RE: Claim to a Water Right No. 11-4048 MAX R. KULICKE

Mr. Doyr Cornelison
Bennington,
Idaho 83219

Dear Mr. Cornelison:

As you are probably aware, a claim to a water right represents evidence that the claimant wishes to have preserved for future reference. If the evidence claimed is in error then it is necessary to submit an exception to this claim to point out these errors. An exception must be filed in affidavit form and signed in the presence of a notary public.

If you feel the evidence of the right Mr. Kulicke is claiming is in error, then you may wish to file an exception. We, therefore, are returning two blank affidavit forms with your letter of April 8, 1976.

If you have any questions concerning this matter, please feel free to contact this office.

Very truly yours,

RE: Claim to a Water Right No. 11-4048

DATE: March 29, 1976

There are some peculiarities that should be noted:

1. Point of diversion - point of diversion as stated in the claim is located at the spring with a natural drainage being the conveyance system. I am not sure this constitutes diversion of said waters. The point of diversion may actually be in two locations at the three stockwatering ponds.
 2. Rate of flow - the Department recognizes 0.03 c.f.s. as a rate of diversion for up to 100 head of beef cattle. This claim consists of 0.15 c.f.s. Appears to be quite Q-excessive.
 3. This claim may not be recognized as Section 42-212 and 42-213, Idaho Code indicates a claim may not have been required.
