Subject: Mission in lieu of Tuesday meeting -- Find exam for 75-7352

Roger,

On 9/1/1998, I wrote Bob Foster a memo asking for his help with a measurement to supplement the exam for 75-7352. The memo says that Skip and I talked it over and nominated Bob for the job. In accordance with our custom when returning field exams to the region, we put a copy of the exam in the water right file. Unfortunately, the copy is incomplete; we only have the first page of the field report form.

Earlier this month I got a copy of Bob's measurement from Ken Knoblock, who is reviewing Basin 75 claims in his office in Coeur d'Alene. Since then, I've talked with Bob, Ken, and Keith Wilson, but none of them will admit to having the original field report. I am hoping that you can pick up a few desks in the regional office and shake them to see if anything falls out. If you don't find the report, we'll go to Plan B, which hasn't been formulated yet.
