DEPARTMENT OF WATER RESOURCES

CLAIM TO A WATER RIGHT

Under the provisions of Section 42-243, *Idaho Code*, any person claiming a water right established by diversion and application of water to beneficial use must file a claim with the Department of Water Resources. **The filing of this claim does not confirm the water right claimed.** Water rights represented by a valid permit, license, decree, or previous claim are exempt from this requirement, as are uses of water for domestic purposes as defined in Section 42-111, *Idaho Code*. A filing fee must be submitted with this claim. See the instruction sheet to determine the appropriate fee.

RE: Claim No. 11-04361, 11-04362 and 11-04363

Dear Applicant:

We have received the exceptions dated July 8, 1999, filed against the above referenced claims to a water right. The following is a quote from the provisions of the Idaho Code under which these claims have been filed:

42-244. Recording of claims by department - Corrections. - At any time after the filing of a claim under the previous section, any person who disagrees that a right has been established as set forth in said claim may file an exception thereto in duplicate, in affidavit form, accompanied by such proof as said person deems appropriate. An exception filed shall be made a part of the file of the claim in the department of water resources and shall be considered the same as other evidence in said file. A copy of an exception filed shall be forwarded to the claimant by the department of water resources. Such claims may be corrected by the claimant only by filing of an amended claim in the same form as the original, which shall be recorded and numbered by the department the same as the original, and for which no additional filing fees shall be required.

Only the above action has been contemplated by the Idaho Legislature and we are not authorized to hold hearings or evaluate for conformation or final censorship of the described rights.

If you have any questions regarding this matter, please contact us.

Very truly yours,

HAROLD W. JONES
Water Right Supervisor

2. PacifiCorp owns water rights in the Bear River, the tributaries to Bear Lake, and Bear Lake decreed in the matter of *Utah Power & Light Company v. The Last Chance Canal Company, Limited, et al*, in Equity No. 203, July 14, 1920, and *Utah Power & Light Company v. Richmond Irrigation Company, et al*, February 21, 1922, as well as other rights in the Bear River below Claimant's proposed point of diversion.

3. Diversion of tributary inflow to Bear Lake, such as that claimed by the Claimant, will directly impact PacifiCorp's water rights in Bear Lake. When PacifiCorp is required to release Bear Lake storage water to satisfy its contracts, less water will be available to replace it in Bear Lake.

4. PacifiCorp has entered into many contracts with irrigators in Idaho and Utah along the Bear River, for supply of supplemental storage water from Bear Lake when the natural flow of the Bear River is insufficient to satisfy existing water rights. However, during drought periods, high irrigation demands cause the level of Bear Lake to drop significantly, endangering PacifiCorp's ability to continue to deliver supplemental irrigation water pursuant to its contracts.

5. In addition to diminishing the quantity of Bear Lake water available to satisfy prior existing water rights and contracts, PacifiCorp believes that granting the above-referenced claim would conflict with the local public interest in the three following areas by reducing surface water inflow into Bear Lake: First, reliance by existing users on supplemental irrigation water delivered from Bear Lake will be impaired. Second, when the level of Bear Lake drops in extended droughts, recreation and other non-consumptive uses at the lake are adversely affected. The Idaho State Parks & Recreation boat launch becomes unusable; the State park receives little use due to its distance from the water; facilities built with State funds are unusable, and visitor days and the attendant revenue they produce for the State plummet. The local economy at the lake suffers. Third, traditional habitat for indigenous fish in Bear Lake is decreased. Other wildlife species which depend on the lake will have similar problems due to habitat loss. The spread of noxious weeds and tamarisk is accelerated along the lake shore.

WHEREFORE, PacifiCorp respectfully states this exception to the above-referenced applications and requests that they be denied.

Re: Claim No. 11-04362

Dear Claimants(s):

The Department of Water Resources has completed the advertising of your claim to a water right, and no further action is authorized under Section 42-243 and 42-244, Idaho Code. Your claim will be retained in our files and will be available at any time for use by you or the court.

The filing and advertising of the claim does not confirm the water right claimed, but will serve to record and preserve the information and the evidence which you included in your claim.

If, at a later date, you find that you have additional information or supporting evidence that you would like to have included with the claim, you may have the information or evidence added at any time. Please refer to the claim identification number when corresponding with the office.

We are enclosing a copy of your claim for your records. If you have questions, or if this office may be of further assistance, please feel free to contact us.

Sincerely,
