Gayle Dean Hunt
Attorney at Law
2121 South State
Salt Lake City, UT 84115

Dear Mr. Hunt:

Our office acknowledges receipt of Assignment of the above referenced water rights. However, in reviewing the files I find that the water rights are Claims.

In Idaho, a claimed water right is considered real property and is acquired when the property to which it is appurtenant to is purchased. Proof of owning the land is proof of owning the water-right claim.

Therefore, I have put the Assignment into the files for future reference only and no other action will be taken. I have also enclosed copies of the Claims for your records.

If you have any questions please feel free to contact our office.

Sincerely,

Dear Mr. Hunt:

I have reviewed the enclosed claims and determined that the land list for Winchell Creek did not correspond with the plat maps, and therefore, find it necessary to return them, along with your check No. 35771 for \$40.00

Furthermore, since your clients appear to be interested in claiming storage rights as indicated during our telephone conversation, I have taken the liberty of reviewing both files and completing two rough draft claims for each creek, separating natural flow and storage rights based on priority. These claims are also enclosed and should be examined to insure their accuracy. The rough draft claims are meant to reflect the manner in which the various rights were developed.

After reviewing the rough drafts and making any corrections you feel are necessary, retype the claims on the blank forms also enclosed, and return them to this office for processing. Each claim should be accompanied by a \$20.00 statutory filing fee. Should you have any questions, feel free to contact this office.

Respectfully submitted,

ERNEST M. CARLSEN

Re: Water applications, copies attached

Dear Mr. Carlsen:

Following our conversation I made a couple of changes on the map to make certain they conform to the description.

I also filled in the acre feet of storage--this reflects same storage as declared on the older claim to water right--forms enclosed also.

If the situation in fact requires new forms for the storage aspect, please confirm further and I will complete and have signed the new forms, on the storage matter, as we discussed. At any rate, please go ahead and process these at least as to the stream rights.

Enclosed our check for \$40 as requested.

Very truly yours,

Dear Mr. Hunt:

In reviewing the two claims to water rights you recently submitted in behalf of your clients, Betty Largilliere Burke, et. al., the Department finds it necessary to return the claims, along with your check No. 35074 in the amount of \$20.00. The claims are being returned because the legal description for the place of use as described in Item 6 is not consistent with the attached plat maps under Item 8. It appears the plat map for lands irrigated from Winchell Creek was attached to the claim for water from Largilliere Creek and the plat map for lands irrigated from Largilliere Creek was attached to the Winchell Creek claim.

Furthermore, if your clients wish to claim storage rights, they will need to indicate the total quantity of water to be stored in each reservoir, as ____ AF for "storage for irrigation," and then the volume of water to be diverted from storage for irrigation as ____ AF for "irrigation from storage." Since this will probably require completing new claims, we have enclosed two blank claim forms with instructions for your convenience.

Beginning July 1, 1978, the Idaho State Legislature adopted a new fee schedule for claims and applications received by the Department. This schedule increased the filing fee for claims to \$20.00 each. When the above mentioned items have been completed and each claim has been signed and notarized, return them to this office with the statutory filing fee totaling \$40.00.

Respectfully submitted,

Dear Mr. Racine:

I recently received the two claims to water rights that you submitted in behalf of your clients. I am returning these documents to you with the statutory filing fee as we can not accept the claims on the old form. Also, please find enclosed two new forms for your completion. As you can see the new form is more condensed.

It is necessary that you specify the amount of water for each particular use. The conjunction, and/or, should appear between each claimant's name if only one person is signing the documents. In reviewing the affidavits submitted, we find no evidence of ownership for Linda Largilliere Johnson. It will be necessary for you to submit the information needed to determine under which authority Ms. Johnson is signing this document.

Please transpose the necessary information and resubmit the new claims with the filing fee.

If you have any further questions, please feel free to call me.

Very truly yours,

ANTHONY R. KOZLOWSKI
