

MEMORANDUM

TO: JOHN CARLSON/GROUNDWATER SECTION

FROM: PAM SKAGGS/WATER ALLOCATION

SUBJECT: APPLICATION FOR DRILLING PERMIT
NAN CROCKER & BENJAMIN S. CROCKER TRUST

DATE: September 26, 1994

=====

I reviewed the associated water right and discussed the following pertinent facts with Jim Johnson.

The water right permit is not in the name of the applicant, but in the name of Crystal Hot Springs Limited Partnership. There is evidence in the file that an ownership change may have occurred, but a completed, acceptable assignment and fee have not been received to confirm that change.

The permitted uses are Wildlife, Heating, and Recreation. The permitted plan of development, specifically excluded domestic use under this right. If this is a replacement well for the permitted uses, the uses should be clarified and specific enough to match the water right permit. If there are plans to develop a common domestic system, irrigation or stock use, the permit would need to be amended to include these new uses and the drilling permit should be held until the amendment is processed and approved.

These questions should be resolved prior to approval of this drilling permit.

ACTION OF THE DEPARTMENT OF WATER RESOURCES

This Permit is _____ Date _____

If approved, this permit authorizes the constuction or modification of a well subject to the following conditions. READ CAREFULLY!

GENERAL CONDITIONS:

1. The well must be constructed in compliance with the applicable statutes, specific conditions of approval shown on the water right permit, injection well permit, transfer or amendment and the rules and regulations of the Department for water appropriation, injection wells and well construction standards.
2. This drilling permit is valid for two (2) months from the above approval date for the start of construction and is valid for one (1) year from the approval date for completion of the well unless an extension has been granted.
3. This permit does not constitute an approval of the District Health Department or the Idaho Department of Health and Welfare which may be required before construction of this well.
4. The well shall be constructed by a driller currently licensed in the State of Idaho who must maintain a copy of the drilling permit at the drilling site.
5. Approval of this drilling permit does not authorize trespass on the land of another party.
6. This permit does not constitute other local, county, state or federal approvals which may be required for construction of a well.
7. This drilling permit does not represent a right to divert and use the water of the State of Idaho.
8. If a bottom hole temperature of 85° or greater is encountered, well construction shall cease and the well driller and the well owner shall contact the Department immediately.
9. If this permit is for a replacement well, the well being replaced must be abandoned in accordance with Department Rules and Regulations.
