PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 11-07413

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form ("proof") submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

The proof you submitted does not indicate that you have complied with Condition of Approval No. 4 of your permit which requires you to provide a means of measurement of the rate of diversion acceptable to the department prior to diversion of water under the permit. You must comply with this condition prior to the time the department conducts a field examination in order to keep the permit in good standing.

If you have questions concerning the field examination or the timing of it, please feel free to contact the Eastern Regional Office of the department in Idaho Falls at (208) 525-7161.

Sincerely,

L. GLEN SAXTON, Chief
Water Allocation Bureau

PROOF DUE NOTICE

RE: PERMIT NO. 11-07413

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before September 1, 1999.

(See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

JULIE L. YARBROUGH
Senior Secretary

Dear Water Right Applicant:

The Department of Water Resources acknowledges receipt of your water right permit. This office is currently in the process of advertising the application in the NEWS EXAMINER on July 21 & 28, 1994. The advertisement will be published for two consecutive weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested, you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our State Office in about five weeks. State Office Personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Sincerely,

Harold W. Jones
Water Right Supervisor
