STATE OF IDAHO
DEPARTMENT OF RECLAMATION
CLAIM TO A WATER RIGHT

Established by Diversion and Application to Beneficial Use

Under the provisions of Section 42-225a, Idaho Code, a person may file a claim to a right to use water which has been established by diversion and application to beneficial use. **The filing of this claim does not confirm the water right but will serve for information purposes only.** It may, however, become the basis for future adjudication of the water right by the Court.

(Please refer to the instructions on the back of this form)

1. Name of claimant South Liberty Irrigation and Manufacturing Company
post office address Ovid, Idaho

2. The point of diversion is in SW $\frac{1}{4}$ of SE $\frac{1}{4}$ Section 31 Township 12 South
Range 43 East B.M. located on Mill Creek
(name of source)
tributary to Ovid Creek then Bear River in Bear Lake County.

3. Dates of priority claimed: list the priority for each separate quantity that you claim. Priority dates should be based upon the earliest diversion of the water which has resulted in continued beneficial use since that time. If there has been an interval of five years or greater when the water was not beneficially used for the same purpose as originally appropriated, the priority that you claim should date from the time that the water was again beneficially applied following the period of non-use.

a. Date of priority claimed:

1885 amount: 26.68 c.f.s. or _____ acre feet
_____ amount: _____ c.f.s. or _____ acre feet
_____ amount: _____ c.f.s. or _____ acre feet
Total claimed 26.68 c.f.s. or _____ acre feet.

b. Explain the purpose for which the water has been used and the time during the year when you have used the right claimed:

use Irrigation period of use from April 1 to Dec. 31 (both dates inclusive)
use _____ period of use from _____ to _____ (both dates inclusive)
use _____ period of use from _____ to _____ (both dates inclusive)
use _____ period of use from _____ to _____ (both dates inclusive).

4. Description of diverting works:

a. Surface water diversion dam and/or headgate: material is composed of _____
_____ ; length is _____ feet; height is _____ feet;
width at bottom is 8 feet; width at top is 9 feet; explain any increase in diversion capacity since structure was first built, giving dates and estimated capacities if known _____

b. Underground water diverting works: is well flowing or pumped _____ ; depth of well is _____ feet; diameter of well is _____ inches; type of pump is _____
capacity of pump is _____ g.p.m.; name and address of well driller is _____
_____ ;

11-4021

c. Conveying works: length of ditch to place of use is 6 miles; width of ditch at top is 9 feet; width of bottom of ditch is 8 feet; depth of water is _____ feet; material through which ditch passes is _____; maximum length of pipe line to first place of use is _____ feet; diameter of pipe line is _____ inches; type of pipe _____; grade of pipe per 1000 feet is _____.

Please explain any changes or increase in size of conveying system since water was first appropriated, giving date and dimensions if possible _____.

total capacity of reservoir is _____ acre feet; active capacity of reservoir is _____ acre feet;
year construction commenced _____; year completed _____; date first used _____;
period of storage is from _____ to _____; is reservoir drained each year _____;

has there been any enlargement of the reservoir since it was first built _____, if so, give dates and describe _____

ss.

all attached information and certifies that all statements are true and accurate to the best of his knowledge.

BE IT KNOWN that the undersigned hereby makes claim to a water right as described above together with

9. Remarks: please explain any details of your claim which you feel need clarification or additional explanation

giving dates and quantities

and any details regarding the initiation of the right or subsequent later expansion. Be as specific as possible,

8. Where water is used for other purposes not above enumerated, give the nature of use, the extent of use,

name of town supplied None

7. Where water is used for domestic or municipal purposes give number of families served Not used

6. Where water is used for stock watering, give number of each kind of stock watered

interests in the creek Ovid Ditch 2/16
Sharon Canal 5/16, Liberty town 2/16,

c. Do you get water through a ditch owned by several users? No
If yes, give the name of the ditch
The other users and their respective

INSTRUCTIONS

Your claim should set forth all necessary information to describe your claimed right. Failure to give enough information may make your claim of little value. Some of the items in the form may not apply to your situation. Please use additional sheets if space provided is not sufficient to fully answer the questions.

Paragraph No.

1. Give full name and post office address of person or company making the claim.
2. Describe the point of diversion by 40-acre subdivision. Give the name of the source, the drainage to which it is tributary if surface water, and the county in which the point of diversion is located. If there is more than one point of diversion, list others in the remarks section.
3. Give the priority dates and the quantities of water that you claim. You should accurately list the dates that you initiated each new use of the water. List separately the dates and amounts of water involved in each enlargement of the diversion. (Example: if you diverted 0.8 c.f.s. of water for irrigation on May 18, 1871, for the first time for use on 40 acres of land, and then later you enlarged the diversion by diverting an additional 0.4 c.f.s. of water to irrigate an additional 20 acres of land on June 1, 1901, your right should be described as follows:

Date of priority claimed:	May 18, 1871	amount:	0.8 c.f.s. or	acre feet
	June 1, 1901	amount:	0.4 c.f.s. or	acre feet
	Total claimed:		1.2 c.f.s. or	acre feet

Since the water was used for irrigation between April 1 and October 31 on that particular farm, part b. would be completed as follows:

use irrigation period of use from April 1 to October 31 (both dates inclusive). If the water had been used for any other purpose, you would have described the priority date, amount, use, and period of use in a similar manner.

4. Describe the diversion works and explain any changes since the right was first initiated.
5. If the water is used for irrigation, give the total acreage and list the lands irrigated by 40-acre subdivisions and complete the other questions.
- 6, 7, & 8. Describe any other uses of water.
9. In the remarks section, give any information or details that you feel are not fully covered or that need clarifying. You might explain your operation, where the water is returned to if for an industrial or non-consumptive right, the condition and temperature of the returned water, and any other information to help explain your claim.

You may wish to include as a part of your claim, affidavits of witnesses who are familiar with your right and who have a personal knowledge of the circumstances which you have described in your claim. You may submit maps, drawings, certified copies of posted notices which may have been filed in the county courthouse, water measurement records, or any other document which you feel will support your claim.

Your claim will be advertised in a county newspaper for two weeks. Exceptions to your claim which dispute the water right that you have described may be received by the Department of Reclamation and you will be provided a copy of such exceptions.

The fee for filing this claim with the Department of Reclamation, Room 107, Statehouse, Boise, Idaho 83701, is \$10.00.

R. Keith Higginson

Dear Sir:

In reply to notice of claim to a water right No. 11-4021, we the stockholders of Liberty town Irrigation Co. wish to protest the requested amount of water by the South Liberty Irrigation and manufacturing Co. We have always received the amount of $2\frac{1}{16}$ shares. we must have at least this amount for proper irrigation of the acreage involved. If any portion of the appropriated shares are taken elsewhere, our irrigated lands would soon be dry and unproductive.

11-4021

We feel that the appropriated portions that were originally established in 1885 are fair and in the best interest of all concerned. We therefore strongly protest the proposed water amount requested by the said water co.

Liberty Town Irrigation Co.

Mr. R. Keith Higginson
State Reclamation Engineer Department of Reclamation

Dear Sir,

As president of the Mill Canyon North Canal Co. I would like to protest the filing of the South Liberty Irrigation and Manufacturing Co. of 26.68 cubic feet per second of water from Mill Creek. They are only entitled to 7/16 of the entire creek. When the water was measured the last of July 1968 there was only 15 second feet in the entire creek. The water was measured by Lee Bunderson of Utah Power and Light Co. P

Please advise if further steps needs to be taken to stop this filing.

Sincerely,

Albert Miller

DEAR MR. HIGGINSON:

WE THE LIBERTY HILLSIDE CANAL CO. PROTEST THE
NOTICE OF CLAIM TO A WATER RIGHT NO. 11-4021 AS ADVERTISED
IN THE PARIS POST GIVEN BY THE SOUTH LIBERTY IRRIGATION
AND MANUFACTURING COMPANY. THE WATER FROM MILL CREEK
HAS BEEN DIVIDED IN 16ths FOR YEARS. SOUTH LIBERTY
IRRIGATION AND MANUFACTURING COMPANY HAS BEEN USING 7/16.
WE HAVE BEEN USING 2/16 AND OTHER COMPANIES HAS BEEN
USING THE REST. I AM SURE THERE WILL NOT BE ENOUGH WATER
IF THE SOUTH LIBERTY IRRIGATION AND MANUFACTURING COMPANY
IS GOING TO TAKE 26.68 CUBIC FEET PER SECOND AS WAS STATED.

SINCERELY

LIBERTY HILLSIDE CANAL COMPANY

Gentlemen:

In regard to the Notices of Claim to a Water Right, No. 11-4021, printed in The Paris Post August 8 and 15, 1968, I wish to file an exception.

As a stockholder in the Liberty Hillside Canal Co., I protest this claim because:

(1) According to the Water Master, Albert Miller, the claim for 26.68 cubic feet per second of water from Mill Creek by the South Irrigation & Mfg. Co., Ovid, Idaho, is ridiculous because after the flush water is gone in early spring there isn't this much water in the whole of Mill Creek.

(2) Mill Creek is the source of water for four major irrigation companies; Sharon Canal Co., Liberty Hillside Canal Co., South Liberty Irrigation and Mfg. Co. Ovid, Idaho, and Liberty Town Ditch.

(3) The present system of dividing the water has been in effect over 50 years to my personal knowledge, and old settlers and stockholders in the ditch companies say it has been much longer than this.

(4) If this claim should be granted, it would mean literally that all stockholders in three of the above mentioned canal or ditch companies would be deprived of irrigation water after the flush water is gone in the spring. This would affect approximately fifty families.

(5) I personally have been a stockholder in the Liberty Hillside Canal Company for thirty-nine years under the present system of dividing the water and I feel that legally and morally this is right and it should continue to be so divided. If this claim No. 11-4021 should be granted it would mean that neither I or the other farmers Except these irrigations from the South Liberty Irrigation and Mfg. Co. could any longer operate our farms to an advantage.

Help us maintain the water right we now have by refusing to grant the claim No. 11-4021.

Sincerely

Harold N. Pugmire

Re: Claim No. 11-4021
South Liberty Irrigation and Manufacturing Company

Mr. Dell W. Smith
Attorney at Law
Preston, Idaho 83263

Dear Mr. Smith:

We have received your letter of October 29, 1968 concerning the above referenced claim to a water right. Under the provisions of Section 42-225a of the Idaho Code, a person may file a claim to a water right to use water which has been established by diversion and application to beneficial use. The filing of this claim does not confirm the water, but serves for information purposes only. It may, however, become the bases for future adjudication of a water right by the court.

Therefore, the claim, under the existing statutes, has no means by which to perfect it to any type of a water right. The only means known to this department would be to use the information in the claim and go directly to the district court in an effort to quiet title to the water right.

If we can be of further assistance, please contact us.

Very truly yours,

Donald W. McEldowney
Appropriation Examiner

Dept. of Reclamation
State House Annex 2
Boise, Idaho 83707

Re: Claim #11-4021

Gentlemen:

Mr. David G. Parker of the South Liberty Irrigation and Manufacturing Company of Ovid, Idaho has contacted this office concerning the above claim and your letter dated October 22, 1968.

I have read the four objections filed in your office. I cannot see where any of these objections affect the filing by the above irrigation company.

They will admit and I think the application shows that the Hillside Irrigation Company, Ovid, Idaho has 2/16 of the water of Mill Creek; that Liberty Town Irrigation Company has 2/16; that the Sharon Canal Company has 5/16; and that the applicant above, the South Liberty Irrigation and Manufacturing Company has 7/16 of the said water.

Since the protests do not affect the application and your department has not set the matter down for hearing, this office would like to know what action should be taken by the applicant to perfect the application.

Very truly yours,

Dell W. Smith
Attorney at Law

Mr. Stanley Morgan, Watermaster
Liberty Town Irrigation Company
Liberty, Idaho

Dear Mr. Morgan:

We are in receipt of your letter of August 24, 1968 concerning the above referenced claim to a water right filed by the South Liberty Irrigation and Manufacturing Company.

Please be advised that the Department of Reclamation is forwarding a copy of your exception to the claimant as directed under Section 42-225 of the Idaho Code. The original exception will be filed in folder No. 11-4021.

Under the provisions of the Idaho Code, no further action in connection with your exception is contemplated under the Code.

Please contact us if we may be of further assistance.

Gentlemen:

Please be advised that the Department of Reclamation has received several objections to the above referenced claim. The objections were filed by the Libery Hillside Canal Company, Harold N. Pugmire, Secretary and Stockholder; Liberty Town Irrigation Company, Stanley Morgan, Water Master; Canyon North Canal Company, Albert Miller, President; and Liberty Hillside Canal Company, Marvin Hymas, President.

Pursuant to Section 42-225 A of the Idaho Code, the Department of Reclamation will file the original exceptions in your claim folder, and will forward the required copies of the exceptions of your attention. You should be further advised that under this section of the Idaho Code, no further action is contemplated by the Department.

Please contact us if we may be of further assistance.

Very truly yours,

Gentlemen:

Enclosed you will find a legal notice which we wish to have published once a week for two consecutive weekly issues of your newspaper. We have inserted the publication dates allowing ample time for you to submit us a galley proof for review before publication.

After sending us a galley proof, proceed with the publication on the dates we have inserted assuming the notice is correct. If we have any corrections, we will notify you before the first publication date. If you can not publish the notice on the proposed dates please contact us immediately.

An affidavit of publication must be submitted to the Department of Reclamation, along with the publication bill. In order to receive payment, the following certification must appear on the bill:

I hereby certify that the foregoing account is just and correct, that the amount claimed is legally due, after allowing all just credits, and that no part of same has been paid.
