RE: Field Exam No. 11-7027

DATE: February 23, 1978

The exam report indicates that a 50 Hp pump and motor was installed at the point of diversion. As a result, the capacity of this system was projected to be in excess of 0.20 cfs and a measuring device was required as a condition of licensing.

The field examination revealed that a 5 Hp. submersible pump had been installed and that the theoretical capacity of the system was less than this value.

$$Q = \frac{(H.P.) (\text{Efficiency of pump})(K_1)}{(\text{lift}) + (\text{psi})(K_2)} =$$

$$\begin{aligned}\text{Lift} &= \sim 85' \\ \text{psi} &= 40 \text{ psi}\end{aligned}$$

$$\text{Where: } K_1 = 8.814$$

$$K_2 = 2.301$$

Efficiency of submersed system .70 or 70%

$$\frac{(5) (.70) (8.814)}{(85) + (40) (2.301)} = .17 \text{ c.f.s.}$$

$$.17 \text{ c.f.s.} < .20 \text{ c.f.s.}$$

Therefore, I recommend that the measuring device requirement be withdrawn and license issued for the amount recommended on the rough draft license.

SYSTEM DESCRIPTION:

Groundwater is diverted from a 210' deep well having a 10" diam casing. Static water level is approximately 2' below L.S.D. and the well drawdown to approximately 85' in 2 hrs of pumping at 10 gpm. The water is diverted by a 5 H.P. submersed pump & motor with an operating range between 40-60 psi. Pressure is maintained by 7-100 gal capacity Piz-Air pressure tanks.

REMARKS:

System shown & described by Mr. Izatt (foreman for Bear Lake West Development Co). (Although 27 units (cabins) were proposed for this portion of their development only 3 cabins were constructed and diverting water for domestic beneficial use.

Re: Permit No. 11-7027

Dear Mr. Tapper:

One of the conditions of approval of your water Permit No. 11-7027 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before August 1, 1977. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.
