RE: Assignment of Permit No. 37-08670

Dear Ms. Crocker:

I recently received an 'Assignment of Permit' form on Permit No. 37-08659 assigning ownership of that permit to you. The assignment form was accompanied by a quitclaim deed identifying several other water rights.

The listed on the second page of the quitclaim deed were two permits, 37-08659 and 37-08670. You submitted the assignment and filing fee for 37-08659, and we have modified our computer records to reflect this change in ownership. Your assignment did not include permit No. 37-08670 or filing fees for that permit.

I have enclosed a partially completed assignment of permit form for your use on permit No. 37-08670. The fee for filing this assignment is \$25.00. Please return the completed assignment with the filing fee to my attention at the above address.

The water rights 37-00548, 37-00549, 37-02142, 37-04138, 37-01222, 37-04139, and 37-04440, are either decrees, licenses, or statutory claims. Water right statute does not provide a means for changing owner of record for licensed, decreed, or claimed water rights; although, I have placed your correspondence in each of the water right files.

Two of the water rights listed, 37-12396 and 37-12397, are claims filed under the Snake River Basin Adjudication (SRBA). The Idaho Code requires that all claimed water rights in the SRBA provide the written notice of any ownership change. I have enclosed a 'New Property Owner Notice of Change of Water Right Ownership' form for your use on the SRBA claims.

If you have any further questions or require assistance, please feel free to contact me directly at (208) 327-7944.

Respectfully,

Cindy Zimmerman
Water Resource Agent
