RE: App For Permit 37-21719, Wild West, Inc.

Dear Mr. Brown;

Enclosed is a computer-generated printout of the above-referenced application for your records. An ArcView map of the project is also enclosed. While the application requested two years of development time, I took the liberty of changing this to 5 years based on your statement that full development will take 6-8 years. Shelley Keen of our Boise office told me that just stubbing water lines into the building sites is not sufficient for licensing purposes; a building will have to be built, and presumably in use, to be included in the license. So it just makes sense to apply for the maximum of 5 years now; the applicant request additional time later if the first 5 years is no enough. I hope this meets with your satisfaction.

If you have questions or comments, feel free to contact me.

Regards,

James E. Stanton
Sr. Water Resource Agent
