1. Measurement Calculations

a) Field Measurement Calculations (Include theoretical capacities and system capacity)

No hp data could be found but Dans Pump Service in Am. Falls would recommend that 8 homes taking water from a well 270' deep would need 5hp to adequately serve.

$$Q = \frac{Shp (8.814) (80\%)}{270' \text{ lift} + (2.308 \times 35 \text{ psi})}$$

$$= \frac{35.256}{350.78} = 0.10 \text{ cfs theoretical capacity}$$

b) Volume Calculations for Irrigation:

$$V_{I.R.} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) = \underline{\hspace{2cm}}$$

$$V_{D.R.} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 = \underline{\hspace{2cm}}$$

$$V = \text{Smaller of } V_{I.R.} \text{ and } V_{D.R.} = \underline{\hspace{2cm}}$$

c) Volume Calculations for Other Uses:

We can only use 6 homes in our calculations
(limited by permit)
 $6 \text{ homes} \times 0.6 \text{ cfs} = \underline{3.6 \text{ cfs}}$

Dear Mr. Allred:

Dr. Wilkinson just forwarded to me the enclosed letter of December 6, 1978 from your office.

I have filled out the form and it is enclosed. We would hope that the permit can be reinstated.

I am aware that ignorance of the law is no excuse, but I had no knowledge that our permit had to be extended until we received your notice of default. As you are aware the property was purchased from the Stalder's and they did not inform us of this requirement.

Presently our subdivision has been approved and accepted by all the necessary governmental agencies, our water and sewer collection systems have been installed and we are presently waiting for the Power Co. to install the underground power so that we can install our pumps and finish up our systems. Four families are planning to build homes on the property this coming year.

Thank you for your consideration in this matter and if any additional information is needed please notify me.

Sincerely,

David M. Horne,

Dear Mr. Stalder:

One of the conditions of approval of your water Permit No. 11-7045 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before December 1, 1978. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise, the permit will lapse and be of no further force or effect.
