WATER RIGHT LICENSE

License of Water Right No. 11-7038 Priority July 31, 1973 Amount 0.04 cfs

THIS IS TO CERTIFY, that RONALD D. WELLS
of Soda Springs, Idaho, has complied with the terms and conditions of Permit
No. 11-7038 issued pursuant to Application for Permit dated July 31, 1973,
and has submitted proof to the Department of Water Administration on August 12, 1974,
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 0.04 cfs of water from a ground water source,
tributary to _____, and that the permit holder has applied to a beneficial use &
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume
<u>Domestic</u>	from <u>Jan. 1</u> to <u>Dec. 31</u>	at <u>0.04</u> cfs and	<u>1.2 acre feet</u>
_____	from _____ to _____	at _____ cfs and	_____
_____	from _____ to _____	at _____ cfs and	_____

(both dates inclusive)

Subject, however, to the condition that no more than 0.04 cfs of water be diverted at any one time, and
that the amount of water so diverted and to which such right is entitled and confirmed is for the purpose
aforementioned and is limited to the amount which can actually be beneficially used and shall not exceed
1.2 acre feet per year, said waters to be diverted within the NE $\frac{1}{4}$ NW $\frac{1}{4}$ of Sec. 19,

Dear Mr. Wells:

One of the conditions of approval of your water Permit No. 11-7038 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before September 1, 1974. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Dear Mr. Wells:

Attached herewith is departmental receipt No. 10285 in the amount of \$10.00 for your application for permit which was received in this office this date. Because of the changes, we have taken the liberty of retyping the application and we would appreciate your signing it exactly as your name appears in Item 1 and return is as soon as possible.

It is the responsibility of the water user to file the necessary application for any water rights in connection with a new well. Well Driller's are required by State law only to file a driller's report (well log) listing the details of the construction of each well. This is a separate requirement which has nothing to do with water rights. It is not mandatory that a water right filing be made for a well to be used only for a single family domestic use. This use could include animals normally associated with a household and up to a $\frac{1}{2}$ acre of irrigation land and gardens. Although a filing is not required, it is still advisable to have the right recorded. I am enclosing a "Water Users Handbook" for your information.

Very truly yours,

NORMAN C. YOUNG
District Engineer

Dear Sirs;

May I take this chance to Thank you for helping to take care of this small matter.

I am still not clear as to whether the well driller filed with you or not. Would you please let me know the proper procedure for taking care of this matter as I may drill a well for irrigation purposes and I also have a friend who is about to drill. I was told by the driller that he filed with you and so it was unnecessary for the customer to obtain a permit. This I might add is the opinion of a couple of friends also.

Thanks again,

Ronald D. Wells.

Please find \$10.00 check
to cover permit fee.

Dear Mr. Wells:

We are returning your application for permit to appropriate ground water as there is a filing fee of \$10.00 required before the application can be accepted. The application appears to be in proper form for processing; although you may wish to increase the rate of diversion to 0.04 c.f.s. which is our "present rule of thumb" value for a single family domestic use.

If this new well is being drilled merely to replace an old well that will be abandoned, you may wish to file a claim to a water right instead of this application. The claim would have the advantage of saving information concerning the date of first use, but does not actually record your water right.

If this office can be of any assistance to you, do not hesitate to ask.

Very truly yours,

NORMAN C. YOUNG
District Engineer

Dear Sirs;

I was told by the person drilling my well that he would file with you on this well. I have recieved a little feed back and has caused me to wonder if things are right.

I have filled this form out as correctly as I can with the knowledge I have of the situation.

Also the well was drilled along side of an old but smaller well. Would it be to my advantage to file a claim on the water and history of that old well?

Sincerely,

Ron Wells
