when this examination will be made since the department has but one field engineer who makes examinations all over the state.

However, Mr. Tolman, Field Engineer for this department, will contact you at the time set for examination so that you may show him over the grounds. After his report is on file in this office, you will be further notified as to fees due before the issuance of your license.

Very truly yours,

Chief Clerk & Office Engineer.

PROOF OF PUBLICATION RECEIVED

DEC 7 1936

Department of Reclamation

STATE OF IDAHO

COUNTY OF BANNOCK

SS

NOTICE FOR PUBLICATION

Notice of Proof Application of Water to Beneficial Use

Notice is hereby given that at 3:00 p. m. on the 4th day of December, 1936, at Lava Hot Springs, County of Bannock, State of Idaho, before M. J. Kaskiska, Notary Public, proof will be submitted of the application to beneficial use of three cubic feet per second of the waters of seven springs in accordance with the terms and conditions of Permit No. 535 heretofore issued by the State Engineer of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are Frank C. Christensen, Grace, Bannock County, Idaho.

The use to which said water has been applied is irrigation and domestic use.

The amount applied to beneficial use is three second feet.

The place where said water is used (if for irrigation, give full and accurate description of the lands irrigated): W $\frac{1}{2}$ NE $\frac{1}{4}$, SE $\frac{1}{4}$ NW $\frac{1}{4}$, NW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 33, Twp. 10 S., R. 41 E., B. M.

The name of the canal or ditch, other works by which said water is conducted to such place of use is: Private ditch and pipe line.

The right to take water from such works is based upon Permit No. 535.

The source of supply from which such water is diverted is seven unnamed springs.

The date of the priority which said user is prepared to establish is November 13, 1931.

R. W. FARIS,
Commissioner of Reclamation,
Mn12-19-26d3

I. A. Pilton being first duly sworn, deposes and says that he is the Foreman of The McCAMMON NEWS, a weekly newspaper published in McCAMMON, Bannock County, in the State of Idaho. That the Notice, a true copy of which is hereto attached was published in The McCAMMON NEWS for 4 consecutive weeks, first publication having been made on the 12 day of Nov- 1936, and the last publication having been made on the 3 day of Dec- 1936.

That said paper has been continuously and uninterruptedly published in said county during a period of seventy-eight consecutive weeks prior to the first publication of said notice or advertisement, and is a newspaper within the meaning of the laws of Idaho.

SUBSCRIBED and SWORN TO before me this 3 day of

Dec.

A. D. 1936

BOISE, IDAHO

PERMIT NO. 535

Proof of Application of Water to Beneficial Use

Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. George T. Allsop, 52 years, construction business Grace, Idaho

Ques. 2. Are you acquainted with Frank C. Christensen, the holder of Permit No. 535? How long have you known him and where does he reside?

Ans. Yes; 38 years. He resides Grace, Idaho.

Ques. 3. Have you read or heard read said Permit No. 535, and are you familiar with its provisions and conditions?

Ans. Only casually familiar with permit.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. From Springs in Water Canyon; Points of Diversion Water Canyon SW $\frac{1}{4}$ NW $\frac{1}{4}$ SEC 27 T 10 S.R. 41 E.B.M. and Franks Canyon SW $\frac{1}{4}$ NE $\frac{1}{4}$ Sec 34, T 10 S.R. 41 E.B.M. and NW $\frac{1}{4}$ SE $\frac{1}{4}$ sec. 34, T.10 S. R. 41 E.B.M.
It is conveyed through about a mile and a quarter of 6 inch pipe line with a concrete intake, and from there is carried through 1 $\frac{1}{2}$ inch pipe to the house a distance of about half a mile.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. About Three second feet .

Ques. 6. State for what purpose water is used and at what place. (If for irrigation, give each sub-division in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvement which have been made as a direct result of said use.

Ans. For Domestic purposes house and barn and for irrigation . About 160 acres irrigated, The ~~East~~ ^{West} Half of the NE $\frac{1}{4}$ and the NW $\frac{1}{4}$ SE $\frac{1}{4}$ and the SE $\frac{1}{4}$ NW $\frac{1}{4}$ SEC 33, T.10 S.R. 41 E.B.M. ~~except 10 acres ir-igated by the water from the Last Chance Canal Co.~~
The land is cultivated . Water is piped into the house and barn.

Ques. 7. If for power or other purposes than irrigation, state how water has been applied and to what extent

Ans. None

Ques. 8. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Top soil about to the depth of three feet is heavy loam Under strata is inclined to be gravelly. Would say three second feet of water would be necessary to irrigate this 160 Acres.

Ques. 9. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No

Ques. 10. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. Would state that this water has been used on the 160 Acres described for the past thirty years from personal observation.

(Signed) George T. Allsoph

I hereby certify that the foregoing testimony was read to the above subbscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me in Lava Hot Springs, County of Bannock, State of Idaho, on this day of December 4th, A. D. 1936

My commission expires Jan 10. 1940

BOISE, IDAHO

PERMIT NO. 535

Proof of Application of Water to Beneficial Use

Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Frank O. Nelson, 58 years, civil engineer, Lava Hot Springs, Idaho.

Ques. 2. Are you acquainted with Frank C. Christensen, the holder of Permit No. 535? How long have you known him and where does he reside?

Ans. Yes. 50 years. He resides at Grace, Idaho.

Ques. 3. Have you read or heard read said Permit No. 535, and are you familiar with its provisions and conditions?

Ans. Yes.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Source from Seven springs; 4 springs diverted in SW $\frac{1}{4}$ NW $\frac{1}{4}$, Sec 27, T10 S. R.4. E.B.M.; Three springs one in SW $\frac{1}{4}$ NE $\frac{1}{4}$, Sec 34, T10 S. R.41 E.B.M. other two in NW $\frac{1}{4}$ SE $\frac{1}{4}$ Sec. 34 T.10 S. R.41 E.B.M.; Water from 4 springs in Sec 27 are conveyed in concrete reservoir, 6000 feet of six inch pipe, 3500 feet of 1 $\frac{1}{2}$ in. pipe. Springs in Sec 34, water conveyed in 2 in, one inch and 3/4 inch pipe about 7000 feet.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. Three second feet of water has been conveyed to my knowledge. The six in. pipe will convey 4 second feet.

Ques. 6. State for what purpose water is used and at what place. (If for irrigation, give each sub-division in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvement which have been made as a direct result of said use.

Ans. For irrigation and culinary purposes. Irrigates W $\frac{1}{2}$ NE $\frac{1}{4}$, and NE $\frac{1}{4}$ NW $\frac{1}{4}$ and SE $\frac{1}{4}$ of NW $\frac{1}{4}$ Sec 33 T. 10 S. R. 41. E.B.M. containing 160 Acres all said land is irrigated by above mentioned water except about 10 acres, irrigated from the least Chancee Canal Co.. Land is cultivated. Water is used for culinary and domestic purposes in the House, barn and feed lots.

Ques. 7. If for power or other purposes than irrigation, state how water has been applied and to what extent

Ans. None other than described.

Ques. 8. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Disintegrated lava soil mixed with mountain soil, which evidently originated from limestone. "equires not less than three second feet. required.

Ques. 9. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. None.

Ques. 10. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. First time I saw it used in 1910 and since, each of the past three summers have seen not less than three second feet. in June and a little more than one second foot in September.

(Signed)

Frank Nelson

I hereby certify that the foregoing testimony was read to the above subbscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me in ava Hot Springs, County of Bannock, State of Idaho, on this day of Fourth December 4th, A. Proof of Application of Water to Beneficial Use

Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. Frank C. Christensen, Grace, Idaho. Farming

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. XXXXX XXX

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. Number 535. November, 13, 1931 Date of permit ~~uncertain - about June 1934~~ App 16, 1904
Nov. 13, 1931 date of priority.

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Seven springs, Water Canyon, South west quarter of Northwest Quarter
of Section twenty seven Township Ten South, Range 41, E.B.M.
Frank's Canyon- SW 1/4 NE 1/4 Sec 34, T.10 S. R. 41 E.B.M.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use.

Ans. By pipe line 6000 feet of six inch and 3500 feet of 1 1/2 inch pipe, from a reservoir
eight feet deep and seven feet square, conveying from three second feet to five
second feet; called Water Canyon pipe line and Franks Canyon pipe line which last
line is piped through 6000 feet of 2 inch to 3/4 inch pipe.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water used for irrigating and culinary purposes. Irrigated the west half of the
North east quarter of Sec 33 T.10 S. R. 41 E.B.M. and NW 1/4 SE 1/4 and SE 1/4 NW 1/4 Sec 33
T.10 S. R. 41 E.B.M. containing 160 Acres. less about 30 acres waste in each of
the four forties. Land is cultivated Water is piped into the house and barn
with cistern located on hill about 700 feet from house.

Ques. 7. If for other than for irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. none except for culinary purposes as stated in answer to question 6.

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. requires the full three second feet of water to irrigate

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. Water has been in constant use by myself since 1887

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. Used from about May 20th to October 20th of each year, by ditches on the 160 acres previously described to the extent of three second feet as long as the flow lasts.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. None other than the water described in this permit. except 9 acres in the south west corner of the Southwest Quarter of the North East Quarter of Section 33, T.10 R.41 E.B.M. which nine acres are watered from the Last Chance Canal Company. represented by 75 shares of water

A deferred day service at rates lower than the standard telegram rates as follows: One and one-half times the standard night letter rate for the transmission of 50 words or less and one-fifth of the initial rates for each additional 10 words or less.

SPECIAL TERMS APPLYING TO DAY LETTERS:

In further consideration of the reduced rate for this special Day Letter service, the following special terms in addition to those enumerated above are hereby agreed to:

A. Day Letters may be forwarded by the Telegraph Company as a deferred service and the transmission and delivery of such Day Letters is, in all respects, subordinate to the priority of transmission and delivery of regular telegrams.

B. This Day Letter is received subject to the express understanding and agreement that the Company does not undertake that a Day Letter shall be delivered on the day of its date absolutely, and at all events; but that the Company's obligation in this respect is subject to the condition that there shall remain sufficient time for the transmission and delivery of such Day Letter on the day of its date during regular office hours, subject to the priority of the transmission of regular telegrams under the conditions named above.

No employee of the Company is authorized to vary the foregoing.

NIGHT LETTERS

Accepted up to 2:00 A.M. for delivery on the morning of the ensuing business day, at rates still lower than standard night message rates, as follows: The stand-

ard telegram rate for 10 words shall be charged for the transmission of 50 words or less, and one-fifth of such standard telegram rate for 10 words shall be charged for each additional 10 words or less.

SPECIAL TERMS APPLYING TO NIGHT LETTERS:

In further consideration of the reduced rates for this special Night Letter service, the following special terms in addition to those enumerated above are hereby agreed to:

Night Letters may at the option of the Telegraph Company be mailed at destination to the addressees, and the Company shall be deemed to have discharged its obligation in such cases with respect to delivery by mailing such Night Letters at destination, postage prepaid.

No employee of the Company is authorized to vary the foregoing.

FULL RATE CABLES

An expedited service throughout. Code language permitted.

DEFERRED HALF-RATE CABLES

Half-rate messages are subject to being deferred in favor of full rate messages for not exceeding 24 hours. Must be in language of country of origin or of destination, or in French. This class of service is in effect with most European countries and with various other countries throughout the world. Full particulars supplied on application at any Western Union Office.

CABLE LETTERS

For plain-language communications. The language of the country of destination may be employed, if the Cable Letter service is in operation to that country. Subject to delivery at the convenience of the Company within 24 hours if telegraphic delivery is selected. Delivery by mail beyond London will be made if a full mailing address is given and the words "Post London" are written after the destination. Rate is approximately one-third of the full rate; minimum 20 words.

WEEK-END LETTERS

Similar to Cable Letters except that they are accepted up to midnight Saturday for delivery Monday morning, if telegraphic delivery is selected. Rate is approximately one-quarter of the full rate; minimum 20 words.

CLASS OF SERVICE

This is a full-rate Telegram or Cablegram unless its deferred character is indicated by a suitable symbol above or preceding the address.

DEPARTMENT OF RECLAMATION

In the Matter of the Reinstatement)
of Permit No. 535, under the pro-)
visions of Section 5594, Compiled) ORDER REINSTATING PERMIT 535.
Statutes of Idaho.)

WHEREAS, Permit No. 535 lapsed through failure of the holder to make proof of completion of the works of diversion within the time specified in the permit, to-wit: April 16, 1907; and,

WHEREAS, On the 21st day of November, 1921, notice to show cause why said permit should not be cancelled, under the provisions of Section 5594, Compiled Statutes of Idaho, was duly served on the holder of said permit; and,

WHEREAS, On the 30th day of December, 1921, the holder filed notice of appearance to offer proof to show that the works of diversion under said permit were fully completed within the time required; and,

WHEREAS, On the 30th day of December, 1921, depositions of the holder and two witnesses were received at the Department of Reclamation showing the said works of diversion were completed within the time required in the permit; and

WHEREAS, After examination of the said depositions, the Commissioner of Reclamation of the State of Idaho is fully satisfied that the works of diversion were completed, as required under the terms of said Permit No. 535, and that the holder has acted in good faith:

IT IS THEREFORE, Hereby ordered that said Permit No. 535 be, and the same is, hereby reinstated, and that a certificate of completion of works be issued to the applicant herein.

IN WITNESS WHEREOF, I have hereunto set my hand and affixed the official seal of this Department, at Boise, Idaho, this 16th day of January, 1922.

Department of Reclamation

Boise, Idaho.

In regards to Permit No 535 held for cancellation by your off
will say that I have affidavit and map prepared but have been unable to
get Mr. Frank C. Christensen to sign as he is away from home for a few day
Will you please extend time five days.

Yours truly,

Fred C. Olsen

Dec. 14, 1921

Mr. Fred C. Olsen,
Grace, Idaho.

Dear sir:-

We are in receipt of your communication in regard to Permit No. 535, held by Mr. F. C. Christiansen. In regard to this we wrote at some length to the firm of Matthews & Kerr explaining to them the status of the permit in August of this year. If you could get in touch with them at Soda Springs it would save a great deal of duplication of work in this office. At that time we quoted a letter which was received in this office at a time several years back, and which will give you all of the information required for your use.

Very truly yours,

W. G. SWENDSEN,

Commissioner of Reclamation

By

Grace, Idaho. December 13, 1921.

Boise, Idaho.

Gentlemen:

I have before me a notification from the Department of Reclamation to Frank C. Christensen in regard to permit No. 535, that the proof of completion of works have not been complied with.

I also have before me receipt No. 740 for five dollars received of Frank C. Christensen on account of Proof of Completion of Works and signed by Jas Stephenson Jr., State Engineer, and dated June 24, 1907.

It would seem that Mr. Christensen made proof. Will you kindly inform me wherein the proof is faulty and I will ^{make} ~~make~~ the necessary corrections.

Yours truly,

Fred E. Olsen
Notary Public of Grace, Idaho.

*Matthew + 1600

INSTRUCTIONS

PROOF OF BENEFICIAL USE OF WATER

BOISE, IDAHO,
November 24, 1936

Re: Permit No. 535

M. J. KASISKA
Notary Public
Lava Hot Springs, Idaho

DEAR SIR:

I enclose herewith the following forms to be used in connection with proof of beneficial use of water under Permit No. 535

DEPOSITION OF PERMIT HOLDER,
DEPOSITIONS OF TWO WITNESSES.

In submitting this proof the following instructions should be CAREFULLY followed out, since failure to do so may result in the loss of rights:

1. On December 4, 1936, the date set for proof, the enclosed forms (one for permit holder and one each for two disinterested witnesses) should be filled out and sworn to, at Lava Hot Springs before M. J. Kasiska, Notary Public

2. When the depositions have been taken they should be mailed to this office, together with affidavit of publication of notice.

When these have been received, together with report of the examining engineer, if everything is properly executed, you will be further advised as to fees due, etc., before certificate is issued.

Yours truly.

R. W. PARIS

Commissioner of Reclamation.

November 3, 1936

Re: Permit No. 535

FRANK C. CHRISTENSEN
Grace, Idaho

Dear Mr. Christensen:

This will acknowledge receipt of notice in duplicate for publication in connection with beneficial use proof, and also your authorization to have the notice published in the Grace Herald, Grace, Idaho, all in connection with Permit No. 535. You will note that the date for proof has been advanced one week, to December 4th, in order that there may be sufficient time for four weekly publications before this proof is offered.

A copy of the notice has been mailed to the newspaper with instructions to publish it once a week for four consecutive weeks prior to December 4, 1936. About ten days prior to this date, depositions consisting of one for the holder and one each for two witnesses, will be mailed to H. J. Kasiaka, Notary Public, Lava Hot Springs, Idaho, so that he will have them in ample time for the proof.

On the date designated, you should appear at Mr. Kasiaka's office with two disinterested witnesses, who are familiar with the terms of the permit and the works constructed thereunder, for the purpose of executing the depositions.

The date of priority to be established has been changed from March 26, 1904 to November 13, 1931. It was necessary to do this for the reason that beneficial use proof was originally due April 16, 1909. When this proof is made on December 4, 1936, it will be 27 years, 7 months and 18 days past due. Therefore, the original priority date has to be advanced by this same amount of time, bringing it up to November 13, 1931, in accordance with statutory requirements.

Very truly yours,

H. W. PARIS
Commissioner of Reclamation

by
Asst Chief Clerk

F. O. Nelson, Lava Hot Springs

NOTICE FOR PUBLICATION

NOTICE OF PROOF APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that at 3:00 P.M. on the 4th day of December, 1936,
at Lava Hot Springs, County of Bannock, State of Idaho,
before M. J. Kasiska, Notary Public, proof will be submitted
of the application to beneficial use of three cubic feet per second of the
waters of seven springs in accordance with the terms and conditions of
Permit No. 535 heretofore issued by the State Engineer
of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are
Frank C. Christensen; Grace, Bannock County, Idaho

The use to which said water has been applied is irrigation and domestic use

The amount applied to beneficial use is three second feet

The place where said water is used (if for irrigation, give full and accurate description of the lands
irrigated) W $\frac{1}{2}$ NE $\frac{1}{4}$, SE $\frac{1}{4}$ NW $\frac{1}{4}$, NW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 33, T. 10 S., R. 41 E., B. M.

The name of the canal or ditch or other works by which said water is conducted to such place of use
is Private ditch and pipe line

The right to take water from such works is based upon Permit No. 535

The source of supply from which such water is diverted is seven unnamed springs

The date of the priority which said user is prepared to establish is November 13, 1931.

R. W. FARIS

Commissioner of Reclamation.

NOTICE TO ACCOMPANY THIS LETTER MUST BE MADE IN DUPLICATE

(Date) October 24, 1936.

(P. O.) Grace, Bannock County, Idaho.

TO THE COMMISSIONER OF RECLAMATION:

Boise, Idaho.

Dear Sir:

You are hereby authorized to have the attached notice published at my expense in the
Grace Herald of Grace, Idaho, published in
the county in which the works are situated.

Frank E. Christensen

Grace

(In case of canals or other works designed to divert and carry more than 50 cubic feet of water per second, the following certificate must be signed by a well-known and competent engineer)

I hereby certify that the facts set forth in the attached notice are true.

Permit 535-

October 19, 1936

Mr. F. O. Nelson
Lava Hot Springs, Idaho

Dear Mr. Nelson:

In reply to your letter of October 16th, we are herewith enclosing notice, in duplicate, for publication in connection with final proof under any permit, together with the proper form for your authorization to have the notice published in one of your county papers.

Will you kindly return both copies of the notice to this department, setting the date for proof sufficiently far ahead to permit four weekly publications prior to the date set for proof. If upon their receipt they are in proper form, we shall mail a copy of the notice to the newspaper with instructions for its publication.

Prior to the completion of the publication the necessary forms for making the proof will be mailed to the notary public before whom the proof is to be offered.

Re: Permit No. 535

F. E. TYDEMAN
Attorney-at-Law
Pocatello, Idaho

Dear Sir:

This will acknowledge receipt of your letters of August 26th and August 29th, also the Certificate of Completion of works which was issued under the above permit to Mr. Frank C. Christensen for three second feet of water from seven springs in Bannock County.

If you will please refer to my letter of August 1st, you will find the following statement: "Proof of completion of works was not offered within the time required, and consequently the permit lapsed. Some time later, Mr. Christensen made a sufficient showing to warrant the reinstatement of the right." Thus, I did not state that the Certificate of Completion of Works had not been issued, but merely pointed out that it was not made within the time required. As a matter of fact, the proof had to be made to merit the reinstatement of the permit.

The order to which you refer is the order of reinstatement, which was dated January 16, 1928. You will note that the Certificate of Completion of Works was also issued on that date. However, as I previously stated, final proof has not been offered.

You requested a map that would show the location of the springs, and we are accordingly enclosing a copy of an amended plat that was filed by Mr. Christensen. At the time the original application was filed, these lands were unsurveyed, and later, it was discovered that the descriptions were in error. Consequently, Mr. Christensen filed an affidavit with a view of having the record corrected, and he also filed an amended plat.

We have no way of knowing whether or not this plat is actually correct, since the Department has not had an occasion to make a field examination, nor will any such examination be made until the time when final proof is offered.

We are also returning herewith, the Certificate of Completion of Works which you forwarded.

Very truly yours,

535

POCATELLO, IDAHO

August 26, 1936.

RECEIVED

AUG 27 1936

Department of Reclamation

Commissioner of Reclamation,
Boise, Idaho.

Dear Sir:

Some time ago I received a letter from you relative to a certain water right that is supposed to be owned by Mr. Christensen near Lago, Idaho. At that time you advised me that so far as you could find no Certificate had been issued. I advised Mr. Christensen of this fact and he has this day furnished me with what appears to be an original order made by W. G. Swanson, Commissioner of Reclamation, dated January 16, 1922, and referring to Permit No. 535. Also a Certificate of Completion of Works in connection with this Permit No. 535.

If possible I would like to have you give me a map showing the location of the springs to which this permit applies so that we can identify the same.

Mr. Christensen desires to sell this water right and I would appreciate any suggestions that you have in connection with the proper means of transferring the same other than by a Deed.

Very truly yours,

F. E. Tydeman

FET/W

August 1, 1936

Re: Permit No. 555

F. E. TYDEMAN
Attorney-at-Law
Pocatello, Idaho

Dear Mr. Tydeman:

The filing to which you refer in your letter of July 23rd was issued to Mr. Christensen many years ago. The original application was filed in the State Engineer's office on March 26, 1904.

Proof of completion of works was not offered within the time required, and consequently the permit lapsed. Some time later, Mr. Christensen made a sufficient showing to warrant the reinstatement of the right.

Beneficial use proof was due on April 16, 1909 but it has never been made. The law governing this point provides that six years from the date proof of completion of works is due is the maximum time for offering final proof. It further provides that in the event such proof is offered at a later date, the priority is to be extended an amount of time equal to the time elapsing from the date when proof was due until the date when it is actually made. Consequently, Mr. Christensen has lost approximately twenty-six years priority from the filing by his failure to submit proof within the time required.

Presumably he is ready to make the proof at this time, and we are accordingly enclosing herewith the proper papers for publication. If this proves to be the case, will you kindly have him complete the notice in duplicate and return it to this office with his authorization to have the notice published in some newspaper located in the county wherein he resides?

Very truly yours

Chief Clerk & Office Engineer

Re: Permit No. 535

To Frank O. Christensen

Lago, Idaho

~~Commissioner of Reclamation~~

It appearing to the ~~State Engineer~~ that the terms and conditions of Permit No. 535,
to appropriate the Public Waters of the State of Idaho, have not been complied with as to
Proof of Completion of Works

4/16/07

you are hereby notified, in compliance with H. B. 53, approved February 28, 1917, that said Permit
No. 535 is hereby held for cancellation. ~~Commissioner of Reclamation~~

You are hereby required to show cause before the ~~State Engineer~~ on or before forty days from
date of this notice why said Permit should not be cancelled.

Said Permit No. 535 claims the use of 3 cubic feet per second of the
waters of springs, with point of diversion located
In secs. 21, 28 & 33, 10 S. 41 E., and
was approved April 16, 1904.

In Witness Whereof, I have hereunto set my hand and affixed the seal of my office at Boise, Idaho,
this 21 at day of November, 1921.

W. G. SWENDSEN

~~State Engineer~~

Commissioner of Reclamation

By

Deputy

535

August 16, 1921.

Re: Permit 535.

Messrs. Matthews & Kerr,
Soda Springs, Idaho.

Gentlemen:

Replying to yours of the 13th concerning the above numbered permit held by Frank C. Christensen will state that affidavit of publication was filed as requested by the office, but not until February 27, 1908. On that date the following letter was sent to Mr. Christensen.

"
Permit 535

Boise, February 27, 1908.

Mr. Frank C. Christensen,
Bench, Idaho.

Sir:

I received by this morning's mail the affidavit of publication for proof of completion under the above permit. In looking over the papers on file here for this proof I find a discrepancy between the depositions and report and the permit. The permit gives the source of supply as seven springs in sections 21, 28 & 33 and the land to be irrigated as in Section 34 while the depositions and map sent in by Mr. Turner show these springs in Sections 27 and 34 and the lands in section 33. The error was probably made on account of the land being unsurveyed but it will be necessary for us to have an affidavit from you showing which is correct and why the change was made.

I enclose you herewith the map sent by Mr. Turner which you may compare with your map sent in with the application and you will readily see the discrepancy. Kindly return Mr. Turner's map to this office.

As soon as this affidavit is received, if everything is satisfactory, certificate of completion will be issued.

Very truly yours,

State Engineer.

B-Map

By

The affidavit referred to was not the affidavit of publication as Mr. Christensen seems to think, but an affidavit showing the true description of the point of diversion and lands to be irrigated. If Mr. Christensen will furnish us with this information in the form of an affidavit together with a map, all as set out in this letter which we have quoted, we will be glad to issue certificate of completion of works, provided the description is correct, of course.

M. & K. 3-16-21 #2.

For your information will state that the pointof diversion as given in the permit is: From seven springs in Secs. 21, 28 and 33, T. 10 S. R. 41 E. while the list of lands to be irrigated is as follows: $\frac{1}{2}$ NE $\frac{1}{4}$, NE $\frac{1}{4}$ NW $\frac{1}{4}$, NW $\frac{1}{4}$ SE $\frac{1}{4}$ Sec. 34, T. 10 S. R. 41 E.

After Certificate of Completion has issued, proof of beneficial use may be made and license issued upon the showing made. As proof of beneficial use was due in 1909, if it is made in 1921, the date of priority will be brought down approximately 12 years. The original date of priority was March 26, 1904.

Very truly yours,

W. G. SWENDSEN,
Commissioner of Reclamation

By

MB

Chief Clerk.

AFFIDAVIT OF PUBLICATION

STATE OF IDAHO,

) ss

County of Caribou,)

Notice of Publication.

Notice is hereby given that at 2 p. m., on the 16th day of April 1907, at Lago, County of Bannock, State of Idaho before W. H. Bassett proof will be submitted of the completion of works for the diversion of 8 cubic feet per second of the waters of Seven Springs in accordance with the terms and conditions of a certain permit heretofore issued by the State Engineer of the State of Idaho.

1. The name of the person or corporation holding said permit is Frank C. Christensen.

2. The postoffice address of such person or the place of business of such corporation is Bench, County of Bannock, State of Idaho.

3. The number of such permit is 535, and the date set for the completion of such work is April 16, 1907.

4. Said water to be used for irrigation and domestic purposes.

5. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conducting to the place of intended use, in accordance with the plans accompanying the application for such permit, is 8 cubic feet per second.

6. The amount of lands for which said water is available is 160 acres, particularly described as follows: The un-surveyed west-half of the ne $\frac{1}{4}$, the nw $\frac{1}{4}$ of the se $\frac{1}{4}$ and the se $\frac{1}{4}$ of the nw $\frac{1}{4}$ of sec. 33 in tp. 10 s of Range 41 E C M.

- Bench, Idaho.-

by your chief clerk

We have your favor of August 8th and for which we wish to thank you. This matter has been taken up with Mr. Christensen, the claimant under Permit No. 535 and he referred us to the following letter:

" Boise, Idaho, June 24, 1907.

"Permit 535.

"Mr. Frank C. Christensen,
Bench, Idaho.

"Sir:

"I have received depositions of yourself and witnesses, also, report of Mr. Turner (Engineer) and fee of \$5.00.

"Before certificate can be issued it will be necessary to obtain from the Soda Springs Chieftain an affidavit of publication. As soon as this is received certificate will be issued.

"Yours very truly,

(Sgd:) Jas. Stephensen, Jr.,
State Engineer."

"Dis.S.

"EFR 740"

Mr. Christensen informed us he was confident he had complied with this request and that it was more than likely the mails miscarried. To make correction of this, however, he has obtained an additional "Affidavit of Publication" and same is enclosed herewith.

Mr. Christensen, as you know, is an honest and trustworthy farmer: he has been under the impression all requirements in connection with his water rights had been faithfully performed by him and we certainly trust the enclosed affidavit will straighten up the matter and that the certificate will be issued to him.

Anticipating a favorable reply, we remain,

Yours respectfully,

MATTHEWS & KERR,

By: 

Enc.

August 8th, 1921.

Messrs. Matthews & Kerr,
Soda Springs, Idaho.

Gentlemen:

Replying to yours of the 5th inst. the same being a request for a certified copy of License issued under Permit 535 in the name of Frank C. Christensen will state that our records do not show that license ever issued to Mr. Christensen under this permit. Proof of completion of works was submitted, but the affidavit was returned to the holder for correction and was never returned again to this office, hence Certificate of Completion was never issued.

Also, proof of beneficial use was never made, therefore, no license ever issued to the holder of the permit. We might send you certified copy of the permit, but as neither Certificate of Completion or License has issued, this copy of the permit would be of no value.

Very truly yours,

W. G. SWENDSEN,
Commissioner of Reclamation

August 5th, 1921.

State Engineer's Office,
Boise, Idaho.

Dear Sir:-

Re: Application for Permit No. 535--Recorded in Book 2, Page 535
Approved: April 16, 1904. Frank C. Christensen.

W $\frac{1}{2}$ -NE $\frac{1}{4}$, SE $\frac{1}{4}$ -NW $\frac{1}{4}$, NW $\frac{1}{4}$ -SE $\frac{1}{4}$, Sec. 33, Tp. 10 S., R. 41 E., B.M.,
in Bannock County, Idaho.

Kindly furnish us with a Certified Copy of the Water License
issued to Mr. Frank C. Christensen in connection with his final proof
under the above permit. (20¢ per folio as specified in paragraph 5581 will
be forwarded upon receipt of statement of charges.)

We would certainly appreciate your giving this matter your
immediate attention as Mr. Christensen has apparently lost the original
License and the lack of the document is holding up the closing of a loan
he is negotiating.

Trusting you will be good enough to give this matter your
prompt attention and thanking you in advance, we are,

Yours respectfully,

MATTHEWS & KERR.

Re Permit 535

Mr. Fred C. Olsen,
Grace, Idaho.

Dear Sir:-

Affidavit form is herewith enclosed for entering an appearance to reinstate the above numbered permit. Kindly have same filled out and remailed at once as the time for making the appearance has lapsed. However, as you have made an effort to redeem the same we will extend the time a few days until proper affidavit is filed.

Very truly yours,

W. G. SWENDSEN,

Commissioner of Reclamation

By

) ss
Bannock County)

AFFIDAVIT.

Frank C. Christensen of Bench, County of Bannock, State of Idaho, being first duly sworn, deposes and says, that he is the same Frank C. Christensen who is named as applicant in Permit No 535 in application for permit to appropriate the public waters of the State of Idaho, and recorded in Book 2, Page 535, records of the State of Idaho, department of Reclamation;

That the description of the lands named in said permit are erroneous due to the fact that the lands were unsurveyed at the time of application;

That the true description of said lands is as follows, to wit:

(3) Source of water supply seven springs in section 27 and 34, in T.10 S. R.41 E.B.M.

(b) To be used in the following subdivisions, $W\frac{1}{4}$ NE $\frac{1}{4}$, SE $\frac{1}{4}$ NW $\frac{1}{4}$, and NW $\frac{1}{4}$ SE $\frac{1}{4}$ of section 33, T.10 S. R.41 E.B.M.

And it crosses the following quarter sections, NW $\frac{1}{4}$ of section 27, SE $\frac{1}{4}$ of section 28 to the NW $\frac{1}{4}$ of the NE $\frac{1}{4}$ of section 33, which is the point of intended use.

NAME OF APPLICANT

Frank C. Christensen

535

Township 10 South

Grace, Idaho, January 2, 1921.

Department of Reclamation

Boise, Idaho.

Inclosed find the affidavit of Frank C. Christensen, supported by two witnesses, correcting the Permit NO 535. This affidavit is in compliance with the request of your office expressed in a letter to Mr. Christensen dated Feb. 27, 1908 and reiterated in a letter to Messrs Matthews & Kerr dated August 16, 1921.

If Mr. Christensen is entitled to certificate of completion, please forward the same to me.

Will you also send me the necessary blanks for proof of beneficial use.

Yours truly,

Fred C. Olson

Boise, February 27, 1908.

Permit 535.

Mr. Frank C. Christensen,
Bench, Idaho.

Sir:

I received by this morning's mail the affidavit of publication for proof of completion under the above permit. In looking over the papers on file here for this proof I find a discrepancy between the depositions and report and the permit. The permit gives the source of supply as seven springs in sections 21, 28 & 33 and the land to be irrigated as in section 34 while the depositions and map sent in by Mr. Turner show these springs in Sections 27 and 34 and the lands in section 33. The error was probably made on account of the land being unsurveyed but it will be necessary for us to have an affidavit from you showing which is correct and why the change was made.

I enclose you herewith the map sent by Mr. Turner which you may compare with your map sent in with the application and you will readily see the discrepancy. Kindly return Mr. Turner's map to this office.

As soon as this affidavit is received, if everything is satisfactory, certificate of completion will be issued.

Very truly yours,

State Engineer.

Notice of Publication.

Notice is hereby given that at 8 p. m., on the 18th day of April 1907, at Lago, County of Bannock, State of Idaho before W. H. Bassett, proof will be submitted of the completion of works for the diversion of 3 cubic feet per second of the waters of Seven Springs in accordance with the terms and conditions of a certain permit heretofore issued by the State Engineer of the State of Idaho.

1. The name of the person or corporation holding said permit is Frank C. Christensen.

2. The postoffice address of such person or the place of business of such corporation is Bannock, County of Bannock, State of Idaho.

3. The number of such permit is 556, and the date set for the completion of such work is April 16, 1907.

4. Said water is to be used for irrigation and domestic purposes.

5. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conducting to the place of intended use, in accordance with the plans accompanying the application for such permit, is 3 cubic feet per second.

6. The amount of lands for which said water is available is 100 acres, particularly described as follows: The un-surveyed west-half of the sec. 4, the n.w. 1/4 of the sec. 4 and the sec. 4 of the n.w. 1/4 of sec. 4 in tp. 10 S of Range 41 E 2 M.

PERMIT NO. 535

Proof of Completion of Works.

DEPOSITION OF HOLDER.

Question 1.—State your name, age, residence, occupation and postoffice address.

Answer. Frank Christensen, age 39,
Bench, Idaho, Farmer, Bench, Idaho

Ques. 2.—If acting in behalf of a corporation, state its name, principal place of business, your position with reference to same, and your authority for appearing in its behalf.

Ans. _____

Ques. 3.—State number and date of permit, amount of water you are authorized to divert, source, and point of diversion.

Ans. # 535, March 26-1904, three second feet
Sevensprings, Water Canyon. In NW 1/4 of NE 1/4 Sec 27-T10S 41 E
Point of diversion of Pipe River NW 1/4 SE 1/4 Sec 34-T10S R 41 E

Ques. 4.—State purpose for which water is to be used, and, if for irrigation, state the number of acres and give description of the land you intend to reclaim.

Ans. Irrigation, 160 acre, W 1/2 NW 1/4 NW 1/4 SE 1/4
SE 1/4 NW 1/4 Sec 33 Township 10 S R 41 E

Ques. 5.—State whether or not the water has been turned into your works of diversion, and, if so, when and to what extent.

Ans. Water has been diverted to the extent
of three second ft. in June 1904

Ques. 6.—State whether or not the works of diversion are fully completed, and whether or not they comply in all respects with the terms of the permit.

Ans. Fully completed & comply with terms of permit

Ques. 7.—If the works of diversion do not comply with all the terms of your permit, state fully those particulars in which there is any variance.

Ans. _____

Ques. 8.—Give description of works, state dimensions and capacity of each part, and give cost of same.

Ans. Leitch 2 1/2 miles long, three feet wide, 17 1/2 ft deep
1/2 in fall to rod, costing \$200.00, Pipe line 1 1/4
miles long, cost \$750.00(Sign here.) Frank C. Christensen

INSTRUCTIONS.

PROOF OF COMPLETION OF WORKS.

Frank C. Christensen
Lago, Idaho

Boise, Idaho, February 25, 1907.

Dear Sir:

I enclose herewith the following forms to be used in connection with Proof of Completion of Works under your Permit No. 535:

Deposition of Permit Holder.

Depositions of Two Witnesses.

In submitting this proof the following instructions should be carefully followed out; since failure to do so may result in the loss of your rights.

1. On April 16, 1907, the date set for the proof of completion of works, the enclosed deposition forms (one for permit holder and one each for two witnesses) should be filled out and sworn to, at Lago, Idaho, before W. H. Bassett.

2. To complete the proof, it is also necessary that an examination be made of the works as constructed, which examination must be under the authority of the State Engineer. It is the desire to make this expense as light as possible to the permit holder. Will you therefore give me the name of a competent engineer, or surveyor, in your neighborhood who could do this work with as little expense as possible to you. Upon receipt of such a name I will authorize him to do the work. The examination should be made on or before the date set for the proof.

3. When the depositions have been taken, they should be mailed to this office, together with the affidavit of publication of notice and fee of \$5.00 . When these have been received, together with report of examining engineer, if everything is properly executed, Certificate of Completion of Work will issue.

Yours truly,

Jas. Stephenson, Jr.,

State Engineer.

NOTICE OF PUBLICATION

Notice is hereby given that at 2 P.M., on the 16th day of April 1907, at Lago County of Bannock State of Idaho, before W. H. Bassett proof will be submitted of the completion of works for the diversion of 3 cubic feet per second of the waters of seven springs

in accordance with the terms and conditions of a certain permit heretofore issued by the State Engineer of the State of Idaho.

1. The name of the person or corporation holding said permit is

Frank C. Christensen

2. The postoffice address of such person or the place of business of such corporation is Bench

County of Bannock State of Idaho.

3. The number of such permit is 535, and the date set for the completion of such work is

April 16, 1907

4. Said water to be used for irrigation & domestic purposes.

5. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conducting to the place of intended use, in accordance with the plans accompanying the application for such permit, is 3 cubic feet per second.

6. The amount of lands for which said water is available is 160 acres, particularly described as follows: The unsurveyed west-half of the N.E. $\frac{1}{4}$, the N.W. $\frac{1}{4}$ of the SE $\frac{1}{4}$ and the SE $\frac{1}{4}$ of the NW $\frac{1}{4}$ of Sec. 33 in Tp. 10 S of Range 41 E.B.M.

Notice of Proof of Completion of Works

(This blank must be filled out by holder of permit and forwarded by registered mail to the State Engineer at least 60 days before the time set for completion of works.)

(P. O.) Bannock Idaho

(Date) Feb 6th 1907

TO THE STATE ENGINEER OF THE STATE OF IDAHO, BOISE, IDAHO:

DEAR SIR: Notice is hereby given that at 2 P.M. on the 16th day of April 1907, at Lago County of Bannock State of Idaho, before W H Bassett proof will be submitted of the completion of works for the diversion of three cubic feet per second of the waters of Seven Springs in accordance with the terms and conditions of a certain permit heretofore issued by the State Engineer of the State of Idaho.

1. The name of the person or corporation holding said permit is

Frank C. Christensen

2. The postoffice address of such person or the place of business of such corporation is

Bannock County of Bannock State of Idaho.

3. The number of such permit is 535, and the date set for the completion of such work is

April 16, 1907

4. Said water to be used for irrigation & domestic purposes.

5. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conducting to the place of intended use, in accordance with the plans accompanying the application for such permit, is three cubic feet per second.

6. The amount of lands for which said water is available is 160 acres,

particularly described as follows: The un-surveyed west half of the N E 1/4, the NW 1/4 of the S E 1/4 and the S E 1/4 of the NW 1/4 of Sec 33 in T. 10 S. of Range 41 E B M

(In case of all canals or other works designed to divert and carry more than 50 cubic feet of water per second, the following certificate must be signed by a well known and competent engineer.)

I hereby certify that the facts set forth in the above notice are true.

Engineer.

I desire that the above notice be published, according to law, in the Soda Springs Chieftain of Soda Springs published in the county in which said works are situated; the expense of which publication will be borne by the subscriber

Dear sir

I again return you notice of
proof of completion of proof for
advertisement, the S E $\frac{1}{4}$ of the N W $\frac{1}{4}$ of sec
33 as stated in notice of proof, is correct
mistake having been made you state by
numbering the sections from the wrong side.
I have looked over the quarters desired
and find that the S E $\frac{1}{4}$ of the N W $\frac{1}{4}$ of sec
33 is correct, as ~~made~~^{made} out in notice of
proof. It will be most convenient for me to
have you appoint Mr E J Turner Water
commissioner, to make the examination and
report to you

Yours Truly
Frank C Christensen

Boise, Idaho, February 11, 1907.

In re permit No. 535.

Mr. Frank C. Christensen,
Bench, Idaho.

Dear Sir:-

I return you herewith notice of proof of completion of works for the following correction: You give, as part of the land to be irrigated, the Southeast quarter of the Northwest quarter of section 33. The permit calls for the Northeast quarter of the Northwest quarter of section 34. There appears to be some discrepancy in the location of the sections. However, as this appears to be caused by numbering the sections from the wrong side, I think we can alter it satisfactorily. If you will kindly look over this particular quarter and see whether it is the Northeast or the Southeast of the Northwest quarter of section 33 so that we can publish it correctly you will greatly oblige.

Very truly yours,

State Engineer.

535

I N S T R U C T I O N S

Proof of Completion of Works.

Frank C. Christensen
Bend

Boise, Idaho, *Feb. 1, 1907*

Dear Sir:-

I enclose herewith blank form upon which to give notice that you are prepared and desire to submit proof of completion of works under your Permit No. *535*.

This form should be filled out and mailed to the State Engineer at least 60 days before the date upon which proof is to be submitted, which proof MUST be on or before *April 10, 1907*. Upon receipt of the blank, properly filled out, notice for publication will be sent to the paper direct from this office, which notice must be published a period of four weeks prior to the date of proof.

The proof may be submitted at any place, convenient to you and two witnesses, where there is a Notary Public or other officer authorized to administer oaths.

One of the requirements of the law is that an examination of the works constructed shall be made under the authority of the State Engineer. In order to make the expense as light as possible you are requested to furnish the name of a competent engineer, or surveyor, who can do this work for you at a reasonable cost. Upon receipt of such a name I will authorize him to make the examination and send me a report on or before the date set for the proof.

The Certificate that shall be issued under this proof does not give you a perpetual right to the use of the water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time License is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

Jas. Stephenson, Jr.

State Engineer.
