PROOF ACKNOWLEDGMENT LETTER

Re: Permit No. 67-7995

Dear Permit Holders:

The department acknowledges receipt of the proof of beneficial use ("proof") form submitted for the above-referenced permit. The next step in the process of developing a water right is for the department to conduct the field examination to determine and confirm the use of the water, and that it meets the permitted beneficial use.

Be advised that Section 42-248, Idaho Code, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office, or at the department's website at: www.idwr.idaho.gov

During my review of your proof and permit, I found that according to condition of approval paragraph no. 6 of your permit states, "Prior to diversion of water under this right, the right holder shall install and maintain a measuring device and lockable controlling works of a type acceptable to the Department as part of the diverting works." I recommend that this final condition of the permit be completed. If you disagree with this requirement, you may file a written request for waiver of this condition to the department and your Watermaster. The department will issue a decision upon consideration of your Watermaster's review and written response.

If you have questions about the field examination, please contact the **Western** Regional Office of the department in Boise at (208) 334-2190.

Sincerely,

A handwritten signature in black ink that reads "Christine Roberts". The signature is written in a cursive, flowing style.
