of the Department of Water Resources hereby

APPROVE THE ABOVE REFERENCED APPLICATION FOR AMENDMENT. SEE ATTACHED SHEET FOR

CONDITIONS OF APPROVAL.

MAY 29 1991

Witness my hand this

day of

CHIEF, WATER ALLOCATION BUREAU

CONDITIONS OF APPROVAL

Amendment of Permit No. 11-7326

1. The previous conditions as set forth in Permit No. 11-7326 must be met.
2. Prior to diversion of water under this amendment, the permit holder must obtain approval of the U.S. Forest Service.
3. This issuance of this permit in no way grants any right-of-way or easement across the land of another.

Dated this 16th day of May, 1991.

L. GLEN SAXTON
Chief, Water Allocation Bureau

BEFORE THE DEPARTMENT OF WATER RESOURCES

OF THE

STATE OF IDAHO

IN THE MATTER OF AMENDED WATER)
RIGHT PERMIT NO. 11-07326 IN) ORDER
THE NAME OF F. H. McFARLAND)
_____)

On July 17, 1990, F. H. McFarland filed an application to amend Permit No. 11-07326 requesting to change the point of diversion of an unnamed stream tributary to Eight Mile Creek within the SESW, Section 16, T10S, R42E, B.M., Bear Lake County, to the SENE, Section 21, T10S, R42E, B.M., Bear Lake County. Notice of this proposed change was published in the News-Examiner, Montpelier, Idaho on September 20, and 27, 1990.

WHEREAS, on October 9, 1990, the Department received a protest against approval of said application from the U. S. Forest Service.

A conference concerning this matter was scheduled and held on Thursday, November 29, 1990, at 1:00 p.m. in the Ag Extension Office, Caribou County Courthouse, Soda Springs, Idaho, at which the protestant failed to appear.

On January 23, 1991, the Department sent a Show Cause Order to the protestant to address why the protest should not be set aside for failure to appear at the conference.

On February 1, 1991, the protestant responded to the Show Cause Order stating that the letter from the Department setting the conference arrived in time at the Ogden U. S. Forest Service office, but the letter was not relayed to the Caribou Forest Supervisor until the day after the conference.

ORDER

The Department will not schedule another conference in this matter, will set aside the protest by the U. S. Forest Service and will make a decision on the Application for Amendment of Water Right 11-07326 based on the information contained in the file.

Dated this 16th day of May, 1991.

L. GLEN SAXTON
Chief, Water Allocation Bureau

	Ranger Dist. No. (Resp. Dist.) ____	User Number ____	Kind of Use Code ____	

PART I—APPLICATION (Applicant Completes)

1. Applicant Name and Address (Include Zip Code) Forrest H. McFarland 2100 Eight Mile Creek Road Soda Springs, ID 83276-9728 5619	2. Authorized Agent Name, Title and Address (Include Zip Code) if different from Item 1.	3. Area Code and Telephone Number a. Applicant's 208-547-2470 b. Authorized Agent's
4. As applicant are you? (Mark one box with "X") a. ☒ Individual b. ☐ Corporation* c. ☐ Partnership/Association* d. ☐ State Government/State Agency e. ☐ Local Government f. ☐ Federal Agency * If marked "X", complete PART II.		5. Specify what application is for: (Mark one box with "X") a. ☒ New authorization* b. ☐ Renew existing authorization c. ☐ Amend existing authorization* d. ☐ Other* * If marked "X", provide details under Item 7.
6. If you are an individual or partnership, are you also a citizen(s) of the United States? ☒ Yes ☐ No		
7. Describe in detail the land use, including: (a) type of use, activity, or facility; (b) related structures and facilities; (c) physical specifications (length, width, acres, etc.); (d) term of years needed; (e) time of year of use or operation; (f) duration and timing of construction; (g) temporary work areas needed for construction; and (h) anticipated need for future expansion. (If extra space is needed, use Page 3, REMARKS). The Fed. land is needed to bury a 6" plastic pipeline to carry water from spring to existing pipeline at point of beginning. There are no other structures or facilities involved. The land needed is approximately 1500 Ft. long and 8 ft. wide. It will be needed for an indefinite number of years. The use will be 12 months per year. Construction would begin within 10 months and completed within 16 months. No temporary work areas would be needed for construction. Future expansion will be unnecessary.		
8. Attach map covering area and show location of proposed use and/or furnish legal description of the land. Beginning at a point app. 2180 ft. W of NE corner of Sec. 21 T1N 10 S. R 42 E, thence SE 2500 ft. to		
9. Give statement of your technical and financial capability to construct, operate, and terminate the use for which authorization is requested, including the protection and restoration of Federal lands. (If extra space is needed, use page 3, REMARKS). Work will be contracted to Earl Hamp Construction Co., who has completed many like projects for me. I have money to complete the project without borrowing. Having completed many like projects I am confident I would be able to complete this project and restore Fed. land to the satisfaction of all concerned.

b. If one partner is authorized to sign, resolution authorizing action is	☐	☐
c. Name and address of each participant, partner, association, or other	☐	☐
d. If application is for an oil or gas pipeline, provide information required by Item "I-f" and "I-g" above.	☐	☐

* If the required information is already filed with the Forest Service and is current, check box titled "Filed." Provide the file identification information (e.g., number, date, code, name and office at which filed). If not on file or current, attach requested information.

REMARKS: (This space is provided for more detailed responses to PART I.) Please indicate the item numbers to which these responses apply. Attach sheets, if additional space is needed.

10b (Continued) Steel pipe also would require continuous maintenance such as rusting-out, repairing holes shot in by sportsmen, and damage from rolling boulders and falling trees. Both alternatives would leave a permanent scar on Fed. land.

12 (Continued) Populations of fish, wildlife, marine life and endangered species would not be affected at all. Plant life would be replaced with grass.

10a. Describe other reasonable alternative proposals considered.

Instead, the ditch could be cemented or a steel pipeline installed above ground.

10b. Give explanation of why it is necessary to utilize Federal lands and why the alternatives in item 10a were not selected.

The use of Fed. land is necessary because that is where the head of the spring is that I have been using for sprinkle irrigation on the NE $\frac{1}{4}$ of the SW $\frac{1}{4}$ of Sec. 16 and adjoining ground. Concrete would be little improvement over present ditch, requiring continuous maintenance, such as cleaning by hand of leaves, rocks, trees, limbs, brush, etc. (See Page 3)

11. Provide statement of need for proposed use, including the economic feasibility and items such as: (a) cost of proposal (construction, operation, and maintenance); (b) estimated cost of next best alternative; and (c) expected public benefits. (If extra space is needed, use page 3, REMARKS).

The cost of constructing this buried plastic pipeline would be approximately \$10,000. Operation and maintenance costs should be nothing over many years. The next best alternative, running steel pipeline above ground, would cost approximately \$15,000. The public would be benefited by temporary employment of local people and input of approximately \$10,000 into economy.

12. Describe probable effects on the area population, including social and economic aspects, and rural lifestyles.

~~There would be no effect on the air quality; no visual impact, except a trail 8 ft. wide; no change in surface and ground water quality or quantity; no change on any other stream or body of water; and, no effect on noise level, except while the back hoe was digging the trench for the pipe. The land surface would be improved after reseeding has become established. (See Page 3)~~

13. Describe likely environmental effects that the proposed use will have on: (a) air quality; (b) visual impact; (c) surface and ground water quality and quantity; (d) control or structural change on any stream or other body of water; (e) existing noise levels; (f) land surface, including vegetation, permafrost, soil and soil stability; and (g) populations of fish, plant, wildlife and marine life, including threatened and endangered species. (If extra space is needed, use page 3, REMARKS).

There would be no effect on the air quality; no visual impact, except a trail 8 ft. wide; no change in surface or ground water quality or quantity; no change on any other stream or body of water; and, no effect on noise level, except while the back hoe was digging the trench for the pipe. The land surface would be improved after reseeding has become established. Populations of fish, wildlife, marine life and endangered species would not be affected. Plant life would be replaced with grass.

14. Describe what actions will be taken to protect the environment from the effects of the proposed use.

The area used would be leveled-off, debris piled and ground reseeded.

15. Name all Federal, State, County or other department(s)/agency(ies) where an application for this is being filed. Attach appropriate license, building permit, certificate or other approval document.

I HEREBY CERTIFY, that I am of legal age and authorized to do business in the State and that I have personally examined the information contained in the application and that this information is correct to the best of my knowledge.

16a. Applicant's Signature (Sign in ink)

16b. Date

1/2/89

NOTICE OF PROPOSED
AMENDING OF PERMIT
11-7326

Notice is hereby given that Permit No. 11-7326 in the name of F.H. or DOROTHY C. MC FARLAND, SODA SPRINGS, ID, was issued for the diversion of .63 cfs. of water from an UN-NAMED STREAM tributary of EIGHT MILE CREEK with the point of diversion being within the SESW, SEC 16, T 10S, R 42E, B.M. BEAR LAKE COUNTY; to be used to irrigate 30 acres of land within the E1/2SW1/4, SEC 16, T 10S, R 42E, B.M.

The permit holder now proposes to amend Permit No. 11-7326, changing the point of diversion to the SENE, SEC 21, T 10S, R 42E, B.M.

Any protest to the proposed amending of the permit must be filed with the Idaho Department of Water Resources, 150 Shoup Ave., Idaho Falls, ID, 83401, on or before OCTOBER 8, 1990.

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State

of Idaho No. 11-7326, and said application is hereby APPROVED

1. Approval of said application is subject to the following limitations and conditions:

a. SUBJECT TO ALL PRIOR WATER RIGHTS.

b. Proof of construction of works and application of water to beneficial use shall be submitted on or be-

fore November 1, 1988.

c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.

d. Other: Permit holder shall commence the excavation or construction of diverting works within one year of the date this permit is issued and shall proceed diligently until the project is complete.
A measuring device and lockable controlling works of a type acceptable to the Department shall be permanently installed and maintained as part of the diverting works.

Witness my hand this 23rd day of November, 1983.

RE: Water Right Permit No. 11-07326
F.H. McFarland

Dear Mr. Saxton:

This is to confirm my discussion with you on the telephone on this date, regarding the following items:

1. I did not receive a copy of the Order, Approval and Conditions of Approval, though I had filed a formal Notice of Appearance herein.

2. Paragraph 2 of the Conditions of Approval states:

"Prior to diversion of water under this Amendment, the permit holder must obtain approval of the U.S. Forest Service."

On behalf of my client, I would like to preserve the right to object to said paragraph 2. On the other hand, if that paragraph is consistent with our interpretation as set forth below, then we have no problem with it.

We understand that it will be necessary to obtain a special use permit from the U.S. Forest Service, prior to installing any additional or different diversion devices or systems upon Forest Service land. We have no problem whatsoever with that concept, and intend to so apply.

However, if said paragraph 2 takes away from the position we already have, then we believe said Condition to be improper and over-reaching. My client has had, for many, many years a diversion channel across Forest Service land. He developed this by hand, and

it is our position that this is an acquired right which cannot be interfered with by the Forest Service. In this regard, the Amendment sought only to correct the prior, approved permit, designating the diversion point at its real location (at the spring), rather than at Mr. McFarland's boundary line with the Forest Service. Hence, while Mr. McFarland would not attempt to install new or different diversion system without prior authorization by the Forest Service, it is also his position that he already has the right to divert the water from the spring as he has always done, over a period of many years.

Trusting that condition number two is a standard-type provision which merely requires us to get Forest Service permission before launching into a new diversion system, we have no problem with it. Again, however, if it has the effect of prescribing the prior rights of Mr. McFarland, then we object thereto, and wish to preserve our rights formally to do so.

Thank you very much for your attention to this matter.

Very truly yours,

Jay R. McKenzie
Attorney at Law

Ogden UT 84401

Mr. Tixier:

I have reviewed your letter of January 28, 1991 which was a response to the Show Cause letter sent by this office. The matter of amended Application for Permit 11-7326 filed by F. H. McFarland and the missed pre-hearing conference was addressed.

It has been the policy of this office to address easement or right-of-way problems with an approval of the application for water right. This then allows the applicant time to negotiate with the second party for a special use permit. That time limit is set on our permit as the "proof due date" and will usually run from 1 to 5 years. This approval of the Application for Permit in no way implies or allows trespass.

When the "proof due" date is reached and no easement or special use permit has been accomplished then the permit is in jeopardy of being lapsed.

I intend to recommend that Application for Amendment for Permit 11-7326 be approved with the following condition:
"The issuance of this permit in no way grants any right-of-way or easement across the land of another."

If you have any questions or additional comments on this matter please let me know within thirty (30) days of this letter.

Sincerely,

Harold W. Jones
Water Resource Supervisor

Mr. Ronald D. Carlson
Eastern Regional Manager
Idaho Department of Water Resources
150 Shoup Avenue, Suite 15
Idaho Falls, ID 83401

Date: JAN 28 1991
RECEIVED

FEB 1 1991

Department of Water Resources
Eastern District Office

Dear Mr. Carlson:

We received your show cause order regarding Application for Permit No. 11-7326 filed by F. H. McFarland to change the point of diversion from the SE1/4SW1/4, sec. 16, T. 10 S., R. 42 E., of the Boise Meridian, to the SE1/4NE1/4, sec. 21, T. 10 S., R. 42 E., of the Boise Meridian. The Forest Service protested the proposed change in a letter addressed to Mr. R. Keith Higginson dated October 5, 1990. The protest was received on October 9.

Sometime between November 13 and November 20, we received a letter setting a time, place, and date for a conference between the applicant, the Forest Service, and the Department of Water Resources. Due to an unexplained set of circumstances, whether they be slow mails or a delay in this office, the Forest Supervisor of the Caribou National Forest did not receive this notice until November 30, one day after the scheduled conference. While this does not excuse our tardiness, we believe this, coupled with the basis of our protest, is grounds for reconsideration.

To reiterate our concerns with the applicant's proposal, the United States, through the Forest Service as management agency, has a water right for 0.04 cfs from the same source with a priority date of June 1, 1965. This right would be senior to the applicant's if the change application is approved and the applicant's priority date is advanced to the date of the change application. The Forest Service is also responsible and will do whatever is necessary to protect the riparian area downstream of the spring which is the subject of the change. We are also concerned that the diversion of water at the source will limit management options for livestock and wildlife in the area.

We point out the applicant cannot access the spring without a Special Use Permit from the Forest Service to occupy National Forest land. Until the applicant obtains such a Permit, the water cannot be put to beneficial use. A Special Use Permit cannot be issued until an environmental assessment of the effects of the proposed project is completed and all requirements of the National Environmental Policy Act are fulfilled.

We believe the above is adequate cause to keep our protest active and to schedule another conference.

Sincerely,

for Randee B. Hall
J. S. TIXIER
Regional Forester

IN THE MATTER OF AMENDED	)	
WATER RIGHT PERMIT	)	
NO. 11-7326 IN THE NAME	)	SHOW CAUSE ORDER
OF F.H. MCFARLAND	)	

On July 27, 1990, F.H. McFarland filed application to amend Permit No. 11-7326 requesting to change the point of diversion of an unnamed stream tributary to Eight Mile Creek within the SE1/4SW1/4, Sec. 16, T. 10S, R. 42, B.M., Bear Lake County, to the SE1/4NE1/4, Sec. 21, T. 10S, R. 42E, Bear Lake County. Notice of this proposed change was published in the News-Examiner, Montpelier, Idaho on September 20 and 27, 1990.

WHEREAS on October 9, 1990, the Department received a protest against approval of said application from the U.S. Forest Service.

A conference concerning this matter was held on Thursday, November 29, 1990, at 1:00 p.m. in the Ag Extension Office, Caribou County Courthouse, Soda Springs, Idaho, at which time the protestant failed to appear.

RECEIVED

MAY 29 1991

IT IS, THEREFORE, HEREBY ORDERED that the protestant Show Cause on or before February 11, 1991, why the protest should not be canceled for failure of the protestant to appear at the conference.

Dated this 23rd day of January, 1991.

BEFORE THE DEPARTMENT OF WATER RESOURCES
OF THE
STATE OF IDAHO

IN THE MATTER OF APPLICATION FOR)
AMENDMENT NO. 11-07326 IN THE NAME)
OF F.H. McFARLAND)

NOTICE OF CONFERENCE

On July 27, 1990, F.H. McFarland, Soda Springs, Idaho filed with the Department of Water Resources an application to amend the above referenced application for permit. On October 9, 1990, the Department received a protest against approval of said application from the U.S. Forest Service. The Department has set the matter of protest for an administrative conference to be conducted at 1:00 p.m. on Thursday, November 29, 1990, in the Ag Extension Conference Room, Caribou County Courthouse, Soda Springs, Idaho.

The purpose of this conference will include:

1. Identification and/or simplification of issues.
2. Obtaining admissions of fact and of documents which will avoid unnecessary proof.
3. Arranging for the exchange of proposed exhibits.
4. Designate date for identifying witnesses.
5. Designate target date for conducting administrative hearing if resolution is not possible during the conference.

The conference will be held in accordance with

RECORDED
MAY 29 1991

provisions of the adopted Rules of Practice and Procedure of the
Department of Water Resources.

Dated this 13th day of November, 1990.

RONALD D. CARLSON
Eastern Regional Manager

RECEIVED
MAY 29 1991

RE: Application for Amendment No. 11-07326 F. H. McFARLAND

Mr. J.S. Tixier, Regional Forester
U. S. Forest Service
324 25th Street
Ogden, UT 84401

Dear Mr. Tixier:

Your protest against approval of the above referenced application for amendment has been received and a copy has been sent to the applicant. The Department suggests you contact the applicant directly in an effort to determine what is proposed by the application and to attempt to resolve the protest.

Unless this office is advised that either the matter has been resolved or there exists extenuating circumstances requiring additional time, our objective is to schedule a conference and/or hearing to consider the protests within 60 days. At such a conference and/or hearing, the following are the principle items the Department can consider in either approving or denying the application for amendment (Sec. 42-203, Idaho Code):

1. Will the proposed amendment reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purpose intended?
3. Is the amendment made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?
5. Will the proposed use under this permit conflict with the local public interest?
6. That it is contrary to conservation of water resources within the State of Idaho.

RECEIVED
OCT 29 1990

Mr. J. S. Tixier
October 24, 1990

Enclosed is a copy of a protest filed against the application for amendment of permit No. 11-07326. The Department suggests you contact the protestant directly in an effort to determine the nature of the protest and to attempt to resolve the protest.

Unless this office is advised that either the matter has been resolved or there exists extenuating circumstances requiring additional time, our objective is to schedule a conference and/or hearing to consider the protests within 60 days. At a conference and/or hearing, the following are the principle items the Department can consider in either approving or denying the application for permit (Sec. 42-203, Idaho Code):

1. Will the amendment reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purpose intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?
5. Will the proposed use under this permit conflict with the local public interest?
6. That it is contrary to conservation of water resources within the State of Idaho.

RECEIVED
MAY 8 1991

F.H. McFarland
October 24, 1990
Page 2

The applicant must be prepared to present evidence and/or testimony addressing each of the six items. Although representation by legal counsel is not mandatory at a proceeding before the Department, you may retain an attorney in your behalf.

If this office can be of further assistance, please contact us.

Very truly yours,

HAROLD W. JONES
Water Rights Supervisor

Department of Water Resources

Dear Mr. Higgison:

We are writing about an amendment to Application for Permit No. 11-7326 filed by F. H. McFarland to move a point of diversion onto National Forest land. The Application for Amendment asserts that the point of diversion has always been on National Forest land yet the Forest Service has no record of such diversion nor is there any field evidence of a pipeline or ditch.

We are protesting this application for the following reasons:

1. The United States has a water right for 0.04 cfs with a priority date of June 1, 1965 at the source.
2. The channel downstream of Camp Creek supports a healthy riparian area which will be adversely affected if the applicant were to divert 0.63 cfs from the spring. The Forest Service is mandated to maintain wetlands in accordance with Executive Order 11990.
3. If the applicant diverts 0.63 cfs, Forest Service management options for livestock and wildlife will be limited.

Based on the above, the application should be denied.

Sincerely,

J. S. TIXIER
Regional Forester

NOTICE OF PROPOSED AMENDING OF PERMIT
11-7326

Notice is hereby given that Permit No. 11-7326 in the name of F.H. OR DOROTHY C. MC FARLAND, SODA SPRINGS, ID, was issued for the diversion of .63 cfs of water from an UNNAMED STREAM tributary of EIGHT MILE CREEK with the point of diversion being within the SESW, SEC 16, T 10S, R 42E, B.M. BEAR LAKE COUNTY; to be used to irrigate 30 acres of land within the E1/2SW1/4, SEC 16, T 10S, R 42E, B.M.

The permit holder now proposes to amend Permit No. 11-7326, changing the point of diversion to the SENE, SEC 21, T 10S, R 42E, B.M.

Any protest to the proposed amending of the permit must be filed with the Idaho Department of Water Resources, 150 Shoup Ave., Idaho Falls, ID, 83401, on or before OCTOBER 8, 1990

RE: Application for AMENDMENT OF A PERMIT NO. 11-7326

Dear Sir:

We are enclosing a copy of the applications that may be of interest to your department. Please review the applications and submit any comments you may have to our Department as soon as possible. The last date of protest is OCTOBER 8, 1990, and we are required to take final action shortly thereafter.

If we may be of further assistance, please feel free to contact us.

Respectfully submitted,

HAROLD W. JONES

RE: Application for Permit No. 11-7326

Dear Water Right Applicant:

The Department of Water Resources acknowledges receipt of your water right permit. This office is currently in the process of advertising the application in the News-Examiner on SEPTEMBER 20 & 27, 1990. The advertisement will be published for two consecutive weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested, you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our state office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Sincerely,

HAROLD W. JONES
Water Rights Supervisor

F. H. McFarland
2227 W. 1800 S.
Ogden, UT 84401

Dear Mr. McFarland:

Re: Permit No. 11-7326

The department reviewed the copy of the "original filing" which you forwarded in your letter dated December 7, 1988.

The filing is commonly termed a "Posted Notice of Water Right" and was a common method of claiming water prior to the time the department was authorized to administer the development of water rights through the permit process. Prior to 1903, posted notices were recorded in the county courthouses and literally posted on trees, buildings, etc. near the source of the water sought for use, hence the term "posted" notice.

Posted notices service as evidence of when a water use may have been developed, but not conclusive proof. If the water rights in your area are again adjudicated by the court and the use and date claimed by the posted notice were not included in the prior adjudication, you will have the opportunity to claim the earlier priority represented on the posted notice.

The department does not, however, have a procedure or the authority to change the priority of Permit No. 11-7326 to the date claimed on the posted notice.

Please feel free to contact me if you have additional questions.

Sincerely,

RITA I. FLECK
Secretary/Records Manager

RE: PERMIT NO. 11-07326

Dear Ms. Fleck,

In our telephone conversation on Nov. 28, 1988 you requested a copy of the original filing by L.M. Ward. We have both filed on the same spring in Little Mill canyon. Since no one has protested my filing on it and the water has stayed on the same ground, is it possible for you to acknowledge the 1902 filing date?

A copy of the original filing is enclosed.

Sincerely,

F. H. McFarland

 James E. Hart Co. Recorder by Elmina Hart Deputy

Notice of Water Right

Notice is hereby given that I L. M. Ward of Eight Mile
 Bear Lake County, State of Idaho, has this 22nd day of October
 A. D. 1902 appropriated and does hereby appropriate and claim
 all the waters of four certain springs three of which run
 into the stream known as Eight Mile at a point about
 forty rods north of the South East corner of Section twenty
 in Township ten South of Range 42 East of the Boise
 Meridian in the State of Idaho [The other spring is known
 as the spring in Little Mill Canyon and empties into
 Eight Mile at the North East quarter of the South West
 Quarter of Section 16 in Township and Range aforesaid.
 I hereby appropriate all the waters flowing from the said
 springs or to the extent of 75 miners inches)

MAY 29 1991

That the principal point of intended diversion the waters
 of all the springs comes together which is about the cen-
 ter of the South West quarter of the South East quarter of
 Section sixteen in same township and range as given
 above and where a copy of this notice will be posted.

That the place of intended use is North West quarter of
 the South East quarter and the South West quarter of the
 North East quarter of Section 16 in Township and Range aforesaid.

PROOF DUE NOTICE

RE: PERMIT NO. 11-07326

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before November 1, 1988. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Rita Fleck
Secretary/Records Manager

RE: PERMIT NO. 11-7326

DEAR PERMIT HOLDER:

ENCLOSED IS A COPY OF YOUR APPROVED APPLICATION FOR PERMIT. WE DIRECT YOUR ATTENTION TO THE CONDITIONS OF APPROVAL ON THE FOURTH PAGE.

BE SURE TO NOTE THE SPECIAL CONDITION REQUIRING YOU TO INSTALL A MEASURING DEVICE AND LOCKABLE CONTROLLING WORKS THAT WILL ENABLE THE WATERMASTER TO CONTROL YOUR RATE OF DIVERSION.

THE 1982 IDAHO LEGISLATURE ADDED A REQUIREMENT THAT AS A PERMIT HOLDER YOU MUST COMMENCE THE EXCAVATION OR CONSTRUCTION OF DIVERTING WORKS WITHIN ONE YEAR OF THE DATE THE PERMIT WAS ISSUED, AND YOU MUST PROCEED DILIGENTLY UNTIL THE PROJECT IS COMPLETED. THE ENCLOSED BLUE CARD MUST BE COMPLETED AND RETURNED TO THIS OFFICE AS SOON AS YOU COMMENCE CONSTRUCTION, NO LATER THAN ONE YEAR FROM THE DATE THE PERMIT WAS APPROVED.

WE HAVE ENCLOSED INSTRUCTIONS ENTITLED "MAKING PROOF OF BENEFICIAL USE". PLEASE READ THE INSTRUCTIONS CAREFULLY SINCE YOU MUST TAKE FURTHER ACTION TO DEVELOP THIS PERMIT INTO A LICENSE.

SINCERELY,

DAVID R. TUTHILL, JR., P.E.
SUPERVISOR, WATER ALLOCATION SECTION

ENCLOSURE

RECEIVED

INTER-DEPARTMENT MEMO — 1

FROM Jim Johnson *ji*

DATE November 21, 1983

TO File 11-7326

SUBJECT Application for Permit

The pre-permit exam states that the unnamed stream within the Camp Spring drainage flows to within 50' of Eight Mile Creek then sinks into the ground. The exam was made on 11-4-1983 which may be at the lowest flow period of the year.

The runoff characteristics of the Bear River Drainage shows that wide ranges in surface water runoff occur. There are probably times in the spring or early in the irrigation season that the unnamed stream is tributary to Eight Mile Creek.

A condition should be added to the permit which makes the use of the water subject to watermaster control.

REMARKS & OPINIONS:

Applicant states he talked to some
8 mile Creek water users before making application. These individuals
told him they were not concerned as Camp Spring drainage did not
reach 8 mile Creek.

RE: Application for Permit No. 11-7326

F.H or Dorothy C. McFarland
P.O. Box 811
Soda Springs, Idaho 83276

Dear Applicants:

Advertising of your application, to appropriate water from a non-tributary stream for irrigation and stockwater, has been completed and no protests were filed opposing its approval. However, as a matter of policy, the Department conducts pre-permit field inspections on surface water applications within the boundaries of a water district. The purpose of the exam is to confirm the location for the point of diversion and inspect the source of water described on the application.

One our our staff will be working in the Soda Springs area for the next few weeks and would be available to do the exam. However, since these exams are normally scheduled only one or two days in advance, we need to know a telephone number where you or a representative can be contacted. If there is no reasonable way to establish communications by telephone, please provide a listing of dates when you would be available to participate.

Your prompt attention to this matter will be appreciated.

Respectfully submitted,

ERNEST CARLSEN
Assistant Regional Supervisor

INTER-DEPARTMENT MEMO — 1

FROM Ernest.

DATE 10-17-83.

TO #11-7326.

SUBJECT Prepermit Exam:

Prior to final action on this application we need to determine if the source is a tributary of Eight Mile Creek. The U.S.G.S. quad map shows a stream channel in the SE $\frac{1}{4}$ SW $\frac{1}{4}$ Section 16 Twp. 10S. Rge 42E. that flows into Eight Mile Cr.
