ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. 11-7185, and said application is hereby approved.

1. Approval of said application is subject to the following limitations and conditions:

- a. SUBJECT TO ALL PRIOR WATER RIGHTS.
- b. Proof of construction of works and application of water to beneficial use shall be submitted on or before August 1, 19 85.
- c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.
- d. Other: (1) Return water shall be treated to insure that the effluent meets
Idaho Water Quality Standards.

OF FISH PROP. FROM MARCH 1 TO : UTAH POWER & LIGHT COMPANY
DECEMBER 1 OF EACH YEAR. :

APPLICATION NO. 11-7185

COMES NOW the protestant UTAH POWER & LIGHT COMPANY (Utah Power) and protests the Application of Roy Walker

1. Utah Power holds Water Rights decreed in the matter of Utah Power & Light Company vs. The Last Chance Canal Company, Limited, et al, In Equity No. 203, July 14, 1920, and Utah Power & Light Company vs. Richmond Irrigation Company, et al, February 21, 1922, as well as other rights in the Bear River.

2. The Bear River below Stewart Dam is fully appropriated.

3. Roy Walker filed an Application with the Office of the Idaho Department of Water Resources numbered 11-7185 seeking to appropriate 3.0 ~~acre~~ ^{acre} feet ~~per second~~ of water at points of diversion specified in said Application.

4. The granting of the Application of Roy Walker for the appropriation of 3.0 ~~acre~~ ^{acre} feet ~~per second~~ of water would adversely affect the aforementioned water rights of Utah Power & Light Company.

WHEREFORE, protestant prays that the Application of Roy Walker be denied inasmuch as there is no unappropriated water in the proposed source and the proposed use will impair existing rights.

Dear Mr. Carlson,

We have reviewed the proposal for three acre feet of water from Bailey Creek for fish cultural purposes and have the following comments:

Mr. Walker wants to build a pond on Bailey Creek where he hopes to raise fish. Consequently, this application carries with it an indirect proposal to develop a private fish pond. This fish culture proposal will be reviewed and either approved or be denied by our office.

We recommend that this permit be denied as we feel it is in violation of Idaho Code 36-706 regarding the construction of ponds on streams. In addition, it may be in violation of Idaho Code 36-906 regarding fish passage structures.

Thank you for the opportunity to review this proposal at this time.

Sincerely,

IDAHO DEPARTMENT OF FISH AND GAME

Re: Application for Permit No. 11-7185

Dear Mr. Carlson:

I am in receipt of Mr. Roy Walker's letter dated July 11, 1980, a copy of which is enclosed, in which he indicates that his only intent by the application is to construct a small reservoir. He indicates that he does not intend and will not divert any water for consumptive or other purposes from the reservoir. In light of these representations, we have no objections to the department issuing the subject permit.

If you have questions regarding the above, please contact us at your convenience.

Very truly yours,

Dear Sir ;

You have protested the application by Roy Walker to obtain a permit from the State of Idaho to enlarge a section of Bailey Creek for the purpose of creating a small fishing reservoir. It is requested that you withdraw your protest.

The protest which you have filed with the State of Idaho states that my application wishes to appropriate 3.0 acre feet of water and that a point of diversion will affect your water rights. I agree. It would, but this is not the intent of my application. The only intention is to widen and deepen the existing water channel. No appropriations are intended and certainly no point of diversion is involved.

I have enclosed a copy of the letter from the State of Idaho which states the criterium which they will use in deciding the case, if we can not resolve our differences in 20 days. The only point of contention which I can see is Item No. 1, which will decide if the quantity of water will reduce existing water rights. It is my belief that if existing brush and willows are removed from this area when the reservoir is created, that there may be a saving of water. However, even if there is not, the amount of water being stored is extremely small.

Please reconsider this matter. It is not my intent to change existing water rights or appropriate water which is not mine. Bailey Creek simply flows through my property and I would like to have a small fish pond.

Sincerely,

Roy Walker

Dear Mr. Walker:

Enclosed is a copy of a protest filed against the issuance of a permit pursuant to your Application No. 11-7185. The Department suggests you contact the protestant directly in an effort to determine the nature of the protest and to attempt to resolve the protest.

If you do not advise us within twenty (20) days that the protest has been resolved, the matter will be scheduled for conference and/or hearing. At such a conference and/or hearing, the following are the principle items the Department can consider in either approving or denying the application for permit (Section 42-203, Idaho Code):

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purpose intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?
5. Will the proposed use under this permit conflict with the local public interest?

If this office can be of further assistance, please contact us.
