RE: WATER RIGHT NO. 11-07404

Dear Water Right Holder(s):

The above referenced water right is in the process of being licensed. However, before a license can be issued, your permit must be amended to correspond with the findings of the Department's field examiner.

The enclosed Application for Amendment contains information that will be included on the license when it is issued. The amendment reflects a change in the location of the place(s) of use description. Please review carefully and if you concur, sign the amendment and return with the \$50.00 filing fee within 60 days.

The last page of the Application for Amendment form contains a list of CONDITIONS/REMARKS proposed for the license when it is issued. These conditions/remarks may be modified upon further administrative review.

If you do not concur, or if you have any questions about this information, please contact me as soon as possible. My telephone number is (208) 327-7946.

MEMORANDUM

TO: File 11-07404 / BLM
FROM: Brenda Chapman
DATE: May 24, 1995
RE: Recommendation Adjustment(s)

=====

The final licensing recommendations for the above referenced water right are based on the information below:

F. FLOW CALCULATIONS

The stockwater rate has been reduced. The rate for 100 range cattle from a "2 hour per day diversion" groundwater source is .02 cfs (Exhibit 15, Field Examiner's Handbook). With a spring being a "24 hour diversion" source, .02 cfs is more than an adequate rate for 100 cattle.

$$100 \text{ cattle} \times .00022 = .02 \text{ cfs}$$

G. VOLUME CALCULATIONS

The stockwater volume recommendation has been adjusted based on the following:

Annual volume: $100 \text{ cattle} \times .0134 = 1.3 \text{ af}$
Season of Use: $87/365 \text{ days} \times 1.3 \text{ af} = .3 \text{ af}$

Unless a greater amount can be justified, the usual recommendation for wildlife is .1 af.

Also, the volume need not be calculated based on a 2 hr per day diversion. It is not possible with a spring scenario.

RE: Application No. 11-07404 & 32-07235

Dear Water Right Applicant:

The Department of Water Resources acknowledges receipt of your water right permit. This office is currently in the process of advertising the application in the News Examiner on July 15 & 22, 1993. The advertisement will be published for two consecutive weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested, you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our State Office in about five weeks. State Office Personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Sincerely,

Harold W. Jones
Water Right Supervisor
