WATER RIGHT LICENSE

License of Water Right No. 11-7056 Priority April 8, 1974 Amount 2.21 cfs

THIS IS TO CERTIFY, that M. Bryant Robison & Son
of Montpelier, Idaho, has complied with the terms and conditions of Permit
No. 11-7056 issued pursuant to Application for Permit dated April 8, 1974,
and has submitted proof to the Department of Water Resources on April 26, 1979,
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 2.21 cfs of water from a groundwater source,
tributary to _____, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume
<u>Irrigation</u>	<u>from April 15 to October 15</u>	<u>at 2.21 cfs</u>	<u>and 498.0 acre feet</u>
_____	_____	_____	_____
_____	_____	_____	_____

(both dates inclusive)

Subject, however, to the condition that no more than 2.21 cfs of water be diverted at any one time, and
that the amount of water so diverted and to which such right is entitled and confirmed for the purpose
aforementioned and is limited to the amount which can actually be beneficially used and shall not exceed
498.0 acre feet per year, said waters to be diverted within the NW $\frac{1}{4}$ SW $\frac{1}{4}$, Section 8, Twp.
12S, Rge. 44E in the County of Bear Lake

Description and location of place of use:

Total number of acres irrigated 166

This right when combined with Right No. 11-7076 shall not exceed 2.21 cfs.
This right when combined with all other rights shall provide no more than 0.02
cfs per acre nor more than 3.0 afa per acre for the lands above.

NOTE: Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho
Code, or the applicable Idaho Law. This right may be forfeited by five years of non-use.

The right to the use of the water hereby confirmed is restricted and appurtenant to the lands or place of use
herein described, and is subject to all prior water rights, as provided by the laws of Idaho.

Witness the seal and signature of the Director, affixed at Boise, Idaho, this 6TH day of
JUNE, 19 83.

Acting for the Director

BEFORE THE DEPARTMENT OF WATER RESOURCES
OF THE
STATE OF IDAHO

IN THE MATTER OF CHANGING THE MEASURING
DEVICE REQUIREMENT FOR PERMIT NO. 11-7056

ORDER

WHEREAS, the above numbered permit was approved with the condition that a measuring device of a type approved by the Department be permanently installed and maintained as part of the diverting works; and,

WHEREAS, on July 1, 1978, the Department adopted a new water measurement condition which states: "An access port or other device as specified by the Department shall be installed by the permit holder to provide for the installation of measuring equipment and the determination of the rate of diversion by the Department"; and,

WHEREAS, the former condition required the permit holder to purchase and install a measuring device or hire a professional engineer to certify the rate of diversion; and,

WHEREAS, the measuring device condition effective July 1, 1978, requires less capital expenditure by the permit holder; and,

WHEREAS, to be equitable to holders of permits issued prior to July 1, 1978, the new condition should be retroactive;

NOW THEREFORE, it is hereby ordered that the condition of approval of this permit related to water measurement is hereby changed as follows: "The permit holder shall either install a measuring device or provide a certified measurement by a professional engineer or install an access port or other device as specified by the Department".

Dated this 18th day of August, 1978.

Gentlemen:

On April 4, 1983, this Department sent you a letter outlining the findings of the works covered by your Permit No. 11-7056. Upon further review we find that an error was made on the number of acres irrigated and the annual volume.

The license will be issued with the following information:

Amount of water that can be recognized as beneficially used under Idaho law: 2.21 cfs Source: groundwater

The maximum quantity diverted shall not exceed 498.0 acre feet per year.

Point of diversion: NW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 8, Twp. 12S, Rge. 44E, Bear Lake Co.

Beneficial use: Irrigation of 166 acres within the N $\frac{1}{2}$ SE $\frac{1}{4}$, SE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 7; N $\frac{1}{2}$ SW $\frac{1}{4}$, SW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 8; Twp. 12S, Rge. 44E

Priority date established: April 8, 1974

Conditions: This right when combined with Right No. 11-7076 shall not exceed 2.21 cfs. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 3.0 afa per acre for the lands above.

If you do not concur with these findings please contact us within 10 days, otherwise a water license will be issued as set forth above.

Sincerely,

JIM JOHNSON

Bennington, ID 83219

Gentlemen:

One of the conditions of approval of your water Permit No. 11-7056 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before May 1, 1979. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise, the permit will lapse and be of no further force or effect.

The enclosed Order changes the measuring device condition of approval on your water right permit.

The changed condition should be less restrictive and provide more flexibility to you in the development of your water right system. The specifications related to the size and location of the access port will be available upon request from the Department, as soon as the Department's measuring equipment is obtained.

If you have questions regarding this matter, please contact this office or our regional offices.

Dear Sir,

In regards to the protest we sent you on Bryant Robinson & Son's application for a water permit to dig a well, we have talked with Bryant and he showed us where he intended to dig the well and we have decided to withdraw our protest. Would you let Bryant know it is O.K. to go ahead if he doesn't put a well to the East of our property.

Next time you are in this area I would like to talk to you about future applications.

Sincerely,
Glen H Smith

Gentlemen:

We have enclosed a copy of the protest filed against the issuance of a permit pursuant to your Application No. 11-7056. You should be aware that the following are the principle items we can consider at a conference and/or hearing in either approving or denying an application for permit (Section 42-203, Idaho Code):

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purposes intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?

The Department cannot allow a permit for irrigation purposes which would entail the use of more than a continuous flow of 0.02 cubic feet per second of water for each acre of land, or an annual amount of 5 acre feet for each acre of land, unless the applicant can show that more is required. (Section 42-202, Idaho Code)

A permit issued by this office is subject to all prior water rights and does not in any way convey or establish a right-of-way over private or governmental lands. Any right-of-way or easement must be obtained by the applicant through action outside of the water right proceedings.

You will be notified at a later date as to the time and place set for a conference and/or hearing to discuss the matters of protest. Legal counsel is not mandatory at any proceeding before the Department, although you may desire to employ an attorney in your behalf.

If we may be of any assistance, please contact us.

Very truly yours,

NORMAN C. YOUNG

Dear Mr. & Mrs. Smith:

This is to acknowledge receipt of your protest to issuance of a permit pursuant to the above referenced application. The following are the principle items we can consider at a conference and/or hearing in either approving or denying an application for permit (Section 42-205, Idaho Code):

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purposes intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?

The Department may reject an application and refuse issuance of a permit, partially approve the permit, approve the permit for a quantity of water less than applied for, or approve the permit subject to special conditions.

A permit issued by this office is subject to all prior water rights and does not in any way convey or establish a right-of-way over private or governmental lands. Any right-of-way or easement must be obtained by the individuals concerned through action outside of the water right proceedings.

You will be notified at a later date as to the time and place set for conference and/or hearing to discuss the matters of protest. If we may be of further assistance, please contact us.

Very truly yours,

NORMAN C. YOUNG

Dear Sir:

In regard to the Notice of Application of Water Permit published in the News Examiner, Montpelier, Idaho, April 18 and April 25, 1974, in regard to Application No. 11-7056 for a permit to appropriate 3.0 c.f.s. of water from an underground source by means of a well in the Northeast $\frac{1}{4}$ of the Southeast $\frac{1}{4}$ of Section 7, Township 4 South, Range 14 East, EBM, Bear Lake County. We are the property holders adjacent to the proposed location of this well and this is to serve as our objection to the issuance of this permit.

It has been our past experience that the shallow depth at which water is obtained in our area drains and dries existing springs in the surrounding areas and as these are our primary source of water for our culinary and irrigation use, we ask that a formal hearing be held to determine the feasibility of the aforementioned proposed well and also for the protection of our existing water rights.

We would appreciate having any formal forms necessary forwarded to us, and if necessary we will file a formal injunction through the District Court. Your early attention to this matter will be appreciated.

Mr. Glen Smith
