Dear Water Right Applicant:

The Department of Water Resources acknowledges receipt of your water right permit. This office is currently in the process of advertising the application in the News-Examiner on 12-19 & 26-91. The advertisement will be published for two consecutive weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

NOTICE OF CLAIMS TO WATER RIGHT

The Following claim(s) have been filed on water rights created by diversion and beneficial use:

Abstract—The purpose of this study was to determine the effect of a 10-week training program on the heart rate (HR) and energy expenditure (EE) of sedentary, middle-aged women. The subjects were 15 women, 40 to 50 years of age, who were sedentary and had no cardiovascular or pulmonary disease. The subjects were randomly assigned to a 10-week training program or a control group. The training program consisted of three sessions per week of 30 minutes of moderate-intensity aerobic exercise. The control group consisted of 15 women who did not exercise. The HR and EE were measured at rest and during exercise at the beginning and end of the 10-week training program. The HR and EE were significantly higher in the training group than in the control group at the end of the 10-week training program. The HR and EE were significantly higher in the training group than in the control group during exercise at the end of the 10-week training program. The HR and EE were significantly higher in the training group than in the control group during exercise at the end of the 10-week training program.
